ARMY TO HALT MINE BATTLE

'FARM DOLLAR SLENDER PROP FOR INDUSTRY'

Owners, Tenants, Bankers Complain.

Mr. Evans is making a tour of central Illinois, with a view to observing conditions in agricultural and coal mining regions. This is a first of his series of dispatches.

BY ARTHUR M. EVANS.

Jacksonville, Ill., Aug. 30.—[Special.]—Metropolitan bankers and manufacturers who are building great expectations on the buying power of the farmer, when the new crop is marketed, as an accelerator of industry, appear to be over sanguine.

The farmer himself says, as a general rule, his crops this year will yield him so few dollars he will be kept busy as a barnyard fowl scratching to meet his obligations.

Even if enough were left over to give him a normal purchasing power, he would still keep out of the markets and sew fish hooks into his pockets until prices climb down further.

That is the way they have been talking—farm owners, tenant farmers, banker farmers—on the two days so far of this pilgrimage in quest of hard-boiled facts.

That's Corn Belt's Verdict.

All through the corn belt from Watseka to Jacksonville the story has been the same. At Watseka and Roopeston, where the lands are fat and rich, the farm owners have some money laid away, the "velvet" left from the years when wheat and corn prices were up in the clouds. They bought automobiles, just as everybody else did who had the dough, but still they put some shekels by, and right now, with varying degrees of emphasis they express the idea that they intend to do as little buying as possible, until retail prices of other commodities come down closer to the general level of the farm products.

It is a waiting game, in progress since the first of the year. So far as possible the farmers are buying no new equipment; they are repairing their old machinery and paring new expenditures down to the bone—the implement industry has been flat on its back since last winter.

It is all tending to make business rather slow in the small cities and villages. Although merchants report that things are picking up a bit, they invariably say little buying as yet is being done by the farmers.

His Investment Good.

As one shrewd central Illinois banker remarked this morning:

"This year the farm owner in the corn belt is not going to get anything on the investment he's got; but he's got an awful good investment, and he knows it—it isn't like an oil well or a gold mine, it's never going to peter out."

What sticks out of the scores of stories gathered so far is this:

The cost of getting the present crop in was on the old price scale to a large extent.

The tumble of farm prices below the pre-war level leaves the farmer wondering how in the world he is going to get the actual cost of production out of the sale of his goods—outside of the item of interest on "investment."

Wise observers for the last month or two have been expressing the view that the adjustment between commodity price levels and the "farmers' dollar" and the purchasing power of the agricultural regions will not be accomplished until 1922. This view, it may be stated, is quite generally expressed by the farmers themselves.

Crop Sales, Taxes, Etc.

Oats at 15 cents the bushel; old corn going for 40 or 45 cents a bushel—that causes the groans. A Springfield farm owner today spoke of his land—it bore twenty bushels of oats to the acre, a sparse yield and far below the average. A tenant works it on shares. Last week the tenant took a load of oats to town. It brought $12, or 15 cents a bushel. On a fifty-fifty basis this made the owner and tenant each a gross return of $1.50 an acre.

The taxes alone were $1.25 an acre. The seed itself cost 70 cents a bushel last year, and at 3 bushels to the acre it meant $2.10 for seed alone, to say nothing of labor and feed for the horses and general upkeep expenses.

One particularly good farm outside Jacksonville of 200 acres is run by a tenant. For ten years before the "peak" period, the gross returns averaged $11 an acre each to owner and tenant, or about $9 an acre net.

This year, at prevailing prices, the net will run not over $6 an acre each—taxes are higher, seed, fall plowing, planting, all were high, and even with the prospects of a more bountiful yield than usual the owner sees a crimp in his pocketbook. More farmers are feeding corn to hogs.

Hot Words, Deaths, Cloud Irish Peace

BY JOHN STEELE.

[Chicago Tribune Foreign News Service.]

[Copyright: 1921: By the Chicago Tribune.]

LONDON, Aug. 30.—With Dail Eireann's answer to Prime Minister Lloyd George believed to be somewhere in transit, but lost to all but a few selected messengers and principals, affairs in Ireland today seemed to take on a less rosy hue.

While factional discord to the accompaniment of rifle and machine gun fire took a toll of six more lives in Belfast rioting, a strong Irish delegation from the northern counties appeared before Eamon de Valera with a scathing denunciation of the British premier and his government in Ireland.

Mystery Over Reply.

A fog of mystery surrounds the Irish answer to Prime Minister Lloyd George. It was definitely stated in Dublin last night that it had been dispatched to Downing street, but at Downing street this afternoon it was denied that it had been received or that it was expected.

The fact seems to be that Dail Eireann before adjourning intrusted the cabinet with plenary powers and that the cabinet has discussed the reply and probably agreed on it. It is suggested that the Sinn Fein courier may have gone straight to Scotland, where Mr. Lloyd George is passing a holiday cut off from communication with the outside world except through Downing street.

Belfast Rioting Grows.

Serious rioting continues in Belfast, which is the only part of Ireland where the truce is not being observed and, incidentally, where it is necessary to continue the curfew. A serious feature of the fighting is that the Orange rioters are now using bombs of military pattern to attack the Roman Catholic district.

Belfast was cut off from the rest of Ireland for a time today by a strike of railroadmen on the Great Northern railway because of the refusal of the company to agree, like the other Irish lines, to arbitrate the question of reducing wages and increasing hours. The men struck at midnight, tying up all traffic, but this morning J. H. Thomas, the English labor leader, who has been conducting the negotiations for the men, induced the Great Northern managers to agree to arbitration and the men returned to work this afternoon.

SIX KILLED, 48 HURT

[Chicago Tribune Foreign News Service.]

BELFAST, Aug. 30.—Desperate rioting occurred in North Belfast today, following a night of sharp hostilities.

Up to curfew time tonight six persons had been killed, among them a little girl, aged 5, who was struck by a bullet when she strayed from her home, and forty-eight were being treated for wounds at various hospitals.

When the police finally separated the combatants they took to the roofs, using chimneys as shelters for shooting at persons on the streets. In North Queen street and Duncairn Gardens the rioters erected sandbag barricades, from which they fired at the opposing faction.

The police were hampered in their efforts to restore order by women and children, who persisted in congregating at the street corners. At one time the discharge of bullets was so heavy that it resembled a shower of hail, and the police, powerless, had to retreat until they secured reënforcements.

The supply of munitions, including bombs, seems inexhaustible. There have been repeated attempts at incendiarism by the opposing factions.

The six deaths today bring the total since the rioting started yesterday up to eight.

Peace Hope Jolted.

DUBLIN, Aug. 30.—[By the Associated Press.]—Optimism in Dublin over the Irish peace negotiations received a shock today when John MacNeill, speaker of the Irish republican parliament, in introducing a deputation from Tyrone and Fermanagh counties to Eamon de Valera, the Irish republican leader, delivered a violent attack against Prime Minister Lloyd George.

Speaker MacNeill said that the prime minister's word in his recent letter to Mr. de Valera, in which he mentioned the possibility of civil war, would be taken in Belfast as an incitement to fanatical violence, which the speaker declared had been the outcome of the British policy.

Against Partition.

The deputation from the two counties consisted of the chairmen of the county councils and local elected representatives. They told Mr. de Valera and the cabinet that Tyrone and Fermanagh would not submit to the Belfast parliament, of whose area they claimed to constitute 36 per cent. They declared that in the two counties there was an anti-partition majority of 7,831.

HARDING ASKS WANAMAKER TO AID DAD OF 19

Praises Mother of Large Family.

Washington, D. C., Aug. 30.—President Harding stepped to the front today in behalf of the father of nineteen children—sixteen of them living—who is working as a porter in John Wanamaker's New York department store at $20 a week.

In sending his congratulations to the mother, Mrs. Domenico Zaccahea of New York City, whose family group picture recently was printed in a newspaper, the President went back to his own home to tell how his mother, who had brought up eight children, had expressed the hope prior to her death that she might have been the mother of eight more.

After Mrs. Zaccahea had replied to the President, telling of the great burden on the father in feeding and clothing his big family, Mr. Harding wrote Mr. Wanamaker, asking if something could not be done for him, and Mr. Wanamaker promised to help.

The President's Letter.

The President's letter to the mother follows:

"My dear Mrs. Zaccahea:—I noticed in the photogravure section of one of the Sunday papers a picture of yourself, your husband and your very remarkable family of sixteen children. I cannot resist expressing my very cordial congratulations. Perhaps I am moved to do so because of a little incident in my own life. My mother bore eight children and raised six of them to maturity. One afternoon, shortly before her death, we were all at my home holding a family reunion and she spoke of having borne eight children and said, with an affection most appealing to me, that she had been happy to bear eight children and if she had her life to live over, she would have no desire to change it except to bear eight more. I thought it was a beautiful thing for her to say and the recollection of it inspired me to write my very cordial congratulations to you and add thereto my very best wishes.

"Very truly yours,

"WARREN G. HARDING."

Mrs. Zaccahea's Reply.

To this Mrs. Zaccahea replied:

"My dear President: With my most grateful pleasure I have the honor to ackowledge receipt of your excellency's letter congratulating me for my remarkable family.

"I wish to be excused for the delay in acknowledging receipt.

"I was very delighted at the news that you come from a large family and your mother was proud of having given birth to eight children and raised six to maturity.

"I gave birth to nineteen children, sixteen of whom are alive, as their photograph is herein inclosed, and I send it to you as my most precious possession.

"My husband and I are never discouraged with the great task before us, as the older ones help to support the younger, but one thing I regret is that my husband's earning capacity is only $20 per week, employed by John Wanamaker of this city.

"May I ask of your excellency recommendation for a better position to my husband where his earning capacity will be larger than his present one, so that it will give us an opportunity to bring the younger children to maturity with a better education.

"With deep appreciation of your kind interest, I am.

"Most respectfully yours,

"MRS DOMENICO ZACCAHEA."

Appeal to the Merchant.

Upon the receipt of Mrs. Zaccahea's letter President Harding sent the following to John Wanamaker:

"I am inclosing you copy of a letter which recently came to me from Mrs. Domenico Zaccahea, 419 East 19th street, New York City. She is the mother of nineteen children, sixteen of whom are living. A newspaper reproduction of the family is also inclosed.

"About two weeks ago I wrote Mrs. Zaccahea, congratulating her on her family and wishing her well. I am likewise inclosing you a copy of that letter.

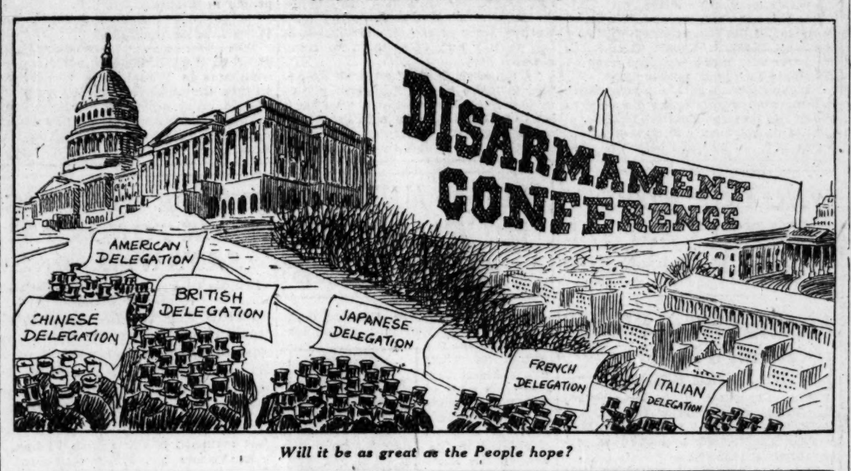

"I am now in receipt of Mrs. Zaccahea's letter, which I want to bring to your amiable attention. She tells me that her husband is employed by you in New York, that he earns $20 per week, and that she would be glad of my interest in helping him to a better salary.

"Of course, I know nothing whatever of the merits of the case, aside from the fact that quite obviously so

ASKS MILLIONS FOR NOT TELLING ABOUT WEDDING

New York, Aug. 30.—[Special.]—Most women will agree that it is worth $2,250,000 to know about a wedding and not mention it to a soul. Mrs. Beatrice Provost Nugent says she was to receive $2,200,000 for her silence regarding the marriage of her uncle, William E. Smith, and she has brought suit to restrain him from removing from safety deposit boxes bonds and mortgages that are part of the $5,000,000 estate he inherited from his mother, Mrs. Roxy M. Smith.

Six days before his mother's sudden death, Mrs. Nugent declares in her suit, Smith secretly married Miss Claire Staley, an actress, who did not meet with his mother's approval. Had she known of this marriage she would have changed her will, so Smith is said to have promised Mrs. Nugent half the estate if she would keep silent about it.

SOUTH BEND WAR OF BREAD SENDS PRICES TUMBLING

One baker out of business and several more reported in financial straits was the résumé of casualties given out last night in the South Bend bread war. The Ward Baking company, which is said to have bought the South Bend Baking company, is wholesaling bread there at 4 cents for the pound loaf and 5½ cents for the 1½ pound loaf.

J. A. DeLeury, living at the LaSalle hotel, announced last night that he is offering South Bend bread to Chicago grocers at 6¾ cents for the small loaf and 8¾ cents for the large one. He plans to ship from 17,000 to 20,000 loaves to Chicago daily.

THE WOEFUL FATE OF 'KATE CARNEY'

Or, How Robbers Broke the Wrong Box.

There was comedy as well as tragedy in the raid last Sunday night upon the vaults of the Security Trust and Deposit company in the Masonic temple.

The robbers broke into a score of safety deposit boxes, drank nearly a quart of whisky and escaped with much loot.

It became known yesterday that the valuables most wanted were those of Edmond E. Walsh, 2956 Logan boulevard, head of the E. E. Walsh Teaming company. While others have been moaning about their losses Mr. Walsh has been silent.

Some Cash, Some Gems, and—

Last night, however, Mr. Walsh gave the world a scoop.

"I wouldn't be surprised if my box was the object of the robbers' visit," he said, "but they made the natural mistake of assuming that I only had one box, where, as a matter of fact, I had two.

"In a little one, I kept some cash (it is said that the amount was $80,000), while in the other I kept jewelry and other valuables. It was this second box, a large one that the bandits broke into. Neither the papers nor the jewelry was interfered with.

3 Bottles of "Mountain Dew."

"Five years ago, before prohibition, a friend of mine made a visit to Ireland and brought back some famous Irish whisky. They gave me a case of this whisky, known as Kate Carney's Mountain Dew, and in the box the robbers broke into I had the last three bottles.

"Next January I will have been married twenty-five years and for many months I have been saving those three bottles for the celebration. Only an Irishman can appreciate Kate Carney's Mountain Dew, and I was saving it. You can replace money, but you can't replace Kate Carney whisky. Ask any Irishman. He'll tell you."

Among debris left by the robbers, the police found a half emptied bottle of whisky. They assumed it had been brought in by the bandits to bolster up their courage; they sniffed it suspiciously, labeled it moonshine, and confiscated it for evidence, little realizing that it was Kate Carney's Mountain Dew. Had they only known there is good reason to believe that there would have been little of it left for the coppers—well, most of the coppers know what Kate Carney whisky is.

DIVORCED WIFE OF EDW. TILDEN II. MARRIES AGAIN

Mrs. Frances Garnett Tilden, who was divorced in November, 1915, from Edward Tilden II., son of William A. Tilden, president of the Fort Dearborn National bank, was married at the La Salle hotel to Donald A. Beeler last night.

Mr. Beeler, who is the Chicago manager for the Index Visible, Inc., 72 West Adams street, departed with his bride on an extended honeymoon in the south. They have known one another for a year.

Mrs. Beeler was married to young Tilden on Dec. 10, 1912, and obtained a divorce from him, following the discovery by her father, William Garnett, an attorney, that Tilden had registered at a loop hotel with an actress on the night of Oct. 28, 1915. Tilden served in France in 1917 as an American Red Cross ambulance driver.

TWO BOYS MAKE $24,000 HAUL, BUT ARE SOON CAUGHT

Michael Jusker, 12 years old, 902 North Francisco avenue, and John Lesiak, 13 years old, 1260 Augusta street, were arrested yesterday after they had stolen a sample case containing jewelry and diamonds valued at $24,000 from an automobile standing in front of the jewelry store of Sidney J. Freedman, 2930 Milwaukee avenue.

The automobile and jewelry belonged to a salesman who was in the store. The boys were unaware of the value of the jewelry. They ran to Drake avenue, where they boarded a Milwaukee avenue street car. The salesman overtook the street car at Maplewood avenue and induced the motorman to stop. Sergt. Kelly was passing and took the boys into custody.

BOXING BOUT FATAL TO CADET AT ANNAPOLIS

Annapolis, Md., Aug. 30.—Injured in a boxing match at one of the interbattalion contests of the tournament that closed Saturday, Midshipman William Bruce Hayes, 16, a member of the new fourth class, died at the naval hospital here early this morning. The body will be sent tomorrow to Lock Haven, Pa., for interment.

Young Hayes was struck on the head, but not knocked out. He did not complain of any discomfort until some time after the bout. Then he was sent to the hospital. Hayes' physical condition had been passed on by navy surgeons before he was permitted to box.

Peggy's New Chum Only 24, But He's Rich

BY HENRY WALES.

[Chicago Tribune Foreign News Service.]

[Copyright: 1921: By The Chicago Tribune.]

PARIS, Aug. 30.—The identity of Peggy Hopkins Joyce's mysterious companion has been revealed. He is Peter C. Merillon, aged 24, the son of a wealthy former Paris banker who is now living at Pau.

M. Merillon, who has been engaged in the banking and brokerage business in New York for some time, returned to France on board the Olympic with Peggy. Before sailing from New York Merillon cabled to the Rolls Royce agency in Paris, purchasing a limousine for 210,000 francs—which met the couple at Cherbourg when the Olympic arrived, conveyed them to Deauville and then to Paris.

Peggy Needs Two Maids.

Peggy is living at the Hotel du Rhin, being accompanied by two maids. Merillon resides at the same hotel, having a valet and a chauffeur.

Merillon is the son of Charles Merillon, who married an American—Miss Clinch—twenty-five years ago. The father is now a widower.

In an interview with me at the Hotel Du Rhin tonight Peggy stated that she is flying to London tomorrow, although a few minutes previously her maid had said that Peggy was motoring to Biarritz with Merillon.

"I changed my mind at the last minute as I must go to London on business immediately," Peggy said. "Afterwards I shall go to Biarritz. I am flying tomorrow and I am scared because it will be my first venture in an aeroplane.

To Marry Him? Silly!

"Reports that I am going to marry M. Merillon are silly—can't a girl have a friend without marrying him?" she asked.

Last night I was at a co-respondents' conference at Ciro's, when M. Letellier and Maurice, the dancer, each of whom was named in Joyce's complaint as co-respondent, dined with Peggy, Merillon, and Charley Bell, a former champagne agent in the United States.

"I came to Paris on business and I wish that newspaperdom would let me alone," said Peggy.

Advises Maurice to Sue.

Maurice says that Peggy advised him to sue J. Stanley Joyce for $1,000,000 damages for naming him as a co-respondent. He said that Peggy assured him that he would win his case.

Both Peggy and M. Merillon expect to return to America in December. They are inseparable, lunching together at 3 o'clock in the afternoon, dining at 9 o'clock, then dancing in the Montmartre for a couple of hours.

Peggy is wearing unostentatious gowns of black—unostentatious except for the complete absence of sleeves and extremely short skirts. Nightly she wears the fabulous collection of jewels Joyce gave her.

MERILLON HAS MONEY

New York, Aug. 30.—[Special.]—Peter C. Merillon, who is reported in THE TRIBUNE dispatches from Paris to be constantly in the company of Peggy Hopkins Joyce in that city, is a frequent vistor to New York and is not unknown to the artistic American and foreign colonies of the east.

M. Merillon's interests, outside of, perhaps, the much-wed actress, consist of having a lot of money which he inherited, and in spending it.

At the French consulate attachés remembered M. Merillon, they said, and referred inquirers to the law firm of Coudert Brothers, 2 Rector street.

Shown a copy of the Paris dispatch, members of the firm smiled, explained that "it was news to them" and, questioned, said the facts as related in the press dispatch are correct as far as they know.

"Oh, yes, he is quite wealthy," said a spokesman for the law firm.

MOB WARNED BY PRESIDENT TO DISPERSE

Gives W. Virginians to Thursday Noon.

BULLETIN.

Charleston, W. Va., Aug. 30.—Armed men tonight commandeered a Chesapeake and Ohio passenger train running between St. Albans and Clothier, Gov. Morgan is informed. The men ran the train up the Pond Fork branch, brought back reinforcements, took on others at Danville, and then proceeded to Clothier. Passengers on the train were not molested.

BY ARTHUR SEARS HENNING.

Washington, D. C., Aug. 30.—[Special.]—President Harding will employ the army to put down the insurrection growing out of the mine war in Mingo county, W. Va., unless the lawless bands disperse by next Thursday noon.

This was the decision reached by the President late this afternoon in conference with Secretary of War Weeks and Gen. Harbord, deputy chief of staff of the army.

The President immediately issued a proclamation calling on the insurgents to disperse by Thursday noon, in default of which he will order troops into the state to restore order. Two regiments are ready to move, one at Camp Sherman, O., which can reach the scene in three or four hours, and the other at Camp Dix, N. J.

Gen. Bandholtz to Scene.

At the instance of the President, Secretary Weeks directed Gen. Bandholtz to proceed to West Virginia tonight and to report tomorrow and Thursday forenoon whether the President's proclamation was being complied with.

Mr. Harding was described as reluctant to take this extreme step because the war department had advised him that Gov. Morgan had not invoked the full resources of the state to restore and maintain order. A delegation of West Virginians, headed by Senator Sutherland, waited upon both the President and secretary of war and argued that the issue is the preservation of law and order, regardless of what the state might have done.

Upon receipt of the second appeal for troops from Gov. Morgan the President yielded. He declined to accede however, to the request of John L. Lewis, president of the mine workers, that the executive call a conference of the operators and miners to endeavor to settle the violent controversy raging over the effort to unionize the mines in the Mingo district. Mr. Harding is of the opinion that more can be accomplished in this direction by the senate committee which will resume its investigation at Williamson, W. Va., on Sept. 19.

Text of Proclamation.

The President's proclamation follows:

"Whereas, the governor of the state of West Virginia has represented that domestic violence exists in said state, which the authorities of said state are unable to suppress; and

"Whereas, it is provided in the constitution of the United States that the United States shall protect each state in this union, on application of the legislature or of the executive when the legislature cannot be convened, against domestic violence; and

"Whereas, by the law of the United States in pursuance of the above it is provided that in all cases of insurrection in any state or of obstruction to the laws thereof it shall be lawful for the President of the United States on application of the legislature of such state or of the executive when the legislature cannot be convened to call forth the military of any other state or states or to employ such part of the land and naval forces of the United States as shall be judged necessary for the purpose of suppressing such insurrection and causing the laws to be duly executed; and

State Asks for Troops.

"Whereas, the legislature of the state of West Virginia is not now in session and cannot be convened in time to meet the present emergency, and the executive of said state, under section 4 of article IV. of the constitution of the United States and the laws passed in pursuance thereof, has made due application to me in the premises for such part of the military forces of the United States as may be necessary and adequate to protect the state of West Virginia and the citizens thereof against domestic violence and to enforce the due execution of the laws; and

"Whereas, it is required that whenever it may be necessary, in the judgment of the President, to use the mili-

tary forces of the United States for the purpose aforesaid he shall forthwith by proclamation command such insurgents to disperse and retire peaceably to their respective homes within a limited time;

Sets Dispersal Time Limit.

"Now, therefore, I, Warren G. Harding, President of the United States, do hereby command all persons engaged in said unlawful and insurrectionary proceedings to disperse and retire peaceably to their respective abodes and submit themselves to the laws and constituted authorities of said state;

"And I invoke the aid and coöperation of all good citizens thereof to uphold the laws and preserve the public peace."

Lewis Promises Coöperation.

Indianapolis, Ind., Aug. 30.—Philip Murray vice-president of the United Mine Workers of America, left for Charleston, W. Va., today to urge miners in that district to return to work. This announcement was made by John L. Lewis, president of the miners' national organization.

Mr. Lewis issued a statement in which he held that all the trouble in the West Virginia coal fields was traceable "to the continual assaults and outrages perpetrated upon individual mine workers by the armed Baldwin-Felts guards, employed by the coal operators."

President Harding has been assured, it was added, that Mr. Lewis' office will give full coöperation in urging miners to return to their homes so order may be restored.

It was said Mr. Murray would arrive in Charleston tomorrow morning.

Logan Armed for Warfare.

Logan, W. Va., Aug. 30.—Careful preparations went forward today and tonight following reports of a gathering of armed men at Jeffery, in the adjacent county of Boone. Reported estimates of the number vary from hundreds to thousands. Telephone communication is cut off.

Fearing the men would cross the hills to Logan county, companies of ex-service men were drilled today to reinforce deputy sheriffs and state police. Regular "defense lines" have been established on the highway leading from Logan to Jeffery through one of the wildest sections in the mountains and on other roads.

While everything was quiet on the Logan side today, advices indicate much restlessness.

A special train, one coach loaded with arms and ammunition, arrived here at 7 o'clock tonight from Charleston.

8,000 AUSTRIAN TROOPS MOVING TO NEW WAR AREA

VIENNA, Aug. 30.—[By the Associated Press.]—Eight thousand Austrain troops moved into the Mattesdorf district of Burgenland today and will police the region and clear out the foreign element there. Fear was expressed here today that this demonstration may provoke a response from the Hungarian insurgents under Lieut. Hejjas.

Refugees arriving here from Odenburg say that city is quiet, but wholly in the control of the insurgents. They also report that the Hungarians in the disturbed area have destroyed a number of vineyards belonging to Germans.

Although the Austrians have established a provisional government at Mattesdorf for the territory they occupy, the Burgenland affair apparently waits upon action by the entente for settlement. Count Anton Sigray turned over the command at Odenburg to the insurgent leader, Oestenburg, who is reported to have declared in a public speech that he would expel every Austrian within three days.

The Social Democrats are demanding that the Austrian government immediately declare its intention to hold a plebiscite in the entire territory of Burgenland.

ALLIES TO MAKE SURVEY OF RUSS FAMINE DISTRICT

French Viewpoint on Russ Relief Told.

BULLETIN.

RIGA, Aug. 30.—Up to Aug. 23 there had been 112,528 cases of cholera registered in Russia since Jan. 1, it was announced today. The disease showed a large increase numerically since July 31, but the ratio of new cases is described as not alarming.

PARIS, Aug. 30.—[By United News.]—The allied Russian relief commission here decided today to send a committee of inquiry into the soviet country. Lyman Brown, who conducted the American relief negotiations with Litvinoff at Riga, was present as an "observer" at the session and was appointed a member of the subcommittee on coördination, which is to meet Wednesday. He did not vote.

The French viewpoint regarding Russian relief was outlined in a speech of welcome by. M. Leredu as "strictly humanitarian and nonpolitical."

People Not to Blame.

"It is a question of showing the Russians who have poured out their blood for the cause of civilization that the nations coming to their aid are not holding them responsible for the regime which has put them in their unfortunate position."

The Temps points out that France is not modifying in the slightest its attitude towards the soviet, but that aid must be distributed without political or social distinction."

RUSS DREAM OF GRAFT

[Chicago Tribune Foreign News Service.]

RIGA, Aug. 30.—Russia will not buy food so long as it can get the governments of the world to furnish supplies free, according to a high Esthonian official. According to the official, a merchant, in response to an appeal from the Esthonian trade ministry, offered to sell a supply of American canned meats to Russia. The soviet representative to whom the merchant went declined the offer, saying: "Why should we buy when the governments of other countries supply all that is required free?"

It is stated on good authority that soviet representatives take this attitude when food is offered to them at a price.

Arrest Russ Committee.

LONDON, Aug. 30.—The Russian soviet government, charging that the all-Russian relief committee intended to overthrow the soviet government for the purpose of establishing one of its own, has placed the members of the committee under arrest, says a Reuter dispatch from Riga today.

Cholera Kills Thousands.

New York, Aug. 30.—Thousands of famine sufferers in Transcaucasia, among them many children, are dying of cholera, said a cable message received today by the near east relief from Albert Johnson, one of its investigators.

The authorities in many cities, particularly in Armenia, are sending wagons through the streets to pick up the bodies of victims, he said. Long lines of children, for whom it has been found impossible to find space in the already overcrowded American orphanages, constantly wait in front of relief institutions, the message reported.

Nine Million Children Starving.

Philadelphia, Pa., Aug. 30.—A dispatch from the commissariat of health of the soviet government at Moscow, received today by American Quakers, stated there are more than 9,000,000 starving children in Russia.

TRIBUNE DISPATCH BRINGS AID FOR RUSSIA

Chicago, AUG. 30 1921 No.

THE FIRST NATIONAL BANK OF CHICAGO 2-1

PAY TO THE ORDER OF

CHICAGO TRIBUNE RUSSIAN FUND, $1,000.00

ONE THOUSAND & NO/100 - - - - - - - - - - - - Dollars

S805925 John Wineberg

THE TRIBUNE received yesterday a check (of which the above is a facsimile) for $1,000 for Russian relief from John Wineberg, president of the Consolidated Millinery company, 35 South Wabash avenue. In his letter Mr. Wineberg, who lives at 930 Maple avenue, Evanston says:

"Floyd Gibbon's article in your paper this morning surely opens our eyes to one of the greatest disasters in history.

"Let us get busy and do something, before it is too late and before navigation closes.

"The farmers are overloaded with rye, wheat, and corn, and are looking for a market for it, therefore, why don't we buy their goods and load them in our vessels and rush them to some Russian port.

"I am sure that when such an appeal is made to the American people in behalf of the Russians, who have been our friends all through the American history, and as late as four years ago, they fought side by side with us, we will not have any trouble in raising a $200,000,000 fund for the starving people in Russia.

"I for one inclose my check for $1,000 to start the fund."

THE TRIBUNE is forwarding the $1,000 to Herbert Hoover, secretary of commerce in Washington, who is directing the American relief work in Russia. Any other contributions sent to THE TRIBUNE will be acknowledged and applied at once to the aid of the starving in Russia.

WHO GOT MONEY? CURTIS ESTATE ONLY $185,000

Figures Called Blow at Small's Defense.

BY PARKE BROWN.

When the estate of the late Edward C. Curtis, state senator from Grant Park, was admitted to probate about a year ago it was appraised at approximately $185,000.

This fact was cited yesterday in a discussion of the pending cases of Gov. Len Small, Lieut. Gov. Fred E. Sterling, and Vernon Curtis, a brother of the late senator, who succeeded him in his banking and financing activities, and in particular in the ownership of the Grant Park bank.

The discussion centered around the question, "Who got the big money?" which has been talked about wherever the Small case has come up since the estimate made last week that the amount of interest earned by state funds which failed to reach the treasury during the years 1917, 1918, 1919, and 1920 was about $2,500,000.

How Estate Valuation May Figure.

It has also been generally understood among politicians and lawyers familiar with the history of the big interest scandal that one of the methods of defense at least considered has been a "defense by implication." In other words, it has been reported that the indicted officials, without denying that more interest might have been paid on funds in their custody than reached the state treasurer, may attempt to show that "someone else got it."

The "some one else" in this connection, it is said, could be none other than the dead man, Senator Curtis, and the production of the figures disclosing the estate he left may play some part in the trials if they can be brought in as relevant matter.

Had Debts of $138,750.

The inventory of the estate, filed in Kankakee county last September, is said to have been handled by Werner W. Schroeder, who was "brought up" by Gov. Small and is now head of the legislative reference bureau. It was a surprise to many close friends of the late senator for, instead of showing him as a wealthy man it failed to list any money on hand at the time of his death. The obligations against his estate totaled $138,750.

The biggest single item inventoried was 660 shares in the Curtis Trust company valued at $99,000. Other bank holdings were pledged as security for loans aggregating $125,000. So there were none of the usual indications of prosperity.

The inside report yesterday was that the fight over the change of venue motion made in behalf of Gov. Small is to be a protracted affair.

Consider Several Counties.

Lawyers from various sections of the state have been summoned to consultations, it is learned, in which the prospects have been discussed of the availability of a half dozen downstate counties. Coles county became a possibility yesterday with the appearance in Chicago of Isaac B. Craig of Mattoon, one of the best known of downstate criminal lawyers, who was in consultation during the day with some of Gov. Small's advisers.

There are hints that the governor and his legal staff will get together at Springfield possibly tomorrow or Friday to discuss the procedure that is to be followed when the case comes up before Judge E. S. Smith in Springfield next Monday.

BRENT D. ALLINSON BECOMES AUTHOR TO PRAISE GERMANS

Brent Dow Allinson, Chicago draft dodger, now a resident of Bremen, Germany, is the author of "The Truth About Germany," a copy of which reached Chicago yesterday. It is being circulated in Europe by the European Press, a German propaganda sheet printed in English and distributed among English speaking people.

BRENT DOW ALLINSON.

"The bulwark of the new democracy in Germany is the organized labor movement," he writes. "Yet, with the irony of fate, it is precisely on this class that the allied military penalties weigh heaviest with the concomitants of crushing taxation, high prices, and dislocation of industry. It is essential to the peace of the world that public opinion in America should understand this situation and the tragic way in which the wholesome influence of the Germain labor and pacifist movements is being steadily destroyed by the ever-present menace of invasion from the west."

The article recites the "hardships" of military ocupation.

EUROPE WORKING BACK TO NORMAL, SAYS W. D. HINES

[Chicago Tribune-New York Times Cable.]
[Copyright: 1921.]

PARIS, Aug. 30.—In spite of cloudbursts of national feeling which give rise to local disturbances, central Europe is showing a commendable desire to get back to normal conditions, says Walker D. Hines, arbitrator on river shipping in Europe, who has just returned to Paris from Vienna.

In Vienna Mr. Hines conducted a five days 'hearing with reference to questions connected with his Danube determination. Throughout the whole course of the meeting he found striking evidence of a spirit of coöperation among the peoples of the seven countries having interests along the Danube. Germany, Austria, Hungary, Jugo-Slavia, Czecho-Slovakia, Roumania, and Bulkaria, were represented at the hearing and here is what Mr. Hines says of them:

"The nations have argued their cases with the greatest thoroughness and earnestness, but have coöperated splendidly in giving effect to my decisions. The results should be the speedy elimination of uncertainty from transportation problems on international rivers and I believe that this will be a valuable influence in restoring commerce to normal conditions."

"UNCLE JOE" TO QUIT CONGRESS AT TERM'S END

Rodenberg Brings News of His Decision.

"Uncle Joe" Cannon will not be a candidate for renomination and reelection to congress from the Danville district next year. His congressional service will terminate by his own wish with the end of the present, or Sixty-seventh, congress.

This information was brought to Chicago yesterday by Congressman William A. Rodenberg of East St. Louis, just from Washington.

"There is no doubt about it," Congressman Rodenberg said. "Uncle Joe's intimate friends and his family are fully apprised that Mr. Cannon has made his last primary fight and that he will not return to congress after the end of his present term."

Many to Seek Place.

Uncle Joe's voluntary withdrawal therefore leaves the field wide open for the Republican congressional nomination in the Eighteenth district, which will be settled at the primaries next April. State Representative William P. Holaday of Georgetown and John H. Harrison of Danville are understood to be ready to get into the going, and there may be other candidates.

"Uncle Joe at the climax of his power was the most potential figure in national politics," Mr. Rodenberg said. "When the house rules were changed and the speaker made a mere figurehead, at the time of the celebrated fight against so-called 'Cannonism,' the house of representatives lost a degree of prestige that never has been regained. The passing of the then Speaker Cannon marks also the passing of the power of the house of representatives, in the judgment of nearly all members of congress."

In Congress Since 1872.

Uncle Joe has been in congress, with the exception of two terms, since his election the first time in 1872. He went to defeat on the issue of the McKinley tariff in 1890 and he was swamped in the Republican catastrophe of 1912. "Involuntary vacations," is the way the former speaker usually refers to his two defeats. He frequently said to his friends that he hoped "to have a funeral at the govment's expense," meaning that he wished to die in the harness and on the job, as did his old partisan foe and personal friend, Champ Clark.

Uncle Joe now is easily the dean of congress. He is serving his twenty-third term, which is a longer service than that of any other man, senator or representative.

BRITON CHARGES TARIFF DELAYS DEBT PAYMENTS

Opposes Higher Cutlery Duty in Bill.

[BY A STAFF CORRESPONDENT.]

Washington, D. C., Aug. 30.—[Special.]—Increased duties on high speed steel in the Fordney tariff bill were objected to by a delegation from the Sheffield chamber of commerce of Sheffield, England, today before the senate finance committee.

Arthur Balfour, spokesman for the delegation, urged the American congress to keep duties as low as possible to facilitate the payment of the debt owed the United States by Great Britain.

It was asserted that the proposed new duties on high speed steel amount to four or five times the present duties and will not only greatly restrict imports from the Sheffield district but actually will drive a few companies manufacturing cutlery and similar products out of business.

Big Share Comes to United States.

Eighteen per cent of all the manufactures of the Sheffield steel district come to the United States, Mr. Balfour said. Some of the factories send practically their entire product to this country.

Mr. Balfour objected to combination duties which are proposed in the Fordney bill, both as a means of developing the high speed steel industry in this country and of protecting the tungsten industry. This bill imposes a duty of 30 per cent ad valorem on high speed steel, which is designated as steel valued at more than 40 cents a pound, and also provides a duty of 72 cents a pound on the tungsten content of the steel.

Mr. Balfour asked that the 20 per cent duty be reduced to 10 per cent and the 72 cent duty to 35 cents. The duty on high speed steel, in the present law, is 15 per cent ad valorem. On a foreign valuation basis the 10 per cent rate suggested by Mr. Balfour on the American valuation basis would be about the equivalent of the 15 per cent foreign valuation of the present law.

Against Valuation Plan.

The witness objected to the adoption of the American valuation plan, declaring that the change in basis would make considerable difficulty for the British steel manufacturers in quoting local prices. Mr. Balfour described industrial conditions in England, which he said probably are worse than in the United States. He indicated that there are 2,000,000 workers in England wholly idle and between 2,000,000 and 3,000,000 working half time.

"We are suffering under very bad conditions," Mr. Balfour said. "The industrial situation is bad everywhere. We are under a burden of taxation amounting to $23 per capita.

"All we ask is to let us work, live, and pay back what we owe. The difficulties confronting us in attempting to pay the enormous sum that we owe you is very great. We ask to be permitted to pay in goods.

"If the proposed duties are in effect I do not believe we shall be able to send anywhere near half as much as we do now.

Wages Nearly the Same.

"Our wages have gone up very much since the war, having increased 400 per cent since 1912, while your wages have advanced only 100 per cent during that time. I do not think our wages now are much different from yours. Our coal, however, is very much higher than yours.

"We do not believe in retaliation in our country. Whatever happens, I believe we always will give you free entry in our markets. So we ask you to give us the best you can. We ask that after the long connection we have had you don't put us out of business.

"We have very strong feelings that the peace of the world depends on you and us. We want to do nothing to disturb the friendly way in which we have worked during the war."

Boston Men Protest.

Cornelius Parker and Theodore P. Grant of Boston protested against the duties on cream and butter. They spoke for importers of Canadian cream.

John M. Hartley of Chicago, representing the Retail Bakers' Association of America, protested against the proposed duties on eggs, almonds, filberts and cocoanuts.

E. H. Hickok of the National Association of the Baking Industry, declared the meat packers would be the only ones to benefit from the duty on eggs.

A. L. Goetzmann of Minneapolis, president of the Millers' National federation, and L. E. Moses of Kansas City, president of the Southwest Millers' league, urged that the duty on flour be increased above the rates provided in the Fordney bill.

WASHINGTON NEWS —IN BRIEF—

WASHINGTON, D. C., Aug. 30.

President Harding will order troops into West Virginia to put down the insurrection growing out of the coal mine war in Mingo county unless the lawless bands disperse by next Thursday noon.

Legislation establishing a credit machinery to aid farmers in producing and marketing crops through advances ranging from periods of six months to three years urged by Representative Anderson, Minnesota, chairman joint commission of agricultural inquiry.

Among witnesses before senate finance committee protesting against Fordney tariff duties was Arthur Balfour, spokesman for chamber of commerce delegation from Sheffield, England, who said proposed duties on high speed steel would cut in half British exports of cutlery and similar products and would drive several companies out of business. He urged duties be kept as low as possible to facilitate payment of British debt to America.

Administration officials deny plan is under consideration involving possible changes in the proposed legislation for enabling war finance corporation to purchase railroad securities from the railroad administration.

President congratulates Mrs. Domenico Zaccahea of New York, on being the mother of nineteen children, sixteen living, and asks John Wanamaker to do what he can for her husband who is employed by him at $20 a week, to which Mr. Wanamaker replies that he is now paying Zaccahea $2 a week more than other men doing the same work, but promises to promote him as soon as his English improves, and to find a job for his oldest son.

During the fiscal year ending June 30, 805,228 immigrants were admitted into the United States. Departures were 247,718.

Value of German property U. S. seized during war to be weighed against American claims arising from the Lusitania and other cases. Congress is to decide on the action.

President Harding may decide this week on vocational training for disabled veterans. The first college will probably be at Camp Sherman, O.

VOCATIONAL AID FOR VETERANS IS UP TO PRESIDENT.

Col. Forbes Submits His Training Plan.

Washington, D. C., Aug. 30.—[Special.—Col. Charles R. Forbes, director of the newly created veterans' bureau, today called at the White House and left with the President a report containing detailed recommendations for the untilization by the federal government of some of the abandoned army cantonments as a rehabilitation center for the vocational training of ex-soldiers.

This report was prepared at Mr. Harding's request, following a thorough canvass. The President will give the report his immediate consideration and many be ready to make a definite announcement of the plan later in the week.

As a starter it is very probable that one camp, such as Camp Sherman, O., may be used by the government as a training center for about 10,000 ex-soldiers.

Others May Be Used.

If that experiment proves successful the President will be ready to authorize the use of other cantonments according to the needs of the situation. There are about 150,000 former soldiers of the world war now in need of vocational training.

Col. Forbes will leave Washington, under the President's instructions, Thursday morning on an extended inspection trip throughout the middle west and Pacific coast states. He will take in Chicago, Minneapolis, Helena, Spokane, Seattle, Tacoma, Portland, San Francisco, Los Angeles, and many intermediate points. While on this trip Col. Forbes plans to inspect many hospitals, vocational training centers, branch offices, and rest centers of the veteran bureau.

Negro Gets Bureau Job.

Appointment of Dr. J. R. A. Crossland, Negro, of St. Joseph, Mo., as a "special expert" in the veterans' bureau to look after the interests of Negro soldiers and sailors, was announced today. A force of Negro clerks and stenographers will be employed to receive claims for compensation, war risk insurance, vocational training, and medical attention.

HIS NUPTIAL RACE NOT "FOR MAIDENS" BUT "PREVIOUS WINNERS"

New York, Aug. 30.—[Special.]—Meyer Mauer's marital life was just one surprise after another.

He told the Supreme court about it today when he asked for an annulment of the match and recited the list of unexpected events that came to him after he was duly wed.

When he married Becky Mauer, he says, she represented herself as a widow with one child. Surprise No. 1—Another child came to the home, calling his wife "mamma."

Surprise No. 2—Second child came along later, also child of wife.

"How come?" asked Meyer. "Thought you only had one child?"

"Oh, I merely forgot to tell you about this one," said his wife.

Surprise No. 3—Third child, also added starter, comes along to live with mother.

Surprise No. 4—Fourth unheralded infant adds itself to home circle.

"How much of a family have I?" asked Meyer.

Surprise No. 5—"There are two more," said the missus, and the family grew from the one listed child to seven.

Surprise No. 6—Meyer discovered that Mrs. Mauer had two other living husbands and then he decided to let the Supreme court put an end to his family surprise party.

"It is a case of fraud and misrepresentation," he said in asking annulment. "Here I thought I was getting a widow with one child and I find that I got a woman with seven children and two husbands."

Fur Workers to Strike Tomorrow; Pay Cut Cause

Five hundred union fur workers will go on strike Thursday morning, as the result of a meeting last night in Musicians' hall, when they voted, 420 to 26, to reject the proposal of the Fur Manufacturers' association to cut salaries $10 a week.

ERZBERGER BODY REMOVED TO OLD HOME FOR BURIAL

Germany Now Under Strict Rule.

[Chicago Tribune Foreign News Service.]

OPPENAU, Baden, Aug. 30.—The local police here have been reinforced by thirty Berlin detectives, accompanied by trained police dogs, to aid in searching the Black Forest for the murders of Herr Erzberger.

All towns in the vicinty have been placarded with announcements offering a reward of 120,000 marks for the two assassins, but so far the authorities have not been able to unearth any clews as to their identity.

Herr Erzberger's body was conveyed to Biberach, his birthplace, accompanied by his widow and children. The funeral party traversed the exact spot of the murder, the wiodw shielding her eyes with her handkerchief and weeping convulsively as she passed.

The detectives believe the murderers reached a railway station and entrained for France or Switzerland.

Germany Under Strict Rule.

BERLIN, Aug. 30.—Germany was today under restrictions closely approaching martial law, as a result of a decree issued late yesterday by President Ebert. Meetings, processions, demonstrations and the issuance of publications "likely to encourage seditious movements" were forbidden in the decree, and warning was given that "any and every insurrection" would be suppressed with relentless severity.

Two persons suspected of complicity in the assassination last week of Mathias Erzberger, former vice chancellor, were arrested yesterday. The police also are looking for Oltwig von Hirschfeld, who some time ago tried to murder Herr Erzberger and was sent to prison.

Hirschfeld was released recently for reasons of health and since then there has been no trace of him. His parents disclaim all knowledge of his whereabouts. They have been brought to Berlin for further interrogation by the police.

PRESIDENT WELL SATISFIED WITH SHIPPING BOARD

Backs Lasker's Acts; Disapproves Criticism.

Washington, D. C., Aug. 30.—[Special.]—President Harding is said to be growing weary of some of the criticism that has been leveled at Chairman Albert Lasker and the latter's colleagues on the new United States shipping board.

This criticism began when the board, with the full approval of the President, seized the vessels of the shipping board, which were being operated by the United States Mail Steamship company. The criticism has taken various forms, ranging from rumors in Washington that Chairman Lasker was being "spanked" by the President and contemplated resigning, to allegations that Gen. Charles G. Dawes, director of the new budget bureau, had criticized the present administration of the shipping board.

President Is Satisfied.

President Harding today permitted it to become known that he is not only aware of, but satisfied with, the work so far done by the new shipping board and that he thinks Chairman Lasker has fully justified his position in the attempt that was made to recover for the government the nine big vessels chartered to the United States Mail Steamship company.

The President also approved of the "chucking" of another million dollars into the United States Mail company venture to pay for tickets sold to prospective immigrants, who expected to come to this country in ships the government has just recovered from the United States Steamship company.

Mr. Harding, it was learned today, feels that American honor was involved in the sale of these tickets and that it was incumbent on the government to pay the cost of keeping its integrity good in the transaction.

Objected to Ship Sale.

The criticism of Lasker has extended also to the recently announced purpose of the shipping board to sell 205 wooden ships for an aggregate of about $700,000 which was virtually the cost of one.

The chief buyer is the Ship Construction and Trading company of New York, which, it has been charged by the New York World, filed a claim for $1,952,230 for building two of the vessels, whereas the original contract price was $300,000 each. It is said the government already has paid out $1,333,000 on this claim.

There is some doubt whether the bid of the Ship Construction and Trading company of $2,100 per vessel will be finally approved and put through, but rumors that new bids may be sought are not credited.

Congress Critizes Price.

Meantime, there has been discussion of the sale upon the floor of congress, several members criticizing the bid of $2,100 per vessel as absurdly low.

Simultaneously with the White House indorsement of the record of the new shipping board a statement was issued today by Gen. Dawes, saying that Chairman Lasker has the "full sympathy and confidence" of the director of the budget, who had not criticized the present administration of the shipping board.

SMOOT HAS NEW BASIC PLAN FOR U. S. TAXATION

Provides for 6 Sources Instead of 35.

Washington, D. C., Aug. 30.—A new basis of taxation to take the place of the house revenue measure and practically all present tax laws was proposed today by Senator Smoot, Republican, Utah, who announced he was preparing a bill embodying the plan, which he estimated would yield $3,895,000,000 this year. He added that he would take the question up with the senate finance committee when it begins consideration of revenue questions Thursday.

The use of only six sources of taxation, including a tax on manufacturers' sales, instead of the more than thirty-five now on the statute books, was advocated by Senator Smoot.

His Fountains of Wealth.

The six wells from which the Utah senator proposed to pump revenue and the amounts which he estimated each would yield annually follow:

Income taxes (maximum rate of 32 per cent), $830,000,000.

Ten per cent tax on net corporation profits, $445,000,000.

Tobacco taxes (present rates), $255,000,000.

Estate taxes, $150,000,000.

Manufacturers' sales tax (3 per cent), $1,200,000,000.

Import taxes (tariff), $400,000,000.

While the six sources would produce only $3,280,000,000, Mr. Smoot estimated that the other $615,000,000 would be obtained from collection of unpaid taxes, receipts from war salvage and the old tax on withdrawals of liquor from bonded warehouses.

Revenue from Salvage.

Unpaid taxes, he figured, should add $340,000,000 to this year's revenue, war salvage receipts should be around $200,000,000 and the liquor tax should produce another $75,000,000.

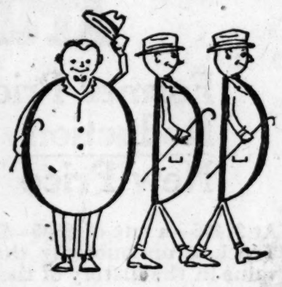

The $3,895,000,000 anticipated as the law's yield will exceed the government commitments at present by $434,700,000, according to Mr. Smoot.

The surplus, he said, could be used by the treasury to meet other demands which might be made upon it.

One of the arguments which Mr. Smoot said could be made in favor of his program was its simplicity. "Anybody can make out his tax return," if congress adopts his suggestion, he said, adding that it would result in a saving of perhaps $25,000,000 in tax collections and would do away with about two-thirds of the employés in the revenue service.

Democrats of 48th Ward O. K. Culkin for Leader

At a meeting of the regular Democratic organization of the Forty-eighth ward in Chateau hall, Grace street and Broadway, last night Joseph A. Culkin, 4166 Clarendon avenue, was indorsed for ward committeeman. Officers elected were: William E. Mooney, 109 North Dearborn street, president; Frank B. Collins, William Clancy, and Pierce Shannon, vice presidents.

Now We Know Where We Are

It's good to be getting back to normal again.

Good for us who sell, and you who buy.

We can all know where we stand; know what to do.

Now it's clothing that has gotten back to normal; back to stable prices; back to fixed values that we can all figure on and feel at home with. 1922 woolens range the same as this year's goods, with changes too slight to affect the made-up garment.

So you can buy once more without any uncertainty or misgivings; without any lingering, reproachful suggestion that it might be better to wait.

And we can all look forward to a long, quiet period of safe, sane, steady business in clothes, with no disturbances, quite like old times.

Today many businesses are looking for some spectacular sales or advertising "life-saver" that will make orders flow in.

Thoroughness is *extraordinary* if not *spectacular*. It's the one magnet that always has and always will get orders.

Thoroughness distinguishes all the sales and advertising work we are made responsible for. By *thoroughness* we mean:

1 *Putting experienced principals on your sales-advertising problem—and keeping them there.*

ROOT SAYS 'LAW' IS STRAYING FROM FUNDAMENTALS

Warns Bar to Get Back to Basic Principles.

Cincinnati, O., Aug. 30.—Before the forty-fourth annual convention today of the American Bar association Elihu Root urged the barristers to play an important rôle in creating public opinion and in educating young lawyers in the fundamentals of the law.

"Modification of the principles of law is going on at greater speed and in larger scope than ever before," Mr. Root said. "There are decisions on both sides of every question you can imagine. Changes in the administration of law have forced themselves even to the attention of the public. The application of law is so widely different from that of fifty years ago that some guiding line must be found.

"Get Back to Common Law."

"We must seek for the principles of common law, which is being slowly modified by thousands of statutes and decisions of courts of last resort. We have come to the point where we must have done with desultory discussion and come to conclusions. We must have a system of education requiring the background of the law which explains the true method and scope of law."

The former secretary of state urged that the bar association exercise strict supervision of lawyers of the coming generation so that the legal profession might have competent men to administer the law.

A step toward heightening the influence of the bar association was proposed in a committee report by Clarence N. Goodwin of Chicago. His committee suggested compulsory membership in the bar association instead of voluntary, as at present, and the right to educate, admit, and disbar all members in the discretion of the association.

Delayed Trials Foster Crime.

The history of organized government demonstrates that the speedy trial of criminal cases and the swift and certain punishment of criminals effects a reduction in the volume of crime, Edwin W. Sims, president of the Chicago crime commission, told the association.

"On the other hand," Mr. Sims continued, "increased crime follows closely on the heels of delayed trials and deferred punishment. In short, crime increases or decreases in the proportion that punishment is swift and certain. The speed with which a crime is punished has a great deal more to do with the preservation of law and order than the severity of punishment.

"Criminal laws bear close analogy to natural laws. A child puts its hand in the fire but once. One experience is sufficient. It is not necessary that the injury be severe.

Retarded by Theorists.

"Existing criminal laws in America are the evolution of centuries of experience. As they have been developed they are invaluable. There are those, however, who attack the theory of punishment and who, contending that crime is a disease, recommend and urge that punishment be abolished and some other form of treatment substituted. It is a grave mistake to interfere with, impede, or hamper the enforcement of existing laws, which have been centuries in development.

"Three years ago the Chicago Association of Commerce appointed and financed a crime commission. It does not of itself undertake the apprehension nor the prosecution of criminals. The commission limits its activity to investigation of crimes of violence, murder, burglary, and robbery. It early reached the conclusion that crime flourished because criminals escaped punishment.

"The commission was organized in the year 1919. Data for that year show there were 110 murders to 1,000,000 of population in Chicago, as against nine to the million in Great Britain and thirteen to the million in Canada. During the year 1919 there were more murders in Chicago, with a population of 3,000,000 than in the British Isles with a population of 40,000,000.

"In Great Britain and Canada murder cases are generally disposed of within sixty or ninety days. In American cities practically no murder cases are tried within ninety days.

"On April 1, 1920, 135 persons indicted for murder were awaiting trial in Chicago. In 104 cases the accused were at liberty on bond. In compiling its report the Chicago crime commission ran across a case eight and one-half years after the crime was committed, and the defendant was placed on trial."

Suspects the Ku Klux Klan.

In the opinion of Hampton Lawrence Carson, Philadelphia, acting president of the association, the Ku Klux Klan should not be permitted to usurp the authority of courts.

"A firm administration of the law is needed to meet conditions of criminal violence," Mr. Carson said. "There must be orderly procedure, such as a judge would give. A hasty trial by a mob is a lapse toward barbarism. Efforts of the Ku Klux Klan or other organizations to enforce law only means more excitement, more violence, and such efforts have no place in the United States."

SEEING WHO'S ROARING NOW

Thanks to members of the Lincoln park board, little crippled visitors now can get just as close to the animals and birds as kids who can run and jump and walk. In their new chairs, with big sister or brother to push them, they can get on speaking terms with the elephant, Mr. Bear, and Br'er Rabbit.

Yesterday two kiddies who are not cripples but who wanted to the innovation for their unfortunate playmates, were given a ride. The Tribune photographer caught Pearl, left, and Viola Jouron, in the chairs, and Margaret Dieht standing behind them.

That's Better

No longer must the little crippled boys and girls content themselves with a long-distance view of the animals in the Lincoln park zoo. No longer must they imbibe their knowledge of natural history from the cushioned seat of some Lady Bountiful's automobile.

For now they can go right to the railing in front of the lion's cage and see where the roar comes from or journey through the bird house and get just as close to their feather friends as any luckier owner of a good pair of legs.

The change has been wrought by members of the Lincoln Park board who have purchased six wheel chairs for juveniles and installed them in the Academy of Science building near the Clark street car line for the free use of little crippled visitors.

They were tried out yesterday by Pearl and Viola Jouron of 709 Center street, who are not crippled, but who took the first ride in the new chairs just to see how they went. Margaret Diehl of 647 Center street, and her sister volunteered to push their playmates on the initial journey.

TURKS PUNISH GREEKS IN TRAP ON SAKARIA RIVER

CONSTANTINOPLE, Aug. 30.—[By the Associated Press.]—The Greek troops in Asia Minor have abandoned their flank movement in the salt desert against the Turkish nationalist positions along the Sakaria river. The Greek troops are suffering terribly from lack of water and also are being badly punished by the Turkish Second corps, operating in the center of the Turkish lines.

The Greek desert division has been thrown into action along the Sakaria south of the Angora railway, where the two armies are facing each other on a line running east and west. The Greeks have been attempting attacks against the Turkish Sakaria defenses, but the Turkish headquarters today announced that these had failed.

WOMAN VISITOR MISSING AFTER SHOPPING TOUR

Search is being made today for Mrs. John W. Jewell, wife of a Kansas City merchant, who disappeared yesterday afternoon while shopping in the loop. She is said to have been wearing jewelry worth several thousand dollars and had $250 in cash.

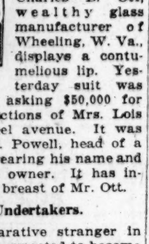

Mrs. Jewell and her husband arrived in Chicago last Friday night on an automobile tour.

She is 5 feet 9 inches tall, weighs 190 pounds, and has brown hair.

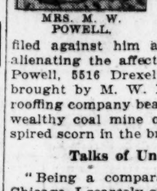

SUED AS 'LOVE PIRATE,' TALKS OF UNDERTAKERS

Southerner Scorns North's "Strange Ways."

They handle their affairs queerly, suh, north of the Mason-Dixon line. Where a couple pistols, a coffin, and an embalming expert would suffice down West Virginia way, we go to the extreme of calling in lawyers, bailiffs, jurymen, and all such jurisprudential superfluities.

M. W. POWELL.

MRS. M. W. POWELL.

Wherefore Charles B. Ott, wealthy glass manufacturer of Wheeling, W. Va., displays a contumelious lip. Yesterday suit was filed against him asking $50,000 for alienating the affections of Mrs. Lois Powell, 5516 Drexel avenue. It was brought by M. W. Powell, head of a roofing company bearing his name and wealthy coal mine owner. It has inspired scorn in the breast of Mr. Ott.

Talks of Undertakers.

"Being a comparative stranger in Chicago, I scarcely expected to become a public character in your fair city," reads a statement issued by him through Attorney Charles E. Erbstein. "I realize that I will have to go some to live up to the reputation I seem to be imputed with as a love pirate. In West Virginia undertakers handle the results of such affairs. However, we live to learn, and it is all in a lifetime."

Wife Makes Denial.

Mrs. Powell also took occasion to deny the allegations.

"Mr. Ott called at my home last Sunday and took my sister to church," she said. "I was absent at the time, but he has never called on me. It is my sister to whom he is attentive."

Recently Mrs. Powell filed suit for divorce, charging her husband with cruelty. She asked the custody of her two children, both of whom are with their father.

Germany Pays Allies Billion More Gold Marks

BERLIN, Aug. 30.—Announcement was made today by Otto Von Glaznapp, vice president of the reichsbank, that Germany has paid a billion gold marks due to the allies on Aug. 31. He added that the reichsbank had been obliged to take 68,000,000 marks in gold dollars and other foreign moneys from its gold reserves, which are now on the way to New York.

PRESIDENT ASKS WANAMAKER TO AID FATHER OF 19

Congratulates Mother of Large Family.

(Continued from first page.)

large a family could readily accommodate itself to a more liberal basis of income.

"I have been so much interested in the case that I have cast about somewhat in the hope of finding a way to help this man through the government's service. It seems well-nigh impossible to do anything in this way; so I am taking the liberty of writing to you to express my hope that you may be able to find a way of helping this somewhat notable family.

Men Frequently Sidetracked.

"You will understand that I am merely bringing the case to your attention in the hope that without departure from proper business procedures you may be able to do something. I have many times noted, as you doubtless have also, that not infrequently men capable of much better things are side-tracked in positions which give them no opportunity for the development of their best possibilities.

"It has occurred to me that this might, on investigation, prove to be such a case, and that this man, if given the opportunity, might prove himself thoroughly worthy of a chance to earn, both for himself and his employers, a considerably better income. It is with this thought in mind that I am calling your attention to the case.

"If I can be helpful to you in any arrangement to ameliorate the difficulties for this apparently deserving family, please let me know in what way I can serve.

"Most sincerely yours,
"WARREN G. HARDING."

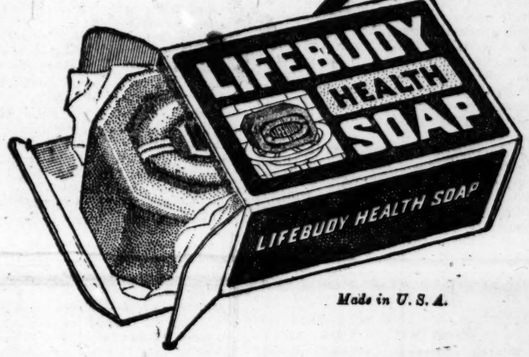

Mr. Wanamaker's Reply.

To this Mr. Wanamaker replied that after a personal investigation he had found Zaccahea to be a hard working and conscientious porter in the New York store. Because of Zaccahea's limited knowledge of English, however, his worth to his employers did not justify an immediate increase in wages. Already, Wanamaker wrote, Zaccahea is receiving $2 per week more than others doing the same work, because of his large family.

He promised, however, to find work for Zaccahea's grown son and to advance the elder Zaccahea as rapidly as was justifiable.

General Motors Trucks

Former Price	$1995
Reduction	500
New Price	$1495

At $1495—a cut of $500—GMC Model K-16, One Ton Truck, is undoubtedly the biggest dollar for dollar value in the history of the truck industry.

We not only feel that way, but we can prove it by a comparison part by part with other one ton trucks, and by the records of economical operation and long life.

While this truck is a better truck than it ever was, it has been brought to a popular price. Add to this its low operating cost in city delivery, farm work, bus service and for police and fire patrol and you can get a conception of its remarkable dollar for dollar value.

Here is a one ton truck built from the ground up of real truck parts. There's not a passenger car part in it.

Electric lights, starter, and cord tires are standard equipment. It has removable Cylinder Walls, Removable Valve Lifter Assemblies, Dual Cooling, Superheated Carburetion, Centrifugal Fly-ball Governor and many other distinctly GMC features.

See dealers for further details and for price reductions on all other GMC models.

JURY ABSOLVES O'MEARA; TELLS OF SCHLOGL ROW

Admits He Struck Man Who Was Found Dead.

The death of Joseph A. Schlogl was held to be accidental and Joseph J. O'Meara, 6571 Lakewood avenue, was exonerated of all blame by a coroner's jury yesterday evening.

JOSEPH A. SCHLOGL

O'Meara, who was a first sergeant of Battery E, 149th artillery known as Rielly's Bucks, during the war, surrendered yesterday to Sergt. George Cudmore of the Town Hall police station. He admitted he had quarreled with Schlogl and had struck him in the face with his open hand, causing him to fall.

He gave testimony at the inquest, although informed by Coroner Peter M. Hoffman that he was not required to do so. He said he is 26 years old, a buyer for the New England Mills company, and lives with his mother and three sisters.

Story Told by O'Meara.

Questioned by Coroner Hoffman, he said in substance the following story:

"I have known Joseph Schlogl, just to see him, for about three months. I usually saw him at the La Rose saloon at Briar place and Broadway.

"Sunday night I reached there about 8 o'clock. We had several drinks and played cards, hearts, for a penny a heart and the drinks. I had no quarrel there with Schlogl.

"Later I went to the Flat Iron saloon, Clark and Halsted streets. Schlogl was there. For some unknown reason Schlogl started quarreling with me.

"He kept repeating that I was only a big kid. He called me vile names, and when we finally left the saloon I gave him an open handed slap in the face, not hard; but it caused him to fall. He picked himself up, and then I turned around and looked for a car. He fell again while I was not looking. I did not realize he was hurt.

"I paid a taxi driver to take him home, accompanied by a man who knew him. If I had had any idea he was injured I would have rushed him to a hospital."

Others Corroborate Story.

Other witnesses corroborated the story of O'Meara. J. P. Burke, a bartender, living at 754 California terrace, testified that he accompanied Schlogl home in the cab.

START DAY RIGHT; DONATE USE OF AUTO TO ORPHANS

Do you want to start the day right? Do you own an automobile? Would you loan it for a few hours today? Then call Victory 7596 and ask for the president of the Orphans' Automobile Outing association. He will do the rest.

Five hundred cars were needed. Four hundred and fifty-five have been contributed. Forty-five more will make it certain all the orphans will get a ride.

The outing will be held in Lincoln park. Lunch will be served to the little ones. The Chicago band has donated its services. Many old people will enjoy this outing also, as an invitation has been extended to the numerous old people's homes.

The success of the outing depends on motorists. Let's not disappoint them.

FOIL TRUSTY'S ATTEMPT TO DIG WAY OUT OF JAIL

Jacob Bowman, a "trusty" at the county jail, was seized by guards yesterday shortly after he had attacked the north wall of the prison with a crowbar in an attempt to tunnel out. Julian Lawrence was unable to tell whether yesterday's was the first attack or whether the prisoner had been working on the wall for several days.

Bowman was taken to the county jail after he had served three years in the Pontiac reformatory. He has still several months of a year's sentence to serve here; then he will be returned to Pontiac to serve another sentence for breaking parole.

CLEANING UP THE COUNCIL

[TRIBUNE Photo.]

The warm weather of yesterday made the new shower bath which has been installed in the city council chambers popular. In the above picture Ald. Thomas R. Caspers of the Twenty-sixth ward is shown in the shower. His example was followed by many of the city fathers.

The onward sweep of human progress arrived at a climax at 2 p. m. yesterday, when the aldermanic shower bath, a consummation devoutly wished for many years, was officially dedicated in the council chambers. Ald. Thomas R. Caspers of the Twenty-sixth ward was the first bather.

The aldermen are literally tickled pink with their shower bath. It shoots wicked jets from forty-eleven angles and when an alderman emerges from its aqueous depths he is filled with a desire to do battle in his constituents' behalf.

Yesterday's ceremonies were not without dignity as became an occasion which marked an epoch in councilmanic history. John Twohig, assistant sergeant-at-arms, broke a bottle of rose water over the big center spray and solemnly called upon the shade of William B. Ogden, mayor of Chicago in 1837, to witness the council's step toward godliness.

Ald. John J. Coughlin, more generally known as "The Bath," had been named official inaugurator of the shower bath. He shied at a TRIBUNE photographer, however, and will not take his bath until Saturday night.

An appropriation for the shower bath has been suggested for five years, but each year an unregenerate finance committee with an eye toward economy placed the proposal on file. In this year's budget rush it was overlooked. After hot debates the line is expected to reach into the council chamber.

EVEN WITH JAZZ WE'LL LIVE LONG, FRATERS ASSERT

No Matter How Risky, Risk Still Good.

The "fast life" led by the present generation has failed to affect man's span of life and the dangers of modern civilization do not prevent him from reaching the comfortable old age for which our forefathers were famed, according to the reports submitted to the National Fraternal Congress of America, which held its business meeting at the Hotel Sherman yesterday afternoon.

W. KATHERINE MANION. [Biddlecomb Photo.]

Delegates from the ninety-three benefit societies which comprise the congress said that the business of insuring lives is no more hazardous at present than in the days of our grandfathers.

"Dancing Beats Bottle."

Dr. Katherine Manion, assistant supreme medical examiner of the Women's Benefit Association of the Maccabees, said:

"Modern dancing is a good substitute for the pre-prohibition bottle. It is mildly intoxicating, but can be taken in almost any amount without harm. I am heartily in favor of 'jazz' music and the toddle, which I have heard so many criticize. The present dance craze is probably the result of prohibition; dancing has been substituted for liquor."

From 30 to 60,000.

Henri Roy of Montreal, Canada, the vice president of the congress, who is expected to succeed George P. Kirby, the retiring president, told of the organization of the Society of Artisans, of which he is secretary-treasurer.

Starting with a few carpenters, who banded together to form a benefit society in Montreal thirty years ago, the society has grown to its present membership of 60,000 persons. It is now one of the largest benefit societies in Canada.

The election of officers will be held Thursday afternoon, the last day of the meeting. Mr. Roy is the only candidate announced at this time.

805,228 ALIENS ENTER U. S. YEAR ENDING JUNE 30

Washington, D. C., Aug. 30.—Immigrants admitted to America during the fiscal year ending June 30 numbered 805,228, as compared with 430,001 for the previous fiscal year, and with an average of 1,034,940 during the prewar years from 1910 to 1914, it is shown in figures made public today by the bureau of immigration. Non-immigrant aliens admitted during the year numbered 177,395, a grand total of 978,163.

Departures included 247,718 immigrants and 178,313 nonimmigrant aliens, a total of 426,031. In the preceding fiscal year 288,315 immigrant and 139,747 nonimmigrant aliens departed.

GARBAGE FILLED ALLEYS TO GET BRIEF CLEANING

$324,000 to Be Spent in 10 Days, Then—

Temporary relief from the heaps of decaying refuse and garbage which punctuate Chicago's 1,700 miles of alleys was promised yesterday by Commissioner of Public Works Charles R. Francis.

The $309,000 appropriation for August is exhausted but the $324,000 appropriated for September garbage removal will be available tomorrow. Mr. Francis promised that the city will be given a thorough "once-over" during the first ten days of the month.

"The relief will be only temporary," Mr. Francis said. "Until we get in lying dumps which will permit teams to make at least three trips a day instead of one as at present, good service, given continuously, is impossible."

Blames the Watermelon.

August is the heaviest garbage month of the year, according to Mr. Francis. Cheap vegetables, including sweet corn and watermelons, swell the amount of garbage. The Tuesday following Labor day is shown by street bureau records to be the heaviest garbage day of the year.

Yet the amount appropriated for August was less than for July. The figures for the last six months of the year are: July, $359,000; August, $300,000; September, $324,000; October, $356,000; November, $354,000, and December, $445,000.

Mayor Thompson, fearing that the absence of nearly half of the council on junkets in eastern cities would result in no quorum, has decided to put off his call for a special meeting until next week. Street bureau officials are at work on data to be used in the mayor's message. If used, they declare, "it will burn the council up."

But the aldermen are not afraid, they declare.

"A Garbage Wagon Parade."

"The administration spends the money around election time where it will do them the most good and then the city goes dirty the rest of the year," Ald. Toman said yesterday. "Last election time in the Thirty-fourth ward the procession of wagons in the alleys looked like a garbage wagon parade."

"Conditions have never been this bad before in my time as a member of the city council," Ald. Fick, one of the oldest members, said.

Health Commissioner Robertson advised householders to throw away as little garbage as possible and to wrap accumulations in paper and burn it. Uninflammable garbage should be buried, he said.

ALDERMAN'S BROTHER HELD.

Earl Rodriguez, brother of former Ald. William Rodriguez, was held to the grand jury by a coroner's jury yesterday afternoon for manslaughter in connection with the slaying of Edward Katschke, 32, 2620 Thomas street, and Arthur Karwohl, 28, 2725 West Division street, three weeks ago. The men were killed in a revolver battle.

FARMERS SEE NO PERIL OF MILK SHORTAGE HERE

Insist It Should Be Sold at 10 Cents.

Admitting the possibility of a milk shortage in Chicago in the event that business should become normal again, officials of the Milk Producers' Cooperative Marketing association yesterday ridiculed the possibility of a shortage in the near future.

"There is nothing to fear from the threats of some of the dissatisfied farmers that they will sell their milk to creameries and cheese factories rather than to dealers," said T. R. Keene, secretary of the association and a member of the executive board. "The truth is that they haven't any creameries or cheese factories in this territory to sell too.

"We realize that the cut from $2.30 to $1.50 a hundred pounds will work a hardship on the farmers, but we had to protect our market. There is no danger of a shortage now, but the farmers are in a bad way and if the low price of milk causes many of them to send their cows to the stockyards it may result in a shortage later on.

"At present milk consumption is way below normal due to the business depression and if, after the farmers had disposed of their cows, business should suddenly be resumed, and the consumption of milk become normal again it might result in a shortage."

Mr. Keene said that the wholesale price reduction ought to result in milk at 10 cents a quart in Chicago, but distributors here say there is no possibility of it going that low. Milk at 12 cents a quart is the best that can be expected, they say.

The price of milk in South Bend, Ind., dropped from 15 to 10 cents yesterday as a result of the competition started by a number of dairies. Seeking new territory, they invaded the fields of other organizations, with the result that the price dropped.

BANKER'S BOND, RAISED, SIGNED BY GLAD HANDS

Blair, Neb., Aug. 30.—[Special.]—Frederick H. Claridge, accused of having wrecked the Castetter bank of Blair, of which he was president, causing a loss of $800,000 and who was given a royal welcome here yesterday when he returned after being a fugitive for six months, was taken before a court today. There his bail was increased from $2,000 to $10,000 on the demand of Attorney General C. A. Davis.

Claridge, indicted on four counts, has a bond signed by ten of the wealthiest men in the county.

Claridge's reception, which began yesterday, continued today. Walking six blocks this morning, en route to the courthouse, Claridge required two hours to shake hands.

Henrici's

Intolerance, the never-failing recourse of the small mind seeking refuge from its own warped condition, is one of the evils that thrive in the man who unconsciously starves himself intellectually.

And intellectual starvation is often traceable to physical starvation, which in turn often exists when quantity, instead of quality, is the standard by which food is judged.

Some time ago we referred to a young man in an industrial position of minor importance who said:

Although my income compels me to eat breakfast and luncheon in cheap restaurants, I take dinner at Henrici's every evening, because health and efficiency demand at least one substantial and satisfying meal of quality food every day.

That young man's career will, no doubt, be interesting, constructive, and instructive.

HANAN

GOOD SHOES ARE ECONOMY

HERE ARE EXCEPTIONAL

SHOES FOR SCHOOL BOYS AND GIRLS

For Public School Children

Shoes for these lively little youngsters must be made for strenuous wear and tear. Above all, they must be comfortable! The quality, style and fit of children's shoes sold by Hanan are symbolic of everything Hanan makes and sells for men and women.

For High School Misses and Youths

These demure young misses require shoes that contain the elements of grace and style as well as sensible fit. Youths of high school age are eager for shoes of dashing style, as well as comfort and quality. Nowhere can all these requirements be found so well, in so many different leathers and styles, as at Hanan's.

For Kindergartners

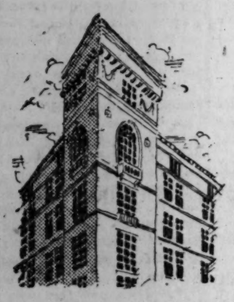

Those first little toes that point schoolward must be trained to walk properly and be fitted carefully and comfortably. At Hanan's you will find experts to fit the several styles of flexible leather and other little shoes—all sizes down to infants'—and all of the Hanan standard of quality.

We suggest that you come in with the children the next day or two, so as to have them all ready for school when the first bell rings.

THE TRIBUNE'S PLATFORM FOR CHICAGO

1—Lessen the Smoke Horror.
2—Create a Modern Traction System.
3—Modernize the Water Department.
4—Build Wide Roads Into the Country.
5—Develop All Railroad Terminals.
6—Push the Chicago Plan.

A RESERVOIR OF JOBS.

Announcing plans for a national conference on unemployment to be arranged at the suggestion of President Harding, Secretary of Commerce Hoover says: "It is inconceivable that America with its surplus in food and clothing, with housing—though crowded—and with an abundance of fuel, could allow any suffering amongst those of our people who desire to work."

The secretary is right. The United States owes a living to any person who is willing to work for it. It would not only be a tragedy but a shame if willing men in America were forced to go cold or hungry in the midst of our plenty because of improper or insufficient distribution of funds, food, fuel, or labor.

THE TRIBUNE has in the past frequently advocated a reservoir of labor. Perhaps it might better have been termed a reservoir of jobs. But whatever the name, the purpose is the same. It is to provide work for the idle by special processes when the normal demands of industry fail. There is sufficient work crying to be done in this country to provide employment for a large part if not all of the five or six million persons now idle. We need better roads in every state in the union. We need improved waterways, improved terminals, irrigation developments, more and better power plants, and innumerable other things more or less in the nature of public improvements.

If these tasks can be undertaken now they will not only provide a livelihood for the workers but will increase the basic wealth of the nation, provide insurance against industrial depression in the future, and stimulate a general industrial revival at present by improving purchasing power.

Mr. Harding, we believe, has gone at the matter in the right way. It is a national, not a local question, and to be handled effectively must be considered by representatives from all sections of the country and from all lines of basic industries. Mr. Hoover says the full plan of the conference can be ready for the President within ten days. By all means let us have the plan and then let us have action. Time is important. Unless something is done there is going to be much suffering in this prosperous country in the coming winter.

We have had action to provide food for the starving Russians. Let us have action on this. As between feeding the Russians for charity and feeding the Americans for labor performed we believe a vote of the nation would be overwhelmingly in favor of the latter.

Both the recently completed industrial survey of the Chicago Federation of Labor and the executive council of the American Federation of Labor last week called upon federal and state governments to relieve unemployment by starting public works. We are repeatedly told that billions of dollars are being invested in tax exempt securities for public improvement. That money is being diverted from industrial enterprise and high taxation to the detriment of industry and prosperity. It ought to be spent, and spent in the near future, for construction of public works which will be a permanent asset to the country and an invaluable means of relief to a large part of the millions of men now out of employment.

TO STIMULATE THE STEEL TRADE.

The protest of the independent steel producers against the Fordney tariff bill's high duties on their raw materials must meet with favorable consideration from the senate finance committee if there is any consistency in governmental policies at Washington.

The $1,500,000,000 bill empowering the War Finance corporation to lend $1,000,000,000 for financing agricultural exports and to raise $500,000,000 for railroad finances is an unprecedented governmental assistance of private commercial enterprise. Inasmuch as the President on July 26 personally urged congress to allow the War Finance corporation to finance the railroad claims against the government, and on July 11 wrote to Chairman Fordney of the house ways and means committee urging omission of the duty on oil from the tariff bill on the ground that our development of foreign oil resources is "more important . . . than temporary profit to a few producers," it is evident that the government is earnestly striving to stimulate business and prosperity.

Such being the case it seems a rank inconsistency to put a high tariff on raw materials, such as ferro-manganese, ferro-silicon, manganese, magnesite and fluor spar, going into the manufacture of steel, and to put a protective tariff on finished steel.

The steel industry of the country is now operating at approximately 20 per cent of capacity. It has repeatedly reduced wages and reduced prices, but the average price of eight principal steel products in the last week in July was still $50.39 per ton, against $35.80 in August, 1913, a typical prewar year. The reductions have not been sufficient to greatly stimulate buying in face of the present depressed conditions of the railroads and the building industry.

The position of the industry as a "key" in industrial activity, however, makes it necessary that its sales should be stimulated. Labor cannot be expected to stand much more of a cut to aid such stimulation. Freight rates will not take the cut at present. A reduction in the price of raw materials might do the trick. Elimination of the Fordney duty on these raw materials will allow such reduction.

If the government is honest in its effort to stimulate business, and we believe it must be honest in self-defense, it will take this action. To spend money with one hand to stimulate business and to take it away with the other under the guise of "protection" is too inconsistent. The President flew in the face of formerly recognized protectionist theories in his letter urging elimination of the duty on oil. He can safely do so in the steel issue.

THE RUSSIAN DEBACLE.

With characteristic energy Mr. Floyd Gibbons, chief of The Tribune Foreign News Service, has reached the famine district in Russia and is first to give the American public a picture of the conditions there.

It is a terrible and heartrending picture. It represents a community reduced to the level of bare animalism and its fate is far worse than that of dumb brutes, in the degree that humanity, even the most ignorant and wretched humanity, is above the brute. No breakdown of a western society has been so complete as this in modern times. Zola described the confusion and ruin which fell upon France after the war with Russia. But it was a mild thing compared to this. Dr. Nansen, after visiting the afflicted regions, tells one of THE TRIBUNE's correspondents at Riga, Mr. Seldes, that the "needs of the people will far surpass the maximum and combined efforts of which European relief organizations are capable," and he appeals to the governments to aid. Dr. Nansen estimates there are 35,000,000 in the famine regions, and of these seven or eight millions are "without crusts or seeds for the new crop."

Yet this tragedy is being enacted in the heart of one of the richest productive regions in the world, a region which in normal times and despite comparatively primitive methods of agriculture was one of the world's great granaries, supplying not only the Russians but exporting in 1913 over 12,000,000 tons of grain products. "What has been the matter," says Kameneff, "is that the people of Russia have lacked food, clothing, machinery, tools and means of transportation."

What has been the matter, as Kameneff cannot very well declare, even if he is ready to admit it, is fanatic socialism. We do not forget "the drain which the war was upon Russia," but when Russia under the leadership of the bolshevik group took over Russian affairs there was a going concern, machinery, tools, transportation, enough of the essentials of a modern society for a new start. Pioneer societies have far less than Russia had left from the war, yet they go forward, not back.

They go forward because they are practical men, led by practical men, and because they work with the forces which have produced human progress, not against them. It was Russia's fate to fall under the domination of strong but bigoted and impractical men, whose efforts at evolving an artificial system according to their theories have destroyed much of what the war had left for the maintenance of civilized life.

Under soviet policies, skilled and experienced directorship was driven out, the clumsy and burdensome system of barter was substituted for the modern system of money and credit, individual freedom gave way to a collectivist tyranny more drastic than has afflicted any society of modern times, assistance from without was discouraged by a fanatical propaganda of world revolution, and worst of all the basic incentive of human effort, the right of private property, was paralyzed in an attempt to establish overnight a new system of society founded on communism.

The bolshevik allbis—the destruction of war, foreign invasion, capitalist conspiracy—do not account for the Russian debacle. Communism has crushed Russia because it defied the fundamental law of human energy.

AMERICA IN THE AIR.

When the air travel lines were established between London and Paris by commercial companies it was soon discovered that the planes could not be operated without a subsidy. Some passengers would pay the full price, at least once, for the novelty of the trip, but the majority who might want to take the air line would be deterred by the cost.

The companies were failing as commercial enterprises when the French government intervened. Just as a wise maritime power keeps a merchant marine as an auxiliary to its fleet, a wise government keeps commercial air services as auxiliaries to its military and naval air services. The French subsidized the passenger air lines. The traveler who pays $25 to go from Paris to London is not paying the cost of the trip. The actual cost is twice that. When the French government subsidized the French lines the British government was wise enough to subsidize the British lines, and both are operating every day.

That promotes the industry. It stimulates the building of planes and their improvement. Flying as a going enterprise in France and Great Britain will remain immeasurably ahead of flying in the United States if America discourages the inventiveness and expertness which come out of continuous activity.

The American government is backward in encouraging native inventiveness and enterprise. Americans made the first usable planes, but when the United States needed airplanes in war it could not make dependable ones. It had the initiative and lost it. The government has some trouble in keeping the air mail service going as it should on account of recurrent opposition or prevailing indifference in congress.

We shall continue to be behind the times in aircraft until American enterprise has a reason for paying attention to aircraft. The encouragement of commercial aviation is a needed stimulus. We need planes which are flying as the part of a daily routine and we need the men daily engaged in flying them. Then there will be construction, the improvements which come with construction, and the expertness which comes from daily occupation.

PURE BRED STOCK.

[Rockford Register-Gazette.]

People in the cities who see references to sales of blooded stock in the country probably do not perceive that that is a matter of immediate concern to them. They are interested, however, in having farm production handled with good economic results. Pure bred live stock is not only more profitable to handle, to have, to raise, to sell, but it is raised at less cost than ordinary stock. It has been determined by careful trials at the experiment stations that pure bred stock as a class makes gains in weight at less cost than the scrubs.

This is shown strikingly in dairying, but the examples in all lines of live stock tell the same story. An example was given by W. S. Corsa at the recent Lovejoy sale of Berkshires. The Corsa herd was started by good blood from the Lovejoy herd and has had frequent reinforcement from the same source since. It was stated by Mr. Corsa that of the nine loads of Berkshires shipped by him to the Chicago market this season eight sold at the top price of the day. The choicest offerings never have to wait for a buyer either. It is a frequent occurrence that only one load out of several hundred makes the top price.

CATS.

I hate Cats. They make me mad. There are the white, fluffy, long-haired, blue-eyed, much-traveled cats with long pedigrees who insist on sitting on your lap, especially when they are shedding hair and you are wearing a black velvet dress.

And there are Alley cats: who sing in odd keys on the back fence from 11 o'clock till 1 in the morning; who tip over the garbage can and knock it down the back steps about 3; and who continue to insist on raising family after family in your garage.

And the Human cats: There are the jealous ones, who don't want any one to have anything because they have nothing, and who never like the things belonging to any one else; there are the gossipy ones, who start the *They say* ball a-rolling; who delight to throw a wrench in a smoothly running engine; and who always smile sugar-sweetly and call you, *My Dear.*

MILK COWS VS. GOATS.

"WILL you tell us something about goat's milk?" M. B. writes.

I have come to the conclusion that there is not much difference chemically between cow's milk and goat's milk. In the dozen or more analyses of goat's milk in my possession I find the different ingredients ranging between following extremes—water, 85 to 87.2 per cent; solids, 12.8 to 15 per cent; fats, 2 to 7 per cent; sugars, 2 to 5 per cent. Total, proteids, 2¼ to 5.

The proteids are casein, lactalbumin, and lactglobulin. The percentages of casein are given as ranging from 3.5 to 3.8 and lactalbumins from .15 to 1.2. The mineral matter from .5 to 1 per cent. There are wide variations, some of them being below the figures given for cow's milk and human milk and some above them.

In all probability, all of the analyses were carefully done by competent chemists. Then why the wide variation? The answer is that some goats give rich milk and others poor, just as some cows give rich milk and others poor. There are cows the milk of which runs little over 2 per cent milk fat and others that give milk running 6 per cent.

I am satisfied after comparing these analyses that in the preparation of goat's milk for baby use, the dilution should be on the same basis with cow's milk. It is asserted that the reaction of goat milk is different from that of cow milk and human milk. The evidence on that point is so contradictory no conclusions can be drawn, and there is no established reason for preferring goat's milk.

If there is no chemical superiority, is there any biological superiority? It is said the fat globule of goat's milk is smaller than that of cow's milk. The claim may be correct, but the proof furnished in the several publications is not convincing. Was the comparison made with Holstein milk or Jersey milk? Who are right, those who contend for the easier digestibility of fat from Holstein milk or those who dispute the claim?

It is claimed for goat's milk that the curd is lighter, more flocculent, and, therefore, more easily digested. Fowler says so in his book, but Cheadle, whose book has a separate chapter on that very subject, says the curd of goat's milk is as large and heavy as that of cow's milk. On that point the evidence is contradictory.

Nevertheless, all writers are agreed that there are certain babies who do poorly on cow's milk and who thrive on goat's milk. The reason is beyond us as yet. There is one advantage that nobody can deny, and that is that goats do not have any considerable amount of tuberculosis, while cows are riddled with it.

A good many children get tuberculosis from drinking tuberculous cow's milk, but none from drinking goat's milk.

Of course, goats have Malta fever and a few cases of Malta fever have been reported from Texas and other parts of the United States. It is said also goat's milk can be produced and marketed more cheaply than cow's milk. It is asserted goats can be kept in town or close to town without causing nuisance, and that in this way goat's milk can reach the consumer fresh and with a low bacterial count. I think that claim can be proved

BETTER BE EXAMINED.

M. R. G. writes: "I have read several articles lately in regard to the dangers of diabetes and have become alarmed. I am 22 years old, 5 feet 6 inches tall and weigh 160 pounds. I went through an examination last December and was told there was too much sugar in my blood, and that I also had a blood pressure of 140 pounds, which the doctor claimed was entirely too high for a girl of my age. I have given up starchy foods and sweets. The one thing I really eat along this line is ice cream. I have consulted another doctor and he claims I am too young to have trouble of this sort. What is your opinion? Do you advise me to see another doctor? I have not had my urine examined."

REPLY.

You are not too young to have diabetes. No diabetic should eat ice cream. Neither should an obese person. You should have your urine examined. However, high blood pressure of itself is enough to make you go on a low starch diet.

"THE ORANGE CURE."

G. T. writes: "Will you kindly tell me what the orange diet is, and whether it will help fleshy people to reduce? I am only 28 years old and am 5 feet 3 inches tall and weigh 151 pounds. I sure do want to reduce, but want to follow a diet that I know is absolutely recommended by a doctor."

REPLY.

There are many fruit cures and the orange cure as one of them is given by Thompson as follows: The cure lasts six weeks. Begin by eating an orange before breakfast and another upon retiring. In three or four days the breakfast consists of several oranges, a small quantity of bread and butter and a little coffee. During the forenoon eat several oranges. For dinner some meat and potato, green vegetables and oranges—no bread, pastry or dessert. During the afternoon oranges. At supper a little sago in milk, and oranges. Thompson says this diet is adapted to the treatment of chronic constipation, the cure of some cases of obesity and some of gout.

SET BRAKES ON JAWS.

Mrs. P. B. S. writes: "Can you kindly tell me why it is that after every meal my girl of 20 has the hiccoughs for at least a half hour? [2] Is it harmful?"

REPLY.

1. I suspect she eats too fast. Make her put on the brakes.
2. No, not for the first few hours.

FRIEND OF THE PEOPLE

MONEY GRABBERS.

Chicago, Aug. 27.—[To the Legal Friend of the People.]—My daughter lost her glasses and placed an ad in your paper about them. Some one called her on the phone, saying the finder thought there should be a reward, and my daughter agreed to pay $3. The finder was to leave them at a store for my daughter to call for them. The storekeeper said he was told to collect $5 and would not deliver them. When the finder telephoned again she said the storekeeper said my daughter had snatched the glasses from his hands. Now, what action can I take against one or both of those parties to recover the glasses? P. C.

If the storekeeper knew that the person delivering to him had no other claim than as a finder, then the storekeeper should have delivered the glasses to you on proper identification, and refusal would amount to a conversion entitling you to recover from the storekeeper the value of the glasses. If he had no way of knowing whether your title was better than that of the rival claimant, it was proper for him to hold the property until the dispute was settled, or, if necessary, to file a bill of interpleader. It seems probable that the former is the case.

We advise you to try the effect of reporting the facts to the police.

Of course, your rights against the finder are clear if you can trace him.

TRIBUNE LAW DEPARTMENT.

WHERE RIGHT IS MIGHT.

Chicago, Aug. 27.—[To the Legal Friend of the People.]—Is there a law prohibiting a landlord from raising rents four times in one year, to an amount equal to 50 per cent more than the original amount paid? E. B.

No, but on proper facts a judge could grant a tenant six months' stay of execution.

TRIBUNE LAW DEPARTMENT.

WIFE'S SIGNATURE NECESSARY.

Latham, Ill., Aug. 27.—[To the Legal Friend of the People.]—I bought some property and had the original owner deed it to my wife by a warranty deed. If she gives me a quitclaim deed to it does she automatically lose her dower interest, and is my quitclaim deed as legal as a warranty deed, or is it necessary for her to give me both a quitclaim deed and a warranty deed that I may have absolute control of this property and be able to dispose of it without any further signatures from my wife? SUBSCRIBER.

Neither deed would enable you to sell without her joining. If you wish to accomplish that purpose, you should employ an attorney.

TRIBUNE LAW DEPARTMENT.

CHANGING A WILL.

Chicago, Aug. 28.—[To the Legal Friend of the People.]—Can I change a typewritten will, taking off one part that I do not want, and add in writing what I wish changed? Will I have to have two witnesses to do this, and will it be legal? J. W.

We advise you to make the change by a codicil, which should be executed with the same formalities as a will.

FRIEND OF THE EX-SERVICE MAN

"SAY IT WITH JOBS"

The Tribune is extending its service department to aid in the placement of jobless veterans. Veterans are invited to file applications with the American Legion. Employers who have jobs to offer are urged to telephone Franklin 4946, or drop into American Legion headquarters, room 203 Conway building, 111 West Washington street. Every job filled with an experienced man.

WHO HAS A JOB FOR THESE EX-SERVICE MEN?

286—Chief machinist mate veteran; 28; married. Worked five years mechanical draftsman, five years engineer; graduate Columbia university. Holds marine license.

287—Fortieth infantry corporal veteran; 23; married. Worked one year assistant cashier, 5 months claim, cost, credit man, and correspondent; four months silk salesman.

A BRITISH VIEW OF UNITED STATES AND WORLD TRADE.

Chicago, Aug. 24.—The following views from a recent issue of the London Times seems to be an adequate, although brief, answer from British experience and success to the American question: "What shall we do to build up our foreign trade?"

"Private advices from the United States indicate that business is better, but just as a convalescent is never so despondent as when he gets on his feet for the first time, a wave of depression seems to have passed over that continent. Meanwhile, the war born experimenters in foreign trade are fading fast. Finance has been their stumbling block, as we anticipated would be the case. Many banks that entered the foreign trade field have quietly written off their losses. America, in short, has decided that foreign trade is not the 'dead easy' business the less informed thought it to be.

"The world-wide organization of British banking and merchant houses cannot be duplicated at will, and without it the difficulties encountered are formidable, indeed. On the other hand, as our New York correspondent reminds us, Mr. Hoover sees quite clearly that America must find a market for her surplus production, and since she will not listen to suggestions for encouraging imports, the question how she is to get payment for her exports remains unsolved."

England understands, however, that we have a good sized domestic market, which claims pretty much of our attention at the present time.

CHARLES REYNOLDS.

FRIEND OF THE TRAVELER.

En Route Chicago, Aug. 21.—I am writing this to tell you how much we enjoyed being able to get the news from home through the Paris edition of THE CHICAGO TRIBUNE, which we were able to secure in all the important European cities we visited, and we were especially gratified to be able to buy THE TRIBUNE in Amsterdam and other cities in Holland and Belgium on the same day of publication, through the enterprise of Mr. Floyd Gibbons in distributing the paper by aeroplane.

The European edition of THE CHICAGO TRIBUNE seems to be a lively youngster, and apparently there is no doubt about its successful future.

H. E. BYRAM,
Pres. C., M. & St. P. Ry. Co.

MR. TRAYLOR MAKES A HIT.

Chicago, Aug. 24.—Thank heaven for Melvin A. Traylor. There's a man for you. He doesn't fall for such "bunk" as your editorial in Tuesday's paper on the tax bill. He sees through the specious arguments you advance in favor of exempting the higher income and "soaking" the man of moderate earning capacity. He talks good sense, good economics, good morals, and good ethics. More power to him. GEO. J. SHARKEY.

TWISTED GRAY MATTER.

Chicago, Aug. 26.—I have mailed a number of copies of your article in THE TRIBUNE Aug. 24, called "The Shears for Professional Baseball," to the various heads of baseball in this country, so they may see what twisted gray matter is employed in the THE CHICAGO TRIBUNE. C. JAY.

A BOSTON IDEA.

Boston, Aug. 26.—I wish to compliment your management on its wise decision to curtail baseball reports. I trust our own local papers will follow your splendid example and devote some of their baseball space to real news.

HARRY V. LAWRENCE.

"OVERFED" WITH BASEBALL.

New York, Aug. 26.—"Overfed" is right; likewise nausea and biliousness. Professional baseball as an institution is a travesty on the so-called national game, as distinguished from the fair play of the amateur sport. I am highly gratified that you had the moral courage to cut loose from the age-old bondage of sacrificing so much time, labor and expense to the exploitation of professional baseball as we see it today.

HERMAN BORSIG JR.

VICARIOUS EXERCISE.

Bowling Green, O., Aug. 26.—Permit me to congratulate you with unusual heartiness on the editorial, "The Shears for Professional Baseball." You are perfectly correct in your statement of the solution. There is too much vicarious physical exercise (and political responsibility) in America. PAUL J. GELLERT.

AMATEUR ATHLETICS FIRST.

Chicago, Aug. 26.—I read with a great deal of pleasure and interest your editorial in THE TRIBUNE of Aug. 24 entitled "The Shears for Professional Baseball."

This is certainly very commendable that a large publication like THE TRIBUNE should pave the way in the matter of giving amateur sports more publicity and more space than previously.

CHAS. A. DEAN,
Chairman Athletic Committee, Illinois Athletic Club, and Chairman Championship Committee, Central Association A. A. U.

A FORWARD STEP.

Chicago, Aug. 26.—The recent forward step of THE TRIBUNE in the matter of professional baseball reports is but another distinguishing mark of a really great newspaper. Success to you! And congratulations upon your courageous breaking away from tradition. GOLLUP.

"POOR JUDGMENT."

Waukegan, Ill., Aug. 26.—THE TRIBUNE'S recent editorial entitled "The Shears for Professional Baseball" was indeed an unpleasant surprise to one who has always regarded your major league dope as unusually good. A newspaper which claims to be "the world's greatest newspaper" shows extremely poor judgment in cutting down on professional baseball. CLARENCE A. JOHNSON.

EUROPE'S NEW WAR

1—Hungarian irregulars have taken Odenburg, in Burgenland, to prevent the district from being taken over by Austria in compliance with the treaty of St. Germain. They are later reported to have withdrawn.

The little strip of West Hungary turned over to Austria by the peace treaty has an area of about 1,700 square miles and a population of about 350,000.

The frontier between Austria and Hungary had stood for nearly 1,000 years until it was changed by the treaty of St. Germain. Burgenland is full of ancient landmarks, great cloisters and churches, and many members of the Hungarian nobility own extensive estates there. The chief value of this region to Austria is from strategic considerations. If it is occupied by Austrian forces and comes within the jurisdiction of the Vienna government the eastern frontier of Austria would be placed beyond a ridge of low mountains which can be easily defended. There are five large towns in the district, Wieselberg, Altenberg, St. Gothard, and Guns, which would remain under Hungarian control, and Odenburg, which would become Austrian.

Burgenland is noted for its vineyards, orchards, and vegetable gardens and has a considerable live stock industry. It is not a grain producing region, however, and always has drawn its bread supply from Hungary.

2—One hundred and seventy Hungarians, advancing on Pinkafeld, were met by Austrians armed with grenades and machine guns.

3—Numerous conflicts are reported between Hungarians and Austrian gendarmerie at Hartburg and along the Styrian border of Burgenland.

4—Budapest reports that the Hungarians will hold only Podersdorf in Burgenland, and that only until their claims against Austria are settled.

5—Jugo-Slavia has taken a hostile attitude toward Hungary and threatens to reoccupy the Baranya district if the latter does not yield.

6—Czecho-Slovakia is also massing troops at Pressburg.

7—There are rumors that workmen at Wiener-Neustadt are organizing to force Hungary to give up Burgenland.

MARTIN OBTAINS WARRANTS FOR WIFE AND MAN

Shooting Affair Is Basis of Charges.

Warrants for the arrest of Mrs. Ruth Turner Martin, daughter of the late Col. Henry L. Turner, commander of the 1st Illinois infantry during the Spanish-American war, were issued yesterday by Judge Robert Gentzel in the Chicago avenue police court. James Wright Martin, former Notre Dame football star, son of a wealthy automobile dealer, and claimed by Mrs. Martin as her husband, was the complainant.

He charged his wife with assault to commit murder and violation of the Sadler act prohibiting the carrying of deadly weapons. Martin also obtained a warrant for the arrest of Joseph Battersby, a wealthy real estate man, with an office at 202 South State street.

Sequel to Shooting.

The issuance of the warrants was the sequel to a shooting affair at Division and State streets Saturday night. Charles W. Bidwell, who appeared as attorney for Martin before Judge Gentzel, told the judge that Mrs. Martin had fired six shots at her husband. At the time, he said, Mrs. Martin was in an automobile with Battersby. The machine, the lawyer said, was driven up to the curb of the sidewalk where Martin was walking and the wife then emptied her revolver in Martin's direction.

Immediately after the shooting Martin complained to the Chicago avenue police station. At the time a search was made for Mrs. Martin and for Battersby, but no action was taken.

Quarrel Over Marriage.

The domestic tribulations of the Martins were first aired last summer when Martin filed a bill in the Superior court to annul their marriage, which had taken place in Crown Point, Ind.. He based his plea for an annulment on the ground that Mrs. Martin had remarried within less than a year from her divorce from Harry S. Bishop of New York, and that the Crown Point marriage was therefore void. He also recited in the bill that Mrs. Martin had employed "cave woman" methods in wooing him, threatening to kill him.

Mrs. Martin fought the suit for annulment and also filed one of her own, alleging breach of promise and asking for $100,00 damages. Neither suit came to trial. Friends of the couple patched up a reconciliation, which was to have lasted for one year. The bills filed were dismissed by stipulation.

According to the attorney for Mr. Martin his wife was unwilling that the truce should continue. The trouble which led up to the shooting was the result, he said.

WINDOW SMASHER GETS $90.

A window smasher stole nine $10 bills early yesterday morning from the display window of the Central Piano company at 204 South Wabash avenue. Three other bills of the same denomination were untouched by the thief.

NEWEST THING IN AUTOS

[TRIBUNE Photo.]

A MINIATURE automobile controlled by radio will be one of the features at the national radio show which opens today at the Broadway armory, Broadway and Thorndale avenue. The little machine, a replica of a racing car, was set up yesterday in the armory by its inventor, E. F. Glavin of Yonkers, N. Y., and his assistant, H. B. Lockwood of Mount Vernon, N. Y.

The show, which is the first of its kind ever held in this country, will be opened by President Harding. Seated at his desk in the White House, he will talk by land wire to the naval station, a few miles distant, from where his voice will be broadcast by wireless telephone. The message will be picked up at the show and transmitted to the audience by amplifiers.

Among the speakers will be Hiram P. Maxim, president of the Radio Relay league, which will hold its convention in conjunction with the exhibition; Dr. Lee de Forest, Maj. E. H. Armstrong, Prof. A. V. Achatz, Prof. C. M. Jansky, and Prof. W. Terry. The show will close Saturday night.

MOTHER'S DEATH LEADS DAUGHTER TO END HER LIFE

The shock of her mother's death is believed to have led Mrs. Gladys Kaczynski, 18 years old, 1907 North California avenue, to end her life last Monday by inhaling gas. She was the daughter of Mrs. Winifred Bagley, 2732 Pershing road, whose body was exhumed by Coroner Peter M. Hoffman yesterday to determine whether the mother's death Aug. 4 had been caused by X-rays instead of heart disease, as reported.

The body of Mrs. Kaczynski was found in the bedroom of her home. Gas was flowing from an open jet. Near by was found a note, which read: "Death is sweeter than life. Mother will understand."

Note Puzzles Father.

Her stepfather was puzzled by the note as, he said, she and her mother had not been on good terms for several months. She was the only member of her family to appear at the inquest of her mother and her stepfather believed that brooding over the death may have deranged her mind.

Mrs. Bagley's body was taken from the Fairmont cemetery at Willow Springs yesterday and today the coroner will ask the County court for permission to hold a second inquest.

Reported as Heart Trouble.

Her death was reported to the coroner as the result of heart disease. Mr. Hoffman was told that both she and her daughter were subject to the affection.

Mrs. Bagley was employed by the Boston Dental company in giving exhibitions of the use of the X-ray at the Pageant of Progress.

When Coroner Hoffman was told by an unnamed informant that the heart disease explanation might not be borne out by facts, he ordered the exhumation. Burns were found on both legs.

File Damage Suit.

Attorney E. H. McDermott yesterday filed a claim against the Boston Dental company for $10,000 in connection with the death of Mrs. Bagley. He told the coroner that he had three witnesses to "an accident" at the Municipal Pier.

Mrs. Bagley had reached up to turn on a switch, he declared they said, when a flash from the X-ray machine stunned her. She died a few moments later. A Dr. Kemp, said to be employed by the dental concern, received a shock a few moments later when he went to the rescue.

Mrs. Kaczynski, the daughter, had been married twice, according to Attorney McDermott. Her mother's husband, N. H. Bagley, is employed by the Burns Detective agency.

ARRESTED FOR THREAT TO KILL.

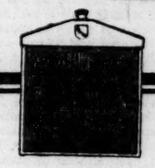

Joseph Trudell, 38 years old, was arrested yesterday charged with having threatened to kill Mary Corbett, the 20 year old daughter of his landlady, Mrs. Mary Corbett, of 529 South Marshfield avenue, because she refused to take his attentions seriously.

ROAMER

New Price **$2485**

Effective September 2, 1921 *f. o. b. Kalamazoo*

All models now an average of $800 less than a year ago—actually back to pre-war prices. We guarantee the Roamer at this remarkable new price *to be identical in every detail* with the models which have won unquestioned recognition among fine motor cars.

Why This Price Is Possible

1 The makers of Roamer parts have agreed to accept reductions of from 10% to 30% on all materials on unfilled contracts.

2 Every Roamer dealer has agreed to accept one-fourth reduction in his regular (always conservative) selling commission for a period of six months.

3 We have agreed to accept a loss of thousands of dollars on our present inventory by reducing its book value to the lowest estimated worth in 1922. We have further agreed to keep Roamer quality intact; in fact, we have added certain refinements at this new price.

The Roamer you buy today is splendidly superior in design, materials and workmanship. It is truly a custom-built car which will give you years of gratifying, trouble-free service.

This startling reduction in price means immediate purchase by many motorists who have long desired to own a Roamer. We would advise you to go to your Roamer dealer at once and arrange for delivery on this outstanding motor car value. Option of color and upholstery without added cost.

Scholle's Semi-Annual Sale of Good Furniture

Solid Mahogany Adam Dining Room Suite, oblong round end table, 8 foot extension with aprons on two leaves, 5 chairs and 1 arm chair in striped blue haircloth, 7 Pieces.
Regular price, $394; sale price, $285.

IF you need dining room furniture, here's something you'll be glad to see; and to have. It is the kind of furniture that will be with you a good many years; that's the way it's made; Scholle quality.

We needn't say very much about the price; if you've looked around, as you ought to do, you know something about furniture prices today. It isn't necessary to say to anybody who is well informed that the price of this beautiful suite is extremely low.

The main thing isn't the price; the important fact is the furniture, its quality and beauty; and the assurance you have that whatever you buy here, at whatever price, is guaranteed to satisfy you, or we want it back. We feel that the worst thing that can happen to us is to have any of our goods in the hands of customers who are sorry they bought the goods. It doesn't happen if we can prevent it.

CREDIT TO HELP FARMERS MARKET CROPS IS URGED

Flaws Seen in Present Loan Systems.

[BY A STAFF CORRESPONDENT.]

Washington, D. C., Aug. 3.—[Special.]—Legislation establishing a credit machinery to aid farmers in producing and marketing their crops through advances ranging from periods of six months to three years was urged today by Representative Anderson, Minnesota, chairman of the joint commission of agricultural inquiry.

Mr. Anderson said neither the federal reserve system, with its short time credit facilities, nor the federal farm loan system, with long term farm mortgage loans, fills the pressing need of the present situation.

Need Called Imperative.

"There is immediate, imperative, and conclusive necessity of setting up permanent machinery to furnish credit for farmers' production and marketing purposes, running from six months to three years, to fill the gap between short time credit furnished by the national and state banking systems, and the long time credit furnished by these systems, farm mortgages institutions and the federal farm loan system," Mr. Anderson said.

"This credit must be of such character as to conform to the farmers' turnover, and of sufficient flexibility to meet the varied requirements of different localities and different commodities.

"There are two essentials of such a credit machine. The first is an agency to deal with the farmers. These agencies should be sufficiently numerous to meet the requirements of every locality, of every commodity, and of every farmer.

Use Present Banks.

"These are the commercial banks (state and national) and the farm loan associations as now established under the farm loan act. A new agency might be created in the form of a cooperative credit association, built upon lines similar to the farm loan association.

"The second essential is an agency which can convert a large number of small obligations of the farmers into short time debentures, or other credit obligations, which can be sold to the investing public. In other words, it is necessary to have an agency through which the investing public can be reached."

Ask Women to Go Driving; Bullets Follow Refusal

Two men in an auto tried to get Mrs. James Carson and a neighbor woman to go riding, while the women were sitting on the front step awaiting the return of Carson to his home at 1261 North La Salle street, late last night. Carson, who is employed by the American Railway Express, came along and told the men to go away. A quarrel ensued and the men threatened Carson with a revolver, but he bluffed them and they left.

About fifteen minutes later four bullets came crashing through the window. One hit a picture on the wall. But no one was hurt.

E. K. Lattner May Die of Injury in Auto Crash

Cedar Rapids, Ia., Aug. 30.—[Special.]—Emmett K. Lattner, Chicago, manager of the P. M. Lattner Manufacturing company, received serious hurts and Bedford Lattner, his cousin, of this city, received a fractured skull here tonight when their auto crashed into a truck, turned over three times, and went into a ditch. The steering wheel was driven through Bedford Lattner's chest, and it was said he could not recover. The Lattner machine was being driven at a high speed, witnesses say.

Ex-Soldier Sees Sights; Out $150; Friend Sought

Samuel V. Madison of Brownsville, Ky., who received an honorable discharge from the army at Camp Grant yesterday, entered the South Clark street station last night and asked the police to aid him in finding a sergeant in his company, whom he accused of having robbed him of $150. Madison said the sergeant offered to show him the sights. They had several drinks, he said, and the sergeant on the pretext that he would pay the bill took his money, handed back $20 and fled.

SUIT TO SUIT

MRS. DAVID C. FAULKNER.
[Photo by Dubon.]

Mrs. Doris E. Faulkner, 19 and comely, wore a bathing suit in a summer garden review—and thereby started something.

Yesterday, through Attorney Thomas Johnson, she filed suit for divorce from David C. Faulkner, advertising man and former aviation officer, whom she married in December, 1919. In her bill she declares that her husband often was cruel and failed to provide for her properly.

Needing money, she says, she signed up as a model with "The Passing Parade" at a north side garden. Faulkner objected, but finally compromised by forbidding his wife's appearance in a bathing suit.

She wore one, nevertheless.

Faulkner's perturbation was great when, on Monday night, he observed his spouse step before the spotlight in the garb of a beach flapper. Rushing behind the scenes, he tried to divest Mrs. Faulkner of her costume, according to her story, but several other models helped to beat him off. The divorce suit has resulted.

N. Y. PLANS HELP FOR JOBLESS TO SURVIVE WINTER

New York, Aug. 30.—[Special.]—Steps to mobilize the city's resources in preparation for the unemployment crisis this winter were taken today by a committee of thirty-five, appointed by Mayor Hylan to map out a relief campaign.

The committee will be known as the mayor's committee on unemployment. Among the recommendations are: Use of the armories as sleeping quarters. Working out a program for feeding those who are in need. Commencement of work on all public building projects that have been authorized, such as schools. Enlistment of the aid of organizations that have "war chests," such as the Red Cross, Y. M. C. A., and Knights of Columbus.

THREE MORE DIE AFTER BEING HIT BY AUTOMOBILES

Three persons died yesterday as the result of automobile accidents. The dead are:

Rudolph Pokorny, 8, 1735 Ellen street, struck by a motor truck in front of 1314 Milwaukee avenue, and died. Joe Sanstill of 1815 Austin avenue, the driver, arrested.

Maryanna Rustic, 12, 302 West 41st place, knocked down at Archer avenue and 42d place by a truck piloted by Philip Rosenthal, 1650 South Sangamon street. She died.

Mrs. Anna Trezek, 70, 5106 South Paulina street, died yesterday of injuries suffered Monday, when struck by a machine which sped away without stopping.

FIFTY-FIFTH ST. AGAIN SHOWS A BIT OF ACTIVITY

BY AL CHASE.

East 55th street, which has had considerable activity recently in the two blocks between Dorchester and Harper avenues, principally on account of the proposed new theater at Blackstone and 55th, the first really large playhouse in the district, yesterday had another fair sized sale. Much larger than the revenue stamps indicate, however, for there evidently is a good sized incumbrance, the records reading: "subject to all incumbrances, etc., of record, if any."

The property is 100x152 and is improved wth a four story store and apartment building. Otto A. Altschul sold it to Philip and Samuel Goldberg for an indicated $28,500.

An indicated $120,500, subject to $86,000, was paid by Benjamin I. Morris, an attorney, to Benjamin B. Drell for a half interest in the 180x170 at the southeast corner of Menard avenue and South boulevard, improved with a building containing eight stores and twenty-one apartments.

Samuel B. Adler, who operates the Buena Drug store at Montrose and Sheridan road, has bought from Harry E. Johnson the twelve apartment building at the northeast corner of Glenwood and Thorndale avenues, lot 66x127, for an indicated $72,500, subject to $55,500.

Martin Grosby, of Plotke & Grosby, has sold the fifteen apartment building at the northeast corner of Ainslee and Lawndale, lot 89x125, to Sophie H. Du Fine for an indicated $85,000, subject to $65,000.

Carl Siebold and William Wischmeyer have bought from Oscar Stone the six apartment building at 905-07 Lawrence avenue, lot 50x99, for an indicated $36,500, subject to $13,000. Henry H. Tank & Co. represented both parties and will manage the property for the new owners.

Courtney R. Gleason has sold the property at 119-125 East 71st street, lot 109x100, fifty feet west of Indiana avenue, improved with a twelve flat building, to Emily Racky for an indicated $53,000, subject to $28,000. A two story store and flat building at the northwest corner of 43d street and Wentworth avenue, lot 50x125, was given in part payment at $20,000. Wade F. McNamara & Co. were brokers.

The eighteen flat building at the southwest corner of Dover street and Leland avenue has been sold by Edna Wendt to Edward H. Sheppley for an indicated $60,000, subject to $10,000.

Spontaneous Combustion Causes $25,000 Flames

Fire believed to have been caused by spontaneous combustion at 1824-28 Berteau avenue early this morning caused damage estimated at $25,000. The fire started on the third floor, occupied by the Western Rotogravure company, and spread to the second and first floors. The equipment of the rotogravure company was destroyed, as was that of the Force Pump company.

BRITISH STATESMAN HERE; IS SILENT; WIFE GIVES VIEWS

SIR JOHN SIMON.

The Rt. Hon. Sir John Simon, K. C., former attorney general of Great Britain, former secretary of state for home affairs, and a major in the British air service during the war, was a guest in Chicago yesterday en route to Cincinnati, where he speaks tonight to the American Bar association. He was a guest yesterday at the South Shore Country club.

With him were his wife and his son, J. G. Simon. Sir John was reticent, but Lady Simon was more talkative. She was a suffragist and believed that women in England should be allowed to vote when they reached 21, instead of 30, as at present, but she didn't believe in carrying suffrage too far.

"Too much participation in public affairs," she said, "detracts from women's charms. I don't believe in women holding public office. Of course, they gain something, but they lose twice as much."

MEXICO CITY OIL CONFERENCE TO MEET WITH DELAY

Mexico City, Aug. 30.—[By the Associated Press.]—After a two hour meeting this morning with Secretary of the Treasury De La Huerta, the American oil company representatives, who have come to Mexico to discuss oil questions, paid a brief visit of courtesy to President Obregon.

It is believed improbable that the sessions will conclude before the end of the week, inasmuch as President Obregon and his cabinet will be occupied Thursday with the opening of congress.

Consideration of the Amparo suit, brought in 1919 by the Texas Oil company against the Mexican president and department of commerce and industry, was continued today by the Supreme court.

CONTRACT MADE FOR 51 MILES OF CEMENT ROADS

Springfield, Ill., Aug. 30.—Contracts for approximately fifty-one miles of cement roads were awarded today by Gov. Small at a cost of $1,474,494, or an average of $28,957 per mile. Had these contracts been let last spring when he refused to pay $40,000 per mile the roads would have cost the state more than $2,000,000, the governor said.

Today's contracts were awarded on bids received Aug. 23. At that time bids were also opened for an additional eighty-seven miles of paving contracts, which are still being investigated.

HERE the huge ladle pours its tons of better-than-standard iron into the steel-making furnace. Here the metal boils and bubbles: here it receives the "seasoning"—the special ingredients necessary to make steel to meet the specification.

And it must meet it exactly. To make sure it does, the ever-watchful metallurgist, the nearby laboratory, both check the skilled "master-melter"—the "chef" who gets a bonus for quality.

GERMANY'S WAR DEBT TO YANKS TO BE WEIGHED

[BY A STAFF CORRESPONDENT.]

Washington, D. C., Aug. 30.—[Special.]—One of the first acts of congress after the senate ratifies the treaty with Germany, it was indicated today, will be the passage of an act dealing with the United States' seizure of enemy alien property during the war. The state department and the alien property custodian are preparing statements to show claims against the German government by United States citizens due to the submarine outrages and other war acts, together with estimates as to the value of German property requestered here and the value of property of American citizens taken over by Germany during the war.

Will Guide Congress' Action.

It is believed that this information will be employed largely by congress in reaching a decision as to what course to pursue in the matter, although undoubtedly President Harding, after a conference with the interested departments, will send a message to congress asking definite legislation. Congress, which is expected to receive the treaty when it reassembles on Sept. 21, has the sole authority to determine what shall be done with the alien property seized under the trading with the enemy act. Under that law the alien property custodian acted.

Prepare for Conference.

President Harding has reached no decision as to the personnel of the American delegates to the Washington conference on armaments and Pacific questions, beyond his selections of Secretary Hughes and Senator Lodge. He is waiting until the size of the various delegations has been determined by exchange of notes.

The British embassy is considering the acceptance of a large house offered to the British delegates, while the Japanese are negotiating for a residence on Du Pont circle, reports naming the old Westinghouse home. Perry Belmont, former member of congress from New York, who has a $1,000,000 home on New Hampshire avenue, used by the Italian war mission a few years ago, has offered it for use by some of the delegates.

Harding for Hospitality.

President Harding is anxious the American people not only in Washington, but in New York and elsewhere, demonstrate this is a hospitable country. He wants delegates to carry away a lasting good impression.

Taking their cue from the President, the members of the board of district commissioners who rule Washington issued today a proclamation calling on the people to "shine up" the city for the conference.

Meanwhile there has been cabled to this city a translation of the views of Dr. Nichiro Matsunami, a Japanese authority on international law, who said the acceptance by Japan and Great Britain of "the proposal of President Harding for a conference on disarmament may be looked upon as a verdict against the league of nations." Otherwise, he asserted, Japan and England would have invited America to join the league and a refusal would have meant "the only alternative open to Japan and England was to decline the invitation of America" to the session on disarmament.

Wooer's Bullet Went Wild; Girl Marries "Victim"

The marriage license clerk issued No. 888 yesterday to Frank W. Pennell, 35, and Doris Mae Rodda, 23, both of 707 North Dearborn street—and thereby hangs a tale. Pennell was shot at by Andrew Knuckey May 7, who thought by the gun play to retain Miss Rodda's love. Knuckey wasn't a good shot and he hit Lee Sharpe, a bystander, who was killed.

AIR DERBY TO BE HELD YEARLY ON LABOR DAY

The Air Derby is to be an annual event in Chicago.

This announcement was made yesterday by James S. Stephens, vice president of the Aero Club of Illinois.

The first Chicago Derby day will be on Sept. 5, when about fifteen contestants, all Chicago flyers, will hop off from the Aero club field at 83d street and 48th avenue for the first of the two events of the day at 1 o'clock in the afternoon.

Two Events on Program.

The first race is for ships of 100 horse power and under, and the second race, which will be started a half hour later, will be open to all comers. The course for both events will be the same.

Leaving the Aero club field the ships will fly northwest to Behnke's Checkerboard Flying field in Maywood; then north to Hollingsworth's Lincoln field on Dempster street, near Lincoln avenue; then east to Burmeister's field in Evanston; then south to Black's field on Peterson road; then back to the Checkerboard field, where the flyers will be required to touch their wheels to the ground, and then back to the Aero club field, where the races will finish.

Oldest Pilot to Fly.

Among the flyers in the first race will be the oldest air pilot in the United States, Charles D. Dickenson, president of the Aero Club of Illinois, who is 63 years old.

Walter L. Brock, pioneer air racer, and winner of the 1914 London to Paris race, is chairman of the race committee.

All entrants will be obliged to fly within 150 feet of the ground when passing over the flying fields on the course.

300 Chicago Priests on Retreat at Notre Dame

South Bend, Ind., Aug. 30.—[Special.]—Nearly 300 Chicago priests are registered at the University of Notre Dame this week for their annual retreat. The Rt. Rev. Alexander McGavick, auxiliary bishop of Chicago, is presiding. Mgr. E. M. Dunn, D. D., chancellor of the Chicago diocese, also is presiding. Mgr. E. M. Dunne, D. D., Mundelein, archbishop of the Chicago diocese, will come Thursday. The Rev. Father Stritch, S. J., of the University of St. Louis is retreat master.

22nd "Blue Ribbon Wednesday"

People who want to economize and still have the best food are buying from this store every day—but Wednesday, Blue Ribbon Day (Today) is a special day. Where hundreds of extraordinary values are provided.

People wonder how this store does it. Well, this is an organization of alert merchandisers who know values and appreciate qualities. We buy in very large quantities from first hands. We pay cash and we sell at the very lowest possible margin of profit. We don't figure on how much we can get for an article, but we do figure very carefully how cheaply we can sell it, and as a consequence we sell thousands where ordinarily we would sell hundreds and you make seventy-five cents go as far at least as a dollar could ordinarily.

BY JAMES CRUSINBERRY.

Those St. Louis Browns are hustling like pennant chasers with the hope of landing in third place in the American league race and thereby cutting in for a bit of the world's series gate money and yesterday in their hustling mood they simply swamped the White Sox in the first of a series of seven games, 11 to 5. The victory moved the Browns into third place.

St. Louis had Urban Shocker on the mound and he's the ace of the staff of that outfit, while the Sox dragged through the contest using four young flingers, Russell, McWeeney, Michaelson and Hodge, all having a hand. At that the Sox slammed the offering of the St. Louis ace for sixteen blows, most of them being gathered after St. Louis had the game salted down.

Sisler Makes Five Hits.

There's no question about the hitting ability of the Browns. They poled twenty wallops, five being delivered by George Sisler, who is crowding the American league leaders for batting honors. He was up five times and knocked four singles and a triple. He scored four runs himself and three times started a lot of trouble after two men were out.

Young Jim Russell, who started his major league career in such an impressive game against Washington about ten days ago, when he was beaten, 1 to 0 in thirteen rounds, was the man sent to the rubber at the start. He wasn't wild at all on this occasion but seemed to hand up just the kind of stuff the Browns liked. After four rounds, they had belted home six runs and he was removed.

Browns Pound Michaelson.

Doug McWeeney succeeded him and hurled two spasms, the visitors nicking him for a couple. Young Michaelson, who fanned a lot of people out in Michigan this summer, took the job for a couple of rounds and the enemy lammed him for three tallies in the eighth. Hodge got through the ninth with no one counting.

TRIPLE PLAY AS BRAVES AND REDS SPLIT TWO GAMES

Boston, Mass., Aug. 30.—Boston won the first game of the double header against Cincinnati, 5 to 0, today, but lost the second, 6 to 4. A triple play by Boston in the second game was the high light. With the bases full and none out in the sixth Fonseca bounded to Ford, whose throw to Barbare forced Bressler. Barbare's throw to first cut down the batter, and then Groh was run down between third and home. Scores:

KNOCKERS' KNICKER CLUB.

DEAR HARVEY: These Knicker Girls make me tired. Too many women are not built right. A few tall, slender ones can get away with it, but a majority of them would look like the deuce. Lonnie.

Dear Sir: Now that the novelty has worn off, no doubt Martha and Helen will divest themselves of the knickers and clamber back into their usual garments. Takes an egotistical female to pull off, or, we better say, put on a stunt like that. Hal.

Dear Wake: We see there is much commotion in Chicago caused by Helen

and Martha parading the $ side of State street clad in knickers. Denver girls have been knickering for the last three years, and we are almost that far along in Guthrie Center, Ia. W. M. B.

Just Keep Smiling.

World's been kind of topsy-turvy,
Men have wondered what to do,
Sighs have filled our daily pathway,
And I feel you've done it, too;
War will ever leave its shadows,
Things that haven't been worth while—
Business now is surely coming
If we just look up and smile.

We have stood the rod and goading,
Filled the world with life and cheer,
Met the issue without failing,
Kept our word, for it's most dear.
There must be no looking backward—
Ever onward all the while;
Business boys, is surely coming,
If we just look up and smile.

In the '70's and before, an old pier extended four blocks or more out into the lake at the foot of Davis street. What fish we boys used to catch from the end of that structure! Here lumber steamers frequently tied up and discharged their cargo. Every July 4th

the Goodrich people ran excursion steamers from Chicago to this landing (for the day), which helped liven things up a bit in the quiet little burg. For years, near this pier on the sandy beach, fishermen had their shanties, boats, and nets, doing a thriving business. C. E. J.

TRIPLE PLAY FAILS CUBS; GIANTS WIN, 5-3

BY I. E. SANBORN.

New York, Aug. 30.—[Special.]—The Giants won their eighth straight victory today when they licked the Cubs in the final of the series by a whirlwind eighth inning rally, which included home runs by Bancroft and Smith, resulting in an ultimate count of 5 to 3.

Up to the fatal eighth Speed Martin pitched a wonderful game, shutting out the Giants with only two hits in seven rounds, with the aid of a triple play, which Zeb Terry might have made unassisted in the third inning, if he had cared to. Meantime, with the aid of a home run by Hollocher in the third the Cubs accumulated a lead of three runs, and the 15,000 home rooters were disconsolate.

Homers Win for Giants.

The dam broke without warning. Kelly, first up in the eighth, slammed a single to center. Meusel ripped off a double over Barber's head. Stengel batted for Rawlings and rolled out, scoring Kelly from third. Smith whaled a fly against the upper deck of the grandstand in right for a home run, driving Meusel in ahead of him. That tied the score.

Cunningham kept up the bombardment with a smash against Martin's shins for a single, then Bancroft lifted a fly into the right field stand close to the foul line, where the distance is shortest. Umpire Klem ruled it was a fair hit, but the Cubs insisted it was foul, and Klem won the argument. Martin passed Frisch, and Killefer summoned Ponder to finish the round, which he did.

The Easy Triple Play.

The triple play occurred after Rawlings had made the first safe hit off Martin in the third and Smith had drawn the first pass. That put men on first and second with nobody out. Nehf peeled off a low liner toward right. Terry speared it with one hand, and had the runners at his mercy. He could have tagged Smith on his way back to first, then touched second base before Rawlings got back, but Zeb elected to share the honors, so tossed the ball to Hollocher on second and Holly let Grimes have the third put out. GAR WOOD PILOTS WINNING HYDROS; RAIN HALTS RACE

Detroit, Mich., Aug. 30.—[By the Associated Press.]—The third and final heat of the gold cup power boat race here today was abandoned on account of rain after Miss America I. of Detroit and Miss Chicago of the Chicago Yacht club had covered ten miles of the thirty mile heat. It was decided not to run off the heat, as with two boats in the race Miss America had a winning margin on the trophy.

Miss America I. was driven today by "Gar" Wood, and Miss Chicago by George Wood, his brother. It was "Gar" Wood's fifth consecutive victory in the annual gold cup races.

"Gar" Wood also scored an easy victory in the Wood-Fisher race, driving his Baby Gar to a new world's record for displacement boats in the third and final heat. The new record was an average speed of 44.2 miles an hour against the former record of 43.1 established by Wood Saturday.

Miss Chicago, winner of yesterday's heat of the Detroit trophy race for single engine hydroplanes, had no opposition in the final heat today and took it by default, the judges calling the craft in after it had covered 10 miles of the 30-mile heat.

The Sallan cabin cruiser trophy went on points to the "2 P. M." of Detroit, which finished first in today's 25-mile heat, while Cap II. of Toledo, which finished sixth in today's heat, took second place in the race on points, and Silver Heels II. of Detroit, tenth in today's heat, captured third place on points.

AMERICAN GIANTS WIN.

MORE NOTES.

THE season opens tomorrow, Sept. 1, on rails and mourning doves in Illinois; on squirrels and rails in Iowa and on rails in Michigan and Indiana. The season on trout closes tonight in Wisconsin, Michigan and Minnesota. Rails are unusually plentiful in southern Michigan at present. The writer counted fourteen king rails on the Kalamazoo river marshes recently, but you can never tell about these odd "boids"; here today and gone tomorrow fits 'em to a T.

* *

We have received a copy of the year book of the Buchanan county [Ia.] Fish and Game Protective association, which has a membership of over 700 sportsmen. The book contains the constitution and by-laws of the organization, a statement of the association's aims and purposes and the fish and game laws of the state. It shows that those Buchanan county fellows are live ones. Every county in every state should have its fish and game associations; such organizations are just what our warden system needs to make it effective.

* *

Reports from the northern Illinois lakes indicate a good supply of locally bred mallards and teal, some king rails and a few flight mudhens. From the Illinois river country we hear that teal and mallards are unusually plentiful. With the open season but a little more than two weeks away this is cheering news.

* *

Hint to lake front fishermen: Crawfish are plentiful in the north branch of the Chicago river and the peeled tail of a craw is a mighty good perch bait.

MATTY IMPROVES; HAS MOTOR RIDE; VISITS BARBER

Saranac Lake, N. Y., Aug. 30.—Christy Mathewson appeared on the streets of this village today for the first time since his arrival here several months ago in quest of health. Mrs. Mathewson drove him in an automobile from their cottage to a barber shop, where the famous pitcher of the Giants submitted to the attention of the proprietor. Christy appeared to be in normal weight.

JOHNNY WILSON READY FOR GONG; FIGURES ON K. O.

BY FRANK SMITH.

New York, Aug. 30.—[Special.]—A visit to Manhassett, L. I., would convince any one that Johnny Wilson, middleweight champion of the world, is in proper condition to step into a ring at any minute to defend his title. The champion appears to have overlooked nothing in his prearranged plan to blind Bryan Downey of Columbus, O., in Tex Rickard's arena at Jersey City next Monday with his stabbing rights, then plant a haymaker left, and thus set at rest for all time the charge that he is a phony champion.

JOHNNY WILSON. [Central News Photo]

The criticism of his showing with Downey at Cleveland four weeks ago, as well as of his previous battles, by sport writers, editors, and the public, has struck Johnny to the quick. He convinced a crowd of newspaper men today that he would enter the coming clash determined to knock out his rival at the earliest possible moment. Inclined as to the round he thought he would be able to turn the trick, the crafty Bostonian refused to venture a guess, but intimated the battle would have an early ending.

Some Questions Asked.

Johnny's attitude since he won the title from Mike O'Dowd in Boston was put squarely up to him. It was pointed out that he had not done anything remarkable except get another decision over the fading Mike in New York. He has beaten two or three second raters since he became champion and has sidetracked various other offers to show his championship caliber.

Questioned as to why he dodged these matches, he reiterated his oft repeated statement that he was under the weather and could not put up a regular fight had he been called on to do so. It was suggested that the public did not see it in that light and that the fans had about come to the conclusion that he was a champion in name only.

Wilson's Tongue Loosens.

With a shrug of the shoulders, Johnny took what was coming to him. Then to cap the climax his recent showing with Downey was pushed down his throat. This choked him for a minute. But the spasm soon was over and admission of lack of condition, condemnation of Downey, his manager, and Ohio fans, rallings at the reception accorded him before and after the mill, and criticism of the one-sided publicity regarding the encounter tumbled over each other as they rolled forth from under his flattened nose.

The champion was ably seconded by Marty Killilea, his manager. What he said about Jimmy Dunn, manager of Downey, and the tactics used by the latter around the ring would make good reading, but would not pass Postmaster General Hays' censorship.

Who Grabbed Champ's Foot?

Wilson declared, without equivocation, that a third man, unknown to him, grabbed him by the foot, distracted his attention for that fraction of a second necessary to spell defeat for any one in the ring, and Downey, quick to see the opening, swung, and Johnny went to the mat.

Killilea does not say that he saw this, and after the fight he asked the referee regarding the incident. The referee was not able to back up Johnny's assertion, but Johnny is insistent and we pass it on for what it is worth.

Killilea does assert, however, that friends of Downey crowded about the ring from the tap of the first gong and that the ringleader was Dunn. All of them, Killilea avers, used all the unfair tactics imaginable to distract Wilson from the job he had on hand.

Says Dunn Pulled Trick.

Despite this Johnny went along and plastered Downey, Marty says, with what he had, cutting the Columbus boy's face and opening a big gash over the nose. When Johnny faded out Killilea declares that Dunn was first to climb on the ring platform, and while the referee was counting Dunn also started a count in an effort to disconcert the third man in the inclosure.

When the referee disqualified Downey for hitting Wilson while he was down there was a general free-for-all in the ring, which came to an end only when the police intervened. The referee seemed to be the target for flying fists, but escaped uninjured. Killilea denies reports coming out of Cleveland that there was a mixup in the dressing room.

Figured on "Setup."

Killilea and Wilson admit the latter was not in condition to do his best. They admit that they considered Downey was a "setup," and Wilson neglected to train properly. They deny that the champion weighed 174 pounds, as reported from Cleveland. Even the newspaper men about the ring declared that Downey was an easy mark, Killilea says, and that right up to the seventh round, when Downey clipped Wilson, all were unanimous in declaring Wilson had the better of the argument. When the stories appeared the following morning Wilson was not given a round, Killilea asserts.

So much for the history of the Wilson-Downey fight at Cleveland. What fans are most interested in at the present writing is "Will Wilson be in shape to best Downey in the coming fight?" He is in shape, but whether he will defeat Downey remains to be seen.

Manhasset Cocky Camp.

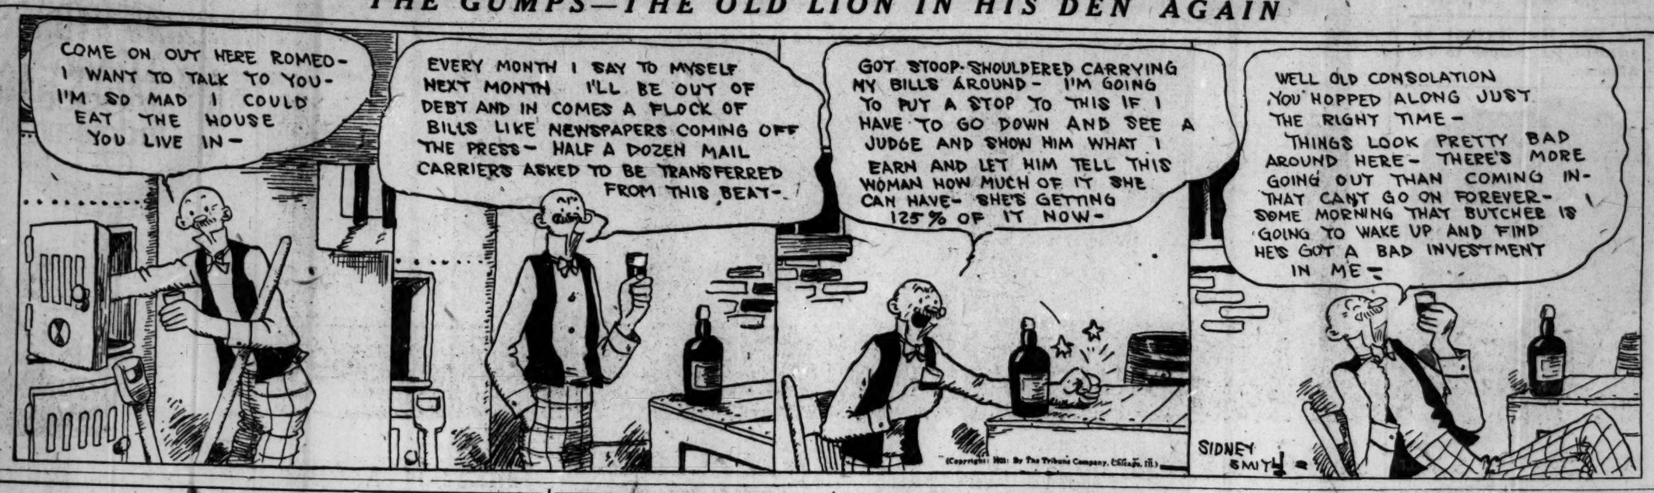

The former home of Georges Carpentier is about the cockiest camp we have seen in a long time. There is an air of "We will win," and this goes from the cook to the lads who are taking the daily gaff from the champion in the camp ring.

Wilson is so sure he will win that he is willing to make a good sized wager on himself to knock out Downey. Wilson sincerely believes he will be able to turn the trick. Killilea says it must be done to clear the champion of past criticism, and camp followers are sure of the result.

MANDELL HAS CHANCE FOR MATCHES IN EAST

BY WALTER ECKERSALL.

If Sammy Mandell, the clever Rockford bantamweight, wins decisively from Young Farrell of San Francisco at Aurora on Labor day he will be given matches with the leading 118 pounders in the east, according to his manager, Eddie Long.

"Following his spectacular showing against the crafty Pal Moore in the Aurora ring last week, Manager Long has been flooded with offers for his fighter. It was the original intention of Mandell's manager to give him a rest after the Moore fight, but Promoter Jim Mullen made the fighter and his manager change their minds. Mandell, however, will be rested after this bout.

The Rockford schoolboy put in an appearance at the Arcade yesterday, but postponed doing any work until today. As he will have to make 120 pounds for Farrell, it will only take a few days' work to reach this figure.

That Farrell will not be a setup for the Rockford boxer was shown yesterday when the coast fighter cuffed two sparring partners around the ring in relentless fashion at the Arcade. In one bout the third round had to be cut short to save Farrell's opponent from a knockout.

Fight Films in Boston; No Prosecution Planned

Boston, Mass., Aug. 30.—[Special.]—Although the films of the Dempsey-Carpentier fight were shown to the wounded veterans at the Parker hospital last night, no prosecution will be made under the law which prohibits interstate transportation of such pictures.

"Certainly the spirit of the law has not been violated and we have received no complaints of their exhibition," said U. S. District Attorney Robert O. Harris.

Midget Smith Training at Manhasset for Burman

New York, Aug. 30.—[Special.]—Midget Smith, who already has a newspaper decision over Joe Burman of Chicago, and who will meet the Walsh-Lewis entry again at East Chicago on Sept. 9, is training at Manhasset with Johnny Wilson. Smith looks overweight and he is working like a Trojan to peel off enough pounds to make the 120 pound limit. Smith expects to leave for Chicago on Sept. 4.

GRAND CIRCUIT RACES

READVILLE, Mass., Aug. 30.—The world's record for 5 year old trotting geldings today was broken for the second time this season, when Peter Manning, driven by Thomas W. Murphy, trotted a mile against time in 2 minutes at the Grand Circuit meeting, lowering by a quarter of a second the mark he hung up a few weeks ago at the North Randall [O.] track. Summaries:

WILSON UNCOVERS RIGHT HAND PUNCH

BY HARRY NEWMAN.

New York, Aug. 30.—[Special.]—We took a close up of Johnny Wilson this afternoon while the middleweight champion scampered through a long siege of training stunts in a stuffy little barn on the old Matthews estate in Manhasset, L. I., while preparing himself for his engagement with Bryan Downey at Jersey City next Monday afternoon.

We watched Johnny do his "stuff" while more than a dozen experts and as many natives looked on. The side winder sure did "show off!" There was not a thing in the usual training repertoire that Johnny did not display for the benefit of the critics.

Wilson in Great Shape.

As one expert remarked at the end of the strenuous work, "Wilson may not be very pretty to watch, but he sure is a rough boy." Wilson does not show any particular class in his actions and is far from the standard of his predecessors who held the middleweight title, but he is an honest to goodness glutton for work.

If condition counts for anything we would like to advise Mr. Downey that he is in for the merriest time of his life when those two boys start shooting at the Jersey battlefield on Labor day.

Wilson started off today's doings with a short attack on the pulleys, then stepped out for some vigorous work with the big bag. Following this, Johnny was ready for his first try at the gloves.

Shows Right Hand Punch.

Paddy Flynn, a rugged rough and tumble scrapper, answered the call and for three rounds the two boys went at it hammer and tongs. Wilson showed besides a wicked left hand that he has developed a corking right, which is bound to command respect. Heretofore, it was believed that Johnny was left handed in every direction, but he sure has mastered a right which was surprising to the spectators.

Ned Flannigan was the next boxer called upon to face the cuffs and jabs of the Italian fighter. Those wicked left hand uppercuts which have always been Wilson's best asset kept Flannigan backing up at every turn. Again Wilson showed his right hand against his willing sparring mate. Instead of pawing with it, as is usual with left hand shooters, Wilson sends it in straight and true, with plenty of drive.

Will Take Downey Early.

"O, yes, I'm going to take this fellow early!" said the champion in answer to our query as to how he felt about his chances against the Columbus scrapper.

"I had Downey beaten in our last scrap, and I don't think he played fair with me when he struck me a severe blow on the head while I was down taking a short count. However, let us not discuss that scramble. I'm going to get him again next Monday afternoon and I will prove just how good this Downey fighter is."

BUSY DAY FOR DOWNEY

New York, Aug. 30.—[Special.]—While Wilson was making hay at the quaint Long Island farm Bryan Downey was busily engaged in whipping himself into shape for the Labor day fight.

Downey engaged three sparring partners at Grupp's gym. He took each mate on for three rounds, and nine bristling periods they were. Downey wound up the day by tugging at the pulleys and mauling the sandbag.

As is the case at Manhasset, the air at Grupp's is heavily laden with optimism. Downey and his entourage believe that the Columbus middleweight is one boxer who has the number of the Cambridge champion.

BURMAN OUT TO LACE SMITH IN EAST CHICAGO GO

"I hope Smith's hands are entirely well when he fights me because I do not want him to have any excuses after I beat him."

This was the statement made yesterday by Joe Burman, local bantamweight, matched to meet Midget Smith of New York City, in the main event of the boxing show at East Chicago Sept. 9.

The little west sider worked like a trojan yesterday at the Arcade. He went through an hour's gymnasium work which included everything but boxing. He covered four miles on the road in the morning and would have boxed in the afternoon if his sparring partner had put in an appearance.

Promoter Hyams last night telegraphed transportation to Jack Sharkey, New York bantamweight, who will meet Ray Moore of Minneapolis in the semi-windup. Sharkey will arrive tomorrow morning.

There is a brisk demand for tickets at 129 North Dearborn street, and 153 North Clark street. Sammy Wolf will run a special train over the Pennsylvania.

NO FIGHT AT CLEVELAND: RAIN.

Cleveland, O., Aug. 30.—The Jack Wolfe-Carl Tremaine bout scheduled here tonight was called off on account of rain.

MINISTERS ASK TEX FOR PRIVATE SHOWING OF TITLE BOUT FILMS

New York, Aug. 30.—[Special.] — Following the announcement that one minister had borrowed the film of the Dempsey-Carpentier fight to help lift the mortgage from his church comes news today that forty prominent Brooklyn ministers have petitioned Tex Rickard interests for a private showing of the same picture.

Not to censor it, but just because they missed the fight proper and are anxious to get a glimpse of the punch that ended Carpentier's dream of championship. As a reward for their sportsmanship the ministers are to see the film free, Fred C. Quimby, in charge of showings, announces.

FOREIGN TENNIS STARS ENTER FOR NATIONAL TITLE

Philadelphia, Pa., Aug. 30.—Entries of four more foreign stars for the lawn tennis singles championship of the United States, play for which will begin Friday of next week at the Germantown Cricket club, were announced today. They were from Gordon Lowe and Wallis Myers of the British Davis cup tam; Zenzo Shimidzu, star of the Japanese Davis cup team, and Kashio, the third member of that team.

The entries of the two great American players—William T. Tilden II., holder of the world's title as well as the American, and William M. Johnston of California, runner-up last year—came in by telegraph. Entries of R. Norris Williams II. and Watson M. Washburn also arrived today, bringing the total to 110.

VISITING STARS WIN NET MATCHES IN METROPOLITAN

New York, Aug. 30.—Clarence V. Todd, Australasia; M. Van Ingersley, Denmark, and John Gilbert, British Isles, won their matches in the Metropolitan tennis championship tournament today. Gilbert was extended to three sets, 4—6, 6—4, 7—5, by Marshall Allen of Seattle.

Willis Davis of San Francisco, easily defeated Eric Tegner, Denmark, 6—2, 6—3. Among the other winners were Frank T. Anderson, national indoor champion; Howard Kinsey, San Francisco, and S. Howard Voshell, New York.

Brickley, Ex-Harvard Star, to Coach Fordham

New York, Aug. 30.—Charles E. Brickley, famous Harvard football star eight years ago, has been appointed advisory coach at Fordham university, it was announced tonight by Graduate Manager John J. F. Mulcahy.

PLAY SEMI-FINALS OF JUNIOR GOLF TODAY

Features yesterday at Skokie in the second match round of the women's western junior golf championship tournament were the advancement of Miss Mercedes Bush of Westmoreland, defending the title, and an excellent round of 45—46—91 by Miss Catherine Bryant of Westward Ho.

Miss Bush defeated Miss Elsa Luttringhaus of Glen Oak, 4 and 2, while Miss Bryant triumphed 8 and 6 over Mrs. Dorothy King of the home club.

In the semi-finals today Miss Bush will meet Miss Bryant, while Miss Virginia Wilson of Onwentsia will meet Miss Josephine Morris of South Shore. Miss Wilson yesterday defeated Miss Helen Vastine of Glen Oak, 5 and 3, and Miss Morse eliminated Miss Ethel Pattillo of Skokie, 5 and 4.

Miss Bryant's excellent medal round yesterday was the subject of much comment among the seniors in the gallery. The only difficulty she had was at the tenth hole, where she got into the rough from the tee and played a poor recovery. At the thirteenth, instead of losing her courage, she negotiated a birdie 2 against a men's par of 3. Miss Bryant's medal card was as follows:

Out	6	3	5	5	6	6	5	6	3	—45
In	8	6	5	2	5	5	5	5	5	—46—91

The semi-final pairings:

Miss Mercedes Bush, Westmoreland, vs. Miss Catherine Bryant, Westward Ho; Miss Virginia Wilson, Onwentsia, vs. Miss Josephine Morse, South Shore.

SUZANNE PLAYS PRACTICE TILT WITH SAM HARDY

New York, Aug. 30.—Mlle. Suzanne Lenglen, French woman tennis champion, began practice today for her exhibition matches next month. The French girl, who had been resting since illness caused her default two weeks ago, to Mrs. Molla Bjurstedt Mallory in the national tournament, batted the ball about in informal play with Samuel Hardy of New York.

The practice took place at the Nassau Country club, Glen Cove, N. Y., where Mlle. Lenglen will train for the remainder of this week.

Miss Goss, Mrs. Williams Win Doubles Tennis Title

Newport, R. I., Aug. 30.—The doubles honors of the Women's Invitation lawn tennis tournament at the Casino today were won by Miss Eleanor Goss and Mrs. L. E. Williams when they defeated Mrs. May Sutton Bundy and Mrs. Howard Cushing in the final, 6—2, 6—2. Miss Mary Browne and Mrs. May Sutton Bundy will meet in the final of the singles tomorrow.

LOCAL GOLF

MRS. LEE W. MIDA of Marquette, defending the title, and Miss Grace Saunders, a clubmate, tied yesterday at the home club in the qualifying round of the second annual public parks championship tournament for women players, with respective scores of 44—45—89 and 45—44—89. Par is 84. The two leading cards:

Mrs. Mida, out	555	455	555	—44
In	654	554	565	—45—89
Miss Saunders, out	664	356	645	—45
In	545	664	455	—44—89

The first match round today will be at eighteen holes, while the final Saturday will be over the thirty-six hole route. Pairings follow:

CHAMPIONSHIP FLIGHT.

Much interest is shown in the exhibition match tomorrow at Bob o' Link, where Bob MacDonald, home pro, paired with Charles Evans Jr. of Edgewater, will meet Abe Mitchell and George Duncan, the British professionals. Play in the forenoon will start at 10 o'clock, while the afternoon holes will begin at 2:30. The event is open to members and nonmembers at an admission fee of $2.

Joe Kirkwood and J. Victor East, Australian golfers, gave an exhibition at the Lincoln park course yesterday. Paired with Miss Pemberton, Kirkwood defeated East and Frank Douglass by two strokes in nine holes. A gallery of 300 followed the players. Kirkwood gave an exhibition of his trick shots.

HAGEN, HAMPTON, BEAT MITCHELL, DUNCAN, AT GOLF

Detroit, Mich., Aug. 30.—[Special.]—Walter Hagen, western open golf champion, and Harry Hampton, Brooklands club pro, today defeated George Duncan and Abe Mitchell, the English pros, 4 and 3, in a thirty-six hole match over the Brooklands course. The Americans' victory was due largely to the great game played by Hagen.

WILLIAMS TO LEAD DAVIS CUP TEAM

New York, Aug. 30.—R. Norris Williams II. of Boston was selected today as captain of the United States Davis cup team which will defend the international tennis trophy against Japan in the challenge round at Forest Hills, New York, Sept. 2, 3 and 5.

Williams is the senior member of the team. His Davis cup career began in 1913 against Australasia at New York; Germany, at Nottingham; Canada, at Wimbledon, and the British Isles at Wimbledon. He competed in the challenge round against Australasia in 1914 and also was a member of the United States team that visited England in 1920.

M'MURRAY LEADS JAMBOREE GOLF PLAY AT EXMOOR

When the last putts were sunk yesterday in the annual Jamboree golf tournament at the Exmoor Country club it was found that Donald MacMurray, a home guard, with 85—75—160, had a lead of three strokes over Donald Edwards of Glen View and Dr. E. H. Raedel of Westmoreland, who finished with 163, in the quest for the American Eagle trophy, the low gross prize at seventy-two holes.

R. E. Wilsey, Glen View	85—88—173
D. A. Noyes, Glen View	87—86—173
R. C. Butler, Indian Hill	88—85—173

Fred Copley won the prize for low net score in the qualifying round with 87—20—67.

The field included golfers from every club in the local district, as well as several from outside Chicago. It made necessary the addition of other flights to the twelve originally scheduled.

The Jamboree dinner was served in real western cowboy style. Fine quarters of beef, hams, and legs of lamb roasted over the coals and were served on the lawn by waiters dressed in typical cowpunchers' garb.

Final Matches Today.

The semi-finals will be played this afternoon and the deciding contests will follow luncheon. Summary:

MANN IS WINNER OF GOLF TROPHY AFTER PLAYOFF

A big field took part yesterday in the Association of Commerce tourney at Olympia fields, 184 players making the round of eighteen holes. The President's cup, principal of the eight trophies competed for, went to John P. Mann of Midlothian, who was tied with Charles D. Richards, unattached, after the round, but won in the playoff after three holes. Richards was given the Vice President's trophy. Mann's score was 100—34—66 and Richards' 98—32—66.

Low gross for the meet went to Lee Thiltges, the Calumet expert, who turned in a card of 43—39—82 and captured the Executive Committee cup as a prize. The other prize winners follow:

Interstate and Foreign Division cup—A McCallum, Westward Ho, 94—24—70.
Local cup—M. MacLeod, Park Ridge, 87—15—72.
Civic Industrial cup—Judson Stone, North Shore, 92—16—76.

U. S. GIBRALTAR RULES SULU SEA AND TAWI TAWIS

Reverent Moros Listen to Father Wood.

BY PHILIP KINSLEY.

[Chicago Tribune Foreign News Service.]
[Copyright: 1921: By The Chicago Tribune.]

PUERTO PRINCESA, Aug. 30.—Down here towards the equator the rock of Bungao, which might be called the American Gibraltar in the south Pacific, stands like a huge fist, dominating the Sulu sea, British Borneo, the Celebes, and the Tawi Tawis. Here flies the United States flag in the nation's most southern outpost, and here dwells a primitive people, who look upon Gen. Wood as their father and who have been waiting for him to come to give them surcease from their ills.

A company of Filipino constabulary keeps order on the island and two Americans teach the little Moros. The straggling little village here, which is built of stilts, has not cnanged in twenty years, except for the coming of a school and of a wireless station, which does not work.

Sultan's Letter Saves Life.

Willie Cuck lives here also. He is a member of the famous family which for many generations stood close to the Sultan of Sulu. When Willie's forefather sailed down here many years ago, he had a letter from the sultan nailed to the masthead for his protection. A thousand Moros in their boats surrounded him, but seeing the letter they withdrew and swore eternal brothership.

Although the sultan is an insignificant figure at home, yet he is lord of the church in these parts. He would figure as a power only in the event of a holy war, should the Moros be unwisely ruled.

At the base of the rock stands the tree of life. The natives say that whoever eats the fruit at a certain stage never gets old. Gen. Wood met the leading chiefs here. One said the general's coming was as though the moon had dropped down to them. Another said his heart was like a mountain, and he felt too happy to talk.

Urges Moros Onward.

Gen. Wood sat on the school house steps, listening patiently to the interminable dialogues. He told the chiefs that the Americans would continue their policy of putting Moros in places of prominence whenever they were fit. He gave the idea that the Americans were over everything and would stay there and that they wanted the Moros to learn more quickly so that the other natives would not outstrip them in the race.

The chiefs are worried about religion. Gen. Wood showed his attitude on the matter by starting a fund to restore a tumble down mosque in a village on the island of Tawi-Tawi. This mosque was built in 1350, over a graveyard. All members of the mission contributed for a new roof.

On Opium's Trail.

Gen. Wood is taking steps to learn the route of the opium traffic this way. One station is said to be at Cebu. It is declared that the family of one of the high Filipino officials is profiting by this trade.

The mission investigated the killing of ninety-three Moros on April 30 last. Its conclusion was that the Filipinos did the only thing possible in wiping out the band which was responsible for the murder of three soldiers, but the killing of about fifty women and children and the burning of a mosque were condemned as unnecessary.

MRS. ROWLAND J. MUNSTER.

Rowland J. Munster, commission dealer and son of J. F. Munster, retired wealthy packer, must stay in jail until he finds a way of paying his divorced wife, Mrs. Mary Patterson Munster, $40 a week alimony. Judge Kavanagh yesterday denied his petition for freedom.

"If you haven't a cent in the world and are unemployed, as the petition states, you are just as well off in jail," said the judge.

HAY TEAMSTERS' UNION VOTES TO GO BACK TO WORK

After a strike of three days, the 250 members of the local Hay and Grain Teamsters' union voted at a special meeting in Carmen's hall last night to go back to work today and to send three delegates today to an arbitration conference with the dealers. The men struck when the dealers sought to reduce wages $6 a week. They are now paid $36 a week.

At a conference today in the office of Charles H. Jensen, secretary of the association, the teamsters' delegates will meet Albert J. Kemper, President J. W. Badenoch, and Joseph Williams, representing the dealers. The six men will select a seventh and then try to settle the controversy.

CLINNIN GETS KU KLUX CHARTER; PUSHES INQUIRY

Justice Agents Put on the Trail of Klan.

Federal inquiry into the affairs of the "invisible empire" of the Ku Klux Klan, an organization with a declared membership of more than 600,000, has been turned over to the bureau of investigation of the department of justice, Col. John V. Clinnin, acting United States district attorney, announced last night.

The department has been requested to delve thoroughly into the operations of the organization and its weird ceremonies. If the investigation reveals evidence actionable under federal statutes, Col. Clinnin said he will present the matter to a grand jury.

"I want it understood that I have no animus in this matter," the prosecutor said. "There have been numerous complaints made to this office against the organization. These complaints have been made by citizens of the United States. The matter has been turned over to me for investigation. I am investigating."

Gets Charter of Klan.

Col. Clinnin last night received a copy of the much-talked-about charter issued to the organization by the Superior court of Fulton county, Ga., in July, 1916. Excerpts from the charter petition and the ruling of the court follows:

"W. J. Simmons, H. D. Schackleford, E. R. Clarkson, J. B. Frost, W. L. Smith, R. C. W. Ramspack, G. D. Couch, L. M. Johnson, A. G. Dallas, W. E. Floding, W. C. Bennet, J. F. V. Saul . . . petitioners, desire for themselves, their associates and successors to be incorporated in the state of Georgia for the period of twenty years, with the right of renewal; . . . as a patriotic, secret, social, benevolent order under the name and style of: 'KNIGHTS OF THE KU KLUX KLAN.'

"The petitioners desire that the society shall have the power to confer an initiation, degree ritualism, fraternal and secret obligations, sign and ceremonies under which there shall be united only white male persons of sound health, good morals, and high character."

Gets Fraternal Society Powers.

The petition then recites the value of its proposed "Imperial Klonvokation," its supreme body and seeks powers similar to those of various other fraternal orders.

These powers were granted in the charter allowed by the court order.

FEARS KU KLUX KLAN; ATTORNEY ENDS HIS LIFE

Sumner, Miss., Aug. 30.—Brooding over what he believed was an immediate stroke from the members of the Ku Klux Klan, A. M. Stephens, 38 years old, a widely known attorney, shot himself through the head shortly before noon Tuesday and died a few minutes later.

Friends of Stephens declared that he had been complaining of being ill during the last week. He had been suffering with severe headaches, they said. Barely a half hour before taking his life Stephens, according to M. E. Ellis, attorney of Sumner, remarked to him that the Ku Klux Klan are going to burn me at 2 o'clock this afternoon.

Ellis, believing the man insane, immediately sought Sheriff J. F. Sumner and was rushing with him to Stephens' residence when he learned that the attorney had shot himself. Stephens is survived by a mother and sister.

LITTLE ITALY LAW BROKEN; VICTIM OF BULLET TALKS

The one inviolable tradition of Little Italy—a tradition which has always been the handicap of the police department — was broken for almost the first time last night when Tony Aeillo, lying seriously wounded at the Passavant hospital, disclosed to Sergts. Eck and McGrun the identity of one of the two Italians who shot him.

TONY AEILLO.

The attempted murder occurred in front of Aeillo's home at 1102 Townsend street. His mother rushed out when she heard the shots and found her son staggering up the steps with several bullet wounds in his head and body.

30 SCHOOLS TO HOLD CLASSES AT NIGHT 3 MONTHS

Thirty high and elementary schools will be opened four evenings a week for a twelve week semester, according to plans announced yesterday by Ernest E. Cole, first assistant superintendent.

The high schools are: Austin, Bowen, Crane, Englewood, Fenger, Lane, Schurz, Medill, Phillips, Senn, Tilden, Tuley and Waller. The schools are: Cregier, Franklin, Goethe, Lawson, Seward, Stowe, Washington, Wells, and Jones.

Establishment of an elementary teachers' council for giving instructors an opportunity to "sell" their ideas on education to the superintendent and his various assistants is to be inaugurated next Tuesday. Mr. Mortenson said that through such meetings with the teachers he hopes to glean plans for changes in the system.

War's Aftermath in Another Play

"THREE LIVE GHOSTS."

A comedy by Frederick S. Isham. Presented at the Central theater, Aug. 27, 1921. The cast:

Mrs. Gubbins	Daisy Belmore
Peggy Woofers	Olive Reeves-Smith
Bolton	Emmet Shackleford
Jimmie Gubbins	Charles McNaughton
William Foster	Walter Lewis
Spoofy	Arthur Metcalfe
Rose Gordon	Beatrice Maude
Briggs	Arthur Barry
Benson	Charles Penman
Lady Leicester	Kathleen Bolton

BY SHEPPARD BUTLER.

THEY are still fighting the war down at the Central—not in the trenches, but in a shabby London byway, where they reënact the events set forth in Frederick Isham's sometimes funny and sometimes poignant tale of the returned soldier, "Three Live Ghosts."

MISS OLIVE REEVES-SMITH, in "Three Live Ghosts." [Moffett Photo.]

You remember the book, perhaps—a grim little fantasy developed from a comic idea, that of a trio of fighters lost on the field of battle, officially reported dead, and back in England after various misadventures to face the perplexities of those who have no legal right to be alive. One is a cockney with atrocious ways and a heart of gold; another an American boy self-exiled over a matter of some stolen bonds, and the third a man of mystery, shell shocked into amnesia and aimless kleptomania.

Their adventures, in the story, are at once grotesque and piteous. In the play they are made somewhat farcical—doctored up a bit to evoke the ready laugh—but retaining some of their human quality through the sheer good acting of Charles McNaughton as the ebullient cockney and Daisy Belmore as his lying, greedy, gin swilling old stepmother.

These are capital studies in genre, good enough to raise any play from the level of mediocrity, and "Three Live Ghosts" rather needs some such benison, for the tale is not as successful as a farce as it was as a novel. The two players carry the performance on their shoulders, and, since they are in evidence almost continually, make it worth seeing.

"Old Sweetheart," as the doddering beldame is known, starts the proceedings upon the prodigals' return by setting out to pocket a reward offered for the American boy's apprehension. She would give him up, even though his sweetheart has miraculously appeared on the scene, but Jimmie, the cockney, will have no such thing. To this conflict between mother and son, amusing rather than sordid, is added the bizarre exploit of the shell-shocked man without a name, who disappears overnight and returns with a baby carriage, a baby, and pockets full of jewels. Detectives and the crisis arrive simultaneously—and then it transpires that the kleptomaniac is a person of consequence and that his malady has led him to rob his own house. At the same time, the American learns that he has inherited a fortune which will adjust his embezzlement, and all is well.

That's the story and, after a slow-moving first act, it keeps them laughing. Those who act the piece, aside from the two players mentioned, are just so-so, though Miss Olive Reeves-Smith has her moments as Jimmie's sullen inamorata, and Arthur Metcalfe does well with his rôle as the victim of shell-shock.

But it's Jimmie and "Old Sweetheart" that you'll like. They are tremendously worth while.

FRENCH SWINDLE WRECKS ANOTHER RUBBER CONCERN

An empty safe deposit box, the crash of another "aircastle" concern, the voluntary surrender of another victim and scores of complaints against alleged get-rich-quick schemes were yesterday's features of the federal inquiry of the fantastic financial structure erected by John W. Worthington and Charles W. French.

From the Security Safety Deposit vaults in the Masonic Temple, which were robbed a few nights ago, federal officials obtained the number of a box rented by Worthington a year ago. It was found empty.

The Master Tire and Rubber company of Ohio, one of the concerns bilked of thousands of dollars in notes by French, was added to the long list of bankruptcies which dot French's trail.

F. W. Crosby arrived in Chicago from Cleveland to explain to Acting District Attorney Clinnin his operations with French. Zebulon W. Davis, millionaire capitalist, whose signature appears on more than $2,000,000 worth of notes.

TENANTS WHO FIGHT HI RENT DENIED FLATS

Agents Cancel Lease or Boost Rates.

BY MARTHA.

"Martha, Martha, thou hast troubled thyself abru' many things."

Landlords who try to freeze out their tenants in the winter time; landlords who try to exact princely sums for buildings of the vintage of the world's fair days; tenants with eleven month leases, who are afraid of having to pack up their tents and silently steal away, like the festive Arab, on the first of the month—I heard tales of and from them during an extensive cruise along the south side battle front of the landlord-tenants' war yesterday.

W. M. Richards, in the parlor of his apartment on the second floor at 5545 Drexel boulevard, told me of the mysterious tactics of his landlady, while waiting for mess call to blow from the dining room.

"She sent me a notice asking whether we were going to stay next year," he said. "I asked her twice for a lease, to look over. No lease ever came. And the first thing I knew, there was a sign 'For Rent' pasted up and a party came to look over the flat. He said he'd made a deposit on it.

"'I'm sorry for you,' I told him. 'This flat isn't going to be vacant in October. We're going to stay right here and fight.'"

The Richards' rent is $65 for a flat that was erected during the world's fair. Last winter the landlady, he said, failed to supply enough heat. Mr. Richards led the complaining tenants and the landlady, he claims, wants to get a new batch, more docile.

Although Mr. Richards has not found out what he was expected to pay in his October lease, he figures $80, as the rent for other flats in the building were boosted to that amount.

Agent Calls Off Deal.

With a round-house in back, an undesirable location, an allowance of half a month's rent for doing her own decorating, Mrs. H. G. Cohn, 6232 Prairie avenue figures that $60 is too much to pay for her four rooms. She decided to move to Indiana avenue, and packed up. Then the agent called up and told her the deal was off. She thinks it was because she and her husband voiced a protest.

"The rent was $25 in 1918," she said. "Then it mounted to $50 in a couple of years. But $60—too much. These agents—they're all alike. Own your own home, and only move once. That's the only way out.

"Other tenants are sore, too. Look at the windows. It looks like a bunch of smallpox signs, there's so many to rent. The building's twelve years old, too."

No Hot Water, but a Rent Raise.

Mrs. Max Brown, who lives in six rooms at 552 East 50th street with her husband and five children, had a taste of the "freeze-out" game. There there wasn't any hot water in the flat all last winter, she said. And she's been giving the shoe repairers a lot of work lately, having searched every day for three weeks for new quarters, in vain.

The Browns' rent climbed from $42.50 to $75. The agents are now asking $85 for October.

"That's too much," Mrs. Brown said. "We can't pay it. The agents told us we'd have to get out by the first. Where can we go? I haven't found any place yet."

"Afraid to Protest."

Another south sider in difficulties is Mrs. Harry Berman, 424 East 50th street. Their rent has steadily increased from $37.50 two years ago to $75, asked for October.

"There's no decent laundry here," she said. "No sun parlor. Others in the building are dissatisfied, but seem to be afraid to protest. We're going to fight it, though, if we don't get cold feet."

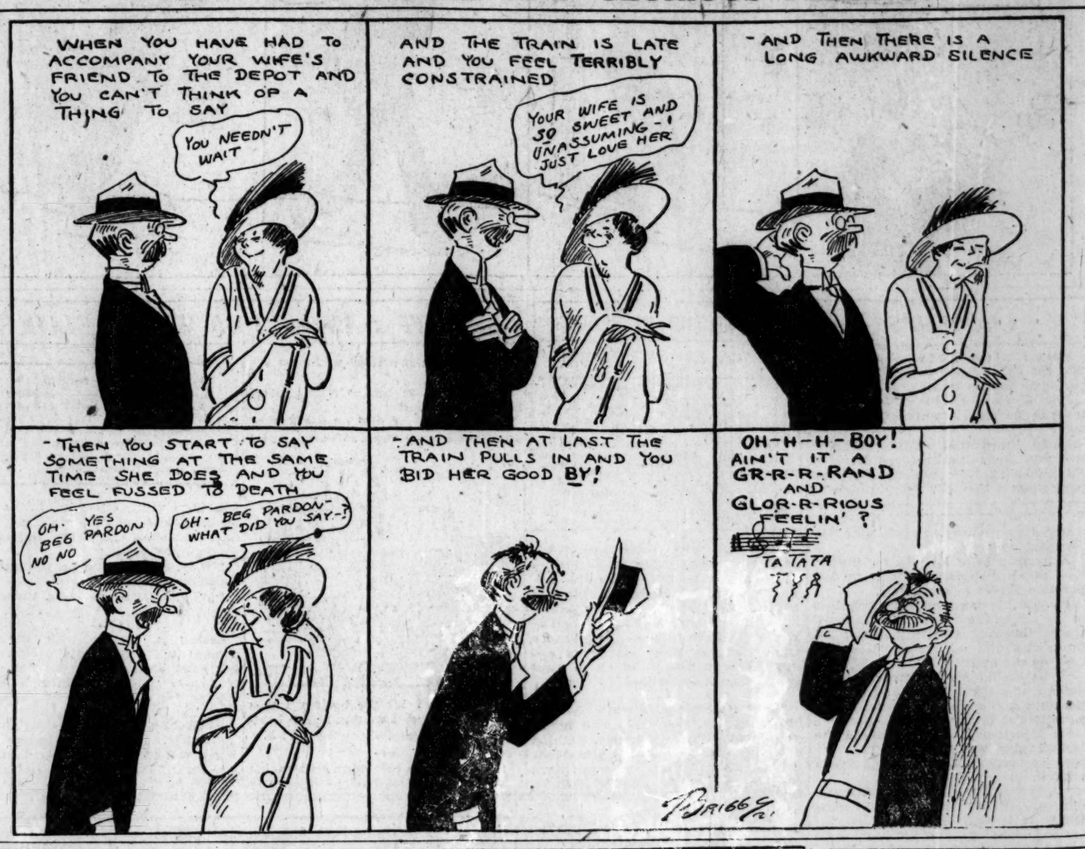

I saw a stack of complaints several inches thick from tenants on a spindle in the Chicago Tenants' Protective league at 8 South Dearborn street. E. A. Potter, manager, answered my inquiring glance.

"That's only a few of 'em," he said. "Those are just the choice ones."

BEG YOUR PARDON

An item describing the shooting of two young men by Policeman Naegle referred to the victims as "alleged bandits." One of these, Joseph Pavloe, died of his wounds. The other, Eric Ericson, is recovering. They were not bandits. They carried no pistols. It is the contention of their relatives that they were merely victims of an unfortunate circumstance.

AIN'T IT A GRAND AND GLORIOUS FEELING?

MEN ARE LIKE THAT

Blue Ribbon Fiction

BY CLARA E. LAUGHLIN

SALLIE BECOMES DISQUIETED.

When Sallie was gone, Charlotte felt less overshone. Mrs. Laurence made her rather glad that she didn't care much for dress—Mrs. Laurence cared enough to make up for a good many women's deficiency—and the table talk speedily turned upon subjects wherein Charlotte had an eager interest and no meager information.

O'Hara Foy leaped into the stage center like Fred Stone making his first entrance after one raisin too many in his home brew. Charlotte detested his assurance and his impudence; but she took no part in combating them. Neither did Jim; nor their hostess; nor Mrs. Laurence. Janet made no haste to the fray; but when it was forced upon her she fought well. Netley Laurence came in from time to time; but his observations were extremely shallow. Hal Porter was a good editor, at his table as in his office; he knew how to get the liveliest expression of ideas out of contributors without imposing more than enough of his own to get them going.

Foy coruscated like a young Bernard Shaw—less apt, doubtless, but nimbler than Shaw has been for years; he flung paradoxes about, like a Chesterton at his friskiest.

But Janet faced it all, unblinkingly. The advantage was hers, from the outset, because Foy antagonized his listeners—as much by his manner as by the attitude he took; whereas Janet kept an imperturbable calm, an open mindedness manifest in all she said, and an impersonal air, which made the others wish for her victory. She was accustomed to debate; it had played a great part in her days as a militant suffragete; she could be heckled without flinching. She was a good sport; Foy was not.

Charlotte was prouder than ever of Miss Pemberton.

After they left the table and returned to the library, she easily found herself tête-a-tête with Jim, eagerly discussing with him the debate to which they had listened. She was so glad to be assured that Jim's estimate of Foy was at least as unflattering as her own.

"I hate that glittering talk," she declared, vehemently. "It misleads so many persons who can't think; yet there's absolutely nothing to it but shine. Wasn't Miss Pemberton splendid? She didn't leave enough of him to glimmer. But I'm sure he doesn't know it."

If the simplicity and directness and earnestness of Jim had appealed to her when she saw him at his plant, they doubly, trebly, appealed to her now, in contrast with O'Hara Foy's self-conscious, cynical sophistication.

Jim found Charlotte's intense enthusiasm for the thing he was trying to do, the ideas he believed in, quite wonderfully refreshing. She gave him new zest for his labors. She was a fine, earnest type of girl—one of the most interesting young women he had met in a long time.

Janet, still engaged in skirmishes with Foy, though the talk had become more general with the return to the library and the passing of coffee and cigarettes, cast many a glance toward the window embrasure where Charlotte and Jim were ensconced.

She had not yet said anything to Charlotte to let the girl know that what she thought was her secret was no secret at all. Charlotte had given her no opening. And Janet knew how great hurt a clumsy effort to aid might do. She thought it would be best to wait at least until after this little party. Perhaps when Charlotte saw Sallie and Jim together, she would feel differently. It is one thing to find the man you might have loved married to a woman who does not make him happy; and to dream how much you might be to him, were the right yours. It is another thing to see a man who attracts you radiantly happy with a charming wife who adores him and whom he adores. Janes had hoped much from seeing Sallie.

But Sallie was at the theater, charming hundreds—more or less charming them—and she had not heard that talk between Janet and O'Hara Foy; so she could not discuss it, point by point, with Jim—discovering a completer harmony of ideas at every step of the discussion.

No one had made a move to go when Sallie came back. Even if any one had felt like going, he would doubtless have deferred doing so, out of consideration for the little girl who had to miss the party.

Foy attached himself to Sallie immediately—perhaps because she was the new center of interest and he naturally identified himself with it; perhaps because he considered that she was one of those women who fill but do not transcend their sphere—who, having been born to please, content themselves with doing it. He flung deft compliments at her as if he were pelting her with violets.

"You've no idea what a time I've been having," he complained, gayly. "Miss Pemberton's been putting up a tremendous argument for women as pioneers of progress and not mere profiters by it. I've been trying to contend that it's woman's loveliness to which we owe most progress, because it drove men into competition for her rewards."

His tone, his look, indicated that he rated Sallie's influence upon intellects like his own, above all the labors of the feminists.

Sallie dodged it—naively but neatly.

"You must have had a time—arguing that with Miss Pemberton!" she said, innocently.

Foy had no way of guessing what, if anything, she meant by that.

Charlotte watched Jim's face. His attention was fixed on Sallie; and the faint smile which played about the corners of his lips, his eyes, as she replied to Foy, was full of pride and delight.

"I love to see them tackle her," he murmured to Charlotte. "They never get by with it—and they never quite know just why they fail. She has such a lot of that stuff tried on her, and she dodges it so beautifully it's a treat to see her do it."

"Doesn't she—like it?" Charlotte asked, falteringly.

"Not any better than we do," he answered.

Charlotte was strangely thrilled by that "we"—as if she and Jim were a partnership, and Sallie were some one else.

If, a week ago, any one had told Charlotte that such things as this were possible to her she would have denied it, indignantly.

Sallie had not failed, when she came in, to note the tête-a-tête in the window nook, and to apprehend that it had been going on for some time. And for the first time in her relations with Jim, she was jealous. Not confessedly so, but the question which brings torment raised itself for the first time in her mind.

Half an hour later the party broke up.

Sallie kept herself well in hand, but not so well that Janet could not read her disquieted heart.

"Dear, dear!" Janet murmured within herself. "Here's a pretty howdy-do—or the beginning of it. It mustn't go on. What to do about it? What to do?"

Fortunately, she was wise; she knew the danger of rushing in on such a situation. So she said nothing, and waited for her cue.

It came in due time.

While stealing a ride on top of a north bound Illinois Central passenger train, an unidentified youth was killed yesterday. He was knocked from the train as it was passing beneath the elevated railway structure at East 63d street.

Salvation Army on Trail of Fakers Using Its Name

The "missing persons" bureau of the Salvation Army has been assigned to the task of running down fakers who have been wearing its uniforms and collecting in its name. One gang is said to be making a tour through the middle west in wagons, camping at night.

Seek Relatives of Man Who Died in Hospital

Miss Martha T. Shank of Rochester, Ind., is endeavoring to find relatives of Edward C. Hill, formerly employed by her, who died Saturday in an Indianapolis hospital. His mother, Mrs. Christena Hill, and a sister, are believed to live in Chicago.

The Inquiring Reporter

Every Day He Asks Five Persons, Picked at Random, a Question.

Question.

How many times a day should a husband kiss his wife?

Where Asked.

Monroe and Dearborn streets.

Miss Helen Smith, 2735 North Halsted street, manicurist—He ought to kiss her when he leaves for the office in the morning and when he comes back at night. Of course, on her birthday or other holiday occasions he should kiss her more than that. And if I were married I wouldn't want any lukewarm ones, either.

R. D. Bennett, 4145 Vincennes avenue, bank clerk—Well, I don't know. I'm not a married man, so I cannot speak with authority. When I marry, I'll kiss my wife every chance I get. They like it, and I suppose I will like it, too. Anyway, a man should kiss his wife on every pretext.

Mrs. Frances De Krafft, 6203 Princeton avenue, writer—In the morning and the evening—that's sufficient for most wives. Of course, you must make allowance for newlyweds. And when traveling men come home they're probably more glad to see their wives than loop husbands.

William Faellaci, 4530 North Lowell avenue, bank clerk—A hard working man only gets a chance to kiss his wife in the morning and evening. A rich man can come home at noon and register affection. Most of the couples you see these summer evenings kissing in the taxicabs are really husbands and wives making up for lost time.

Miss Florence Loftus, 1120 North La Salle street, bookkeeper—This is very embarrassing. I'm not married, you know. Well, I expect some day to be lured by Mr. Mendelssohn, the wedding march pied piper; and when I do, I'm going to watch my husband. Kisses are the best test of affection. If he kisses me often, I'll know he loves me and then I'll be happy.

HOLD NEGRO FOR MURDER.

Fred Scott, a Negro, 2358 South State street, was ordered held to the grand jury on a charge of murder yesterday by a coroner's jury investigating the death of John Dennis, also a Negro of the same address, who was shot to death last week during a quarrel in the latter's room.

EYES OF GRAND JURY ON BUILDING MATERIALS MEN

Charge "Trusts" Boost Prices Here.

Action designed to break up combinations in the building materials industry, declared responsible for the present high prices of cement, terra cotta, brick, lumber, cut stone, and other products, was begun by the special building grand jury yesterday.

Indictments charging conspiracy to form combinations and pools in restraint of trade are expected by the state's attorney. Fixing of prices and the farming out of contracts are included in the charges.

Attorney Joseph B. Fleming, counsel for the Dailey legislative committee, said yesterday that when the committee meets Sept. 15 it will concentrate its fire on the building materials men.

Expects Sensational Expose.

"Last spring," Mr. Fleming said, "business agents and union officials were the main targets in the investigation of charges of extortion and graft. I believe the expose in the building materials industry will rival in sensationalism the high lights of the earlier inquiry.

"During the summer we have examined scores of witnesses in the cement, brick and lumber field. They have told how combinations have operated to dominate and the sale of products.

"On the retail side, manufacturers have regulated the amount of cement, lumber or stone that a retailer should have. Five manufacturers control the entire cement business in Chicago, fixing the prices and controlling the distribution.

"Associations of building material contractors arrange the farming out of contracts. The contractors in many instances agree that one man only shall bid low enough to get certain work.

"At other times it is charged that unions in material industries work with the associations to force independent dealers to join the association. This is done by refusing union labor to the independent dealers."

Landis Hits Metal Workers.

Judge Landis, arbiter in the building trades controversy, told the employing sheet metal contractors yesterday to use their own discretion in dealing with the employés.

The judge's ire was aroused when officials of the sheet metal workers' union failed to appear for a conference in which certain clauses were to be discussed in reference to the employés' working agreement. It was the third time the union representatives had refused Judge Landis' invitation to take part in the conference.

The judge's declaration was interpreted to mean that the old scale of high wages paid the workers would not be insisted upon longer and that employment of non-union men might be permitted.

GLASS WORKERS ACCEPT CUT.

Cleveland, O., Aug. 30.—An agreement was reached here today between the National Window Glass Workers' association and National Association of Window Glass Manufacturers whereby the union, according to Joseph Neenan, president, accepted a 28 per cent reduction in wages. Approximately 15,000 men and sixty factories are involved.

YOUTHS CONFESS THEY MURDERED MAN IN HOLDUP

Captured through the persistency of Motorcycle Policeman Grover Gormley, Eddie Lonien, 3204 South Wells street, last night confessed that he killed Stephen Yuskcurda, 4746 South Elizabeth street, in an attempted holdup Saturday night.

Gormley was off duty that night, when at 35th street and Archer avenue he saw two men drive along in a lightless machine. He ordered them to halt. They shot at him by way of answer.

A few minutes afterwards Yuskcurda, returning home from a party with Miss Julia Solenske of 2952 West 40th place, was accosted by two men in an automobile. They ordered him to throw up his hands. He did not understand and was shot through the heart. The automobile was later found abandoned at Archer and Lawndale avenues.

Gomley dedicated himself to the task of catching the two men who had shot at him and succeeded. He caught Eddie and his brother, Lonien, Monday night.

POLICE SEEK TWO GIRLS; VANISHED ON WAY TO WORK

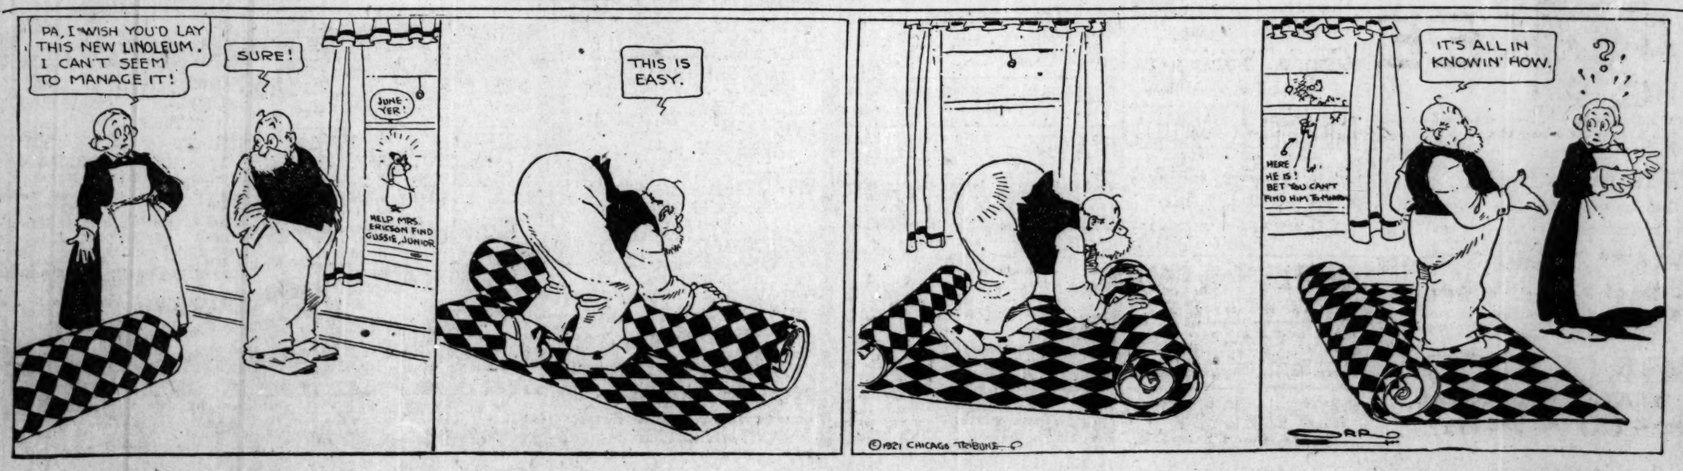

Mrs. Mary Gaglino, 441 West Oak street, appealed to Desk Sergeant James Flynn of the East Chicago avenue police station yesterday to find her daughter, Lena, 16 years old, who left her home last Wednesday to go to work and has not been heard from since. She was accompanied by Mary Prima, 16 years old, 1167 Chatham court, a close friend, who also has disappeared. The mothers of the girls fear they are held by force.

LENA GAGLINO.

Lena is described as being 5 feet, 4 inches tall, weighing 100 pounds. She is slim and has dark hair and eyes. Mary Prima is 5 feet 4 inches tall, and weighs 150 pounds. She is stout and has brown hair and blue eyes.

By Mae Tinée.

NEVER having seen the play "Liliom" by Franz Molnar from which "A Trip to Paradise" was adapted, I haven't a word to say regarding the relative merits of stage and screen production. All editorial we can venture an opinion about is the picture as it stands. That picture, ladies and gentlemen, is a peach!

It's getting now so that people who see many films, scores of which must have been visited upon mankind by the gods as a punishment, purr when the name of Bert Lytell is flashed across their vision. Maybe he won't have a great story. Maybe his director won't know how to handle the story he has. Maybe his support will be inadequate. But Bert Lytell himself will do something worth while. That is, judging from past performances you think he will. He seldom disappoints.

In the present instance he is great. He is a "barker" son of a "barker," and, I believe, grandson of one. Through a megaphone he advises crowds that throng an amusement park of the marvelous attractions of "A Trip to Paradise." The widow who runs the show is wild, simply wild over him.

She's an old-young widow with adjustable attractions. Meaning that most of her endearing young charms can be detached at will in the privacy of her apartment. Curly suffers her infatuation only because hers is the hand that feeds him. He is a good "barker" and knows it. He also knows that all he is IS that.

And then one day his eyes meet the eyes of Nora O'Brien who isn't like any girl he'd ever met before in his crackerjack existence. He loves, woos, and marries her in a day. Whereat the worm, which is the widow, turns—into a snake—an' poor Curly minus job and plus a reputation for dishonesty finds himself up against a hard cold world. It seems to Curly Flynn that there is no justice.

And always at his elbow is one Meek who "knows a way to make a coupla thousan' dollars."

After months of striving for the job that never materializes Curly in desperation agrees to rob a safe.

He and his companion are surprised in the act by the owner. Meek shoots. Curly, throwing himself between the intended victim and the would be slayer, gets the bullet.

Under the influence of ether, strange dreams of a higher court and the justice that is God's come to him. He is permitted to return to life to atone.

On this incident, I understand the Molnar play was founded. The incident is merely an incident in the screen version.

"A Trip to Paradise" is mighty well handled—all but the extreme ending which is trashy. Miss Valli as the adoring Nora wrings your heart. All minor parts are well played.

But it's Bert Lytell who carries the picture. Long may he wave!

Scolding the Landlord.

My little son had been in the habit of pounding everything in sight with anything he happened to have in his hand, and had been punished many times for doing this and cautioned not to do it again.

One day I heard the hammering and called out, "I am coming out and punish you severely for pounding that back porch!"

The answer was from my landlord, who said he had just come to repair the railing. I explained at once, although embarrassed.

Literal.

I have a habit of saying, "O, Percy, pass the pickles!" on any and all occasions. One night daddy brought an out of town customer home to dinner. He was a sedate person of about 50 and far from congenial. Mother and dad began talking of a man in New York whom this man knew.

As usual, I exclaimed in a voice of awe my pet phrase. Can you imagine my utter embarrassment when that stately, stiff old soul reached for the pickles and set them in front of abashed me?

I later was told that Mr. Hermann's name was Percy and he thought that I really meant what I said. O. E.

TRIBUNE COOK BOOK

BY JANE EDDINGTON.

Melon Ice.

It is enormously fashionable to eat melons—in some cases the most expensive melons that can be secured—at late breakfasts, early luncheons, or at any luncheon, and many devices have been tried out and abandoned for utilizing the cantaloupe in made dishes. Some of the other melons are excellent as one of the ingredients in a fruit salad, but he who best knows the worth of the cantaloupe will take it only "au naturel."

One of the unreasonable ways to eat it is with salt and pepper. This is hardly more justifiable than to put salt and pepper on a delicate water ice. That is about what a well chilled cantaloupe is, a delicate water ice with a natural rather than a frozen mush to give it a little body.

A truly sweet melon no more calls for seasoning, it seems to me, than a fine apple does. But if we must make additions to it, let these be fruit juices and sweet elements. If we should get a case of melons of a rather imperfect quality the pulp of these may well be toned up with sugar sirups and fruit flavors.

A lately printed recipe, which I have not tried out, seems to me altogether reasonable of method, although the amount of lemon juice used seems a little too ample. It reads:

"Freeze until mushy one quart of water in which two cups of sugar have been boiled for five minutes, then allowed to cool; add juice of three lemons. While freezing scrape out the juice of four small Jenny Lind melons, press through a colander, and sprinkle with one-half cup of sugar; let stand a while, then add to the almost frozen mixture and complete the freezing."

Sprinkle one or two Allen's Foot-Ease Powders in the Foot Bath and soak and rub the feet. It takes the sting out of Corns and Bunions and smarting, aching feet. Then for lasting comfort, shake Allen's Foot-Ease into your shoes. It takes the friction from the shoe, rests the feet and makes walking a delight. Always use it for dancing parties and to break in new shoes. Over One Million five hundred thousand pounds of Powder for the feet were used by our Army and Navy during the war. The Plattsburg Camp Manual advises men in training to shake Foot-Ease in their shoes each morning.

Maroussa Russell to Be 'Bud' This Fall; Circled the Globe

MR. AND MRS. EDMUND A. RUSSELL and Miss Maroussa Russell of Lake Forest, arrived in New York Saturday and are expected to reach home tomorrow after a year's absence, during which time they have toured the world. They spent some time in the orient, and then visited Europe and England. They toured the battlefields of France and Belgium, in which Mr. Russell was particularly interested, having been chief of the ordnance department in Chicago during the war. He was awarded the distinguished service medal for his efficient work. Miss Russell will make her debut this season, probably in Lake Forest, before she and her parents move into the city for the winter.

Mr. and Mrs. John A. Chapman of Lake Forest have returned from an eastern trip. Their niece, Miss Anita Dunn, who has been spending the summer with them, will return this week from a house party given by Mrs. Cyrus Bentley at her summer place at Huron Mountain, Mich., for her son, Richard Bentley. Miss Dunn's parents and sister, Mr. and Mrs. Morrill Dunn and Miss May Dunn of 102 Bellevue place, will return from Natchez, Miss., later in the autmn. Miss Anita Dunn's marriage to Keith Carpenter, son of Mr. and Mrs. Augustus A. Carpenter of Lake Forest, will take place this autumn, but the date has not yet been set.

Mr. and Mrs. Benjamin F. Taylor of 10 East Schiller street have returned from a visit in Cobourg, Can.

Mr. and Mrs. Harlan W. Cooley of 5318 Greenwood avenue, will return from their summer place at Lakeside, Mich., about Sept. 15. They returned there yesterday after a brief stay in the city, and have as their guests their son-in-law and daughter, Mr. and Mrs. Rudolph Altrocchi of 5726 Blackstone avenue.

Mrs. John W. Root and small daughter, Denise, returned last week after spending the summer in Europe, and have gone to Forest Lodge, at Traverse City, Mich., for a visit with Mrs. William S. Monroe. Mr. and Mrs. Root have taken an apartment at 25 East Walton place for the winter.

Mrs. Edward Lawrence of 1224 Lake Shore drive has gone to Watervliet, Mich., to spend the remainder of the season with Mrs. William L. Baum.

Mr. and Mrs. William Sherman Hay of 3300 South Michigan avenue will leave Friday for an extended trip to the Pacific coast.

I. Newton Perry of Lake Forest has left to join his family at Watch Hill, R. I.

Mrs. Frederick M. Schmidt and Miss Dorothy Schmidt have returned from a two months' stay at Grand Island, Mich., and are at the Drake for the winter. Miss Schmidt will be a debutante of the season.

Mr. and Mrs. William J. Chalmers of 1100 Lake Shore drive will return the latter part of September. They have spent the summer abroad. Their daughter, Mrs. Norman Williams, who has been with them, will spend the winter in Europe. Her daughter, Joan, will enter a girls' school abroad.

Mrs. William M. Burton will give a small luncheon today at her residence in Lake Forest.

Mrs. D. Harry Hammer of 3903 Lake Park avenue is visiting Mrs. Laura M. Fletcher at Sister Bay, Wis.

Mrs. L. Hamilton McCormick of 631 Rush street is in Washington for a ten days' stay.

Will Be a Bride

MISS GLADYS O'CONNOR.

MR. AND MRS. GEORGE O'CONNOR of 5431 Michigan avenue, announce the engagement of their daughter, Gladys, to Paul R. Borland.

"Bridgettes" of Lake Geneva Clash with Oconomowoc Team

SEVERAL of the Lake Geneva summer colony motored over to Oconomowoc yesterday for a bridge match at the Oconomowoc Lake club. They reached the club in time for an early luncheon, after which they played fast and furiously until about 5:30 o'clock. Mrs. Edward F. Swift and Mrs. Francis T. A. Junkin, both of Lake Geneva, have presented cups for prizes.

The Lake Geneva players were Mrs. Swift, Mrs. Junkin, Mrs. Lyman A. Walton, Mrs. William N. Pelouze, Mrs. Edwin F. Frost, Miss Katherine Frost, Mrs. W. C. Jackson, Mrs. Emil C. Wetten, Mrs. John Clifford, Miss Clifford, Mrs. Hubbard Carpenter, and Mrs. George G. Parker.

On the Oconomowoc team were Mrs. Albert J. Earling, Mrs. George W. Dixon, Mrs. Nelson Hopkins, Mrs. S. L. Pierce, Mrs. Lawrence Fitch, Mrs. George B. Earling, Miss Glenn, Mrs. Paul Walker, Mrs. W. H. Miller, Mrs. E. R. Busby, Mrs. Walter E. Faithorn, and Miss Grace Dixon.

A return match will be played at the Lake Geneva Country club shortly. The following Lake Genevaites accompanied their team to Oconomowoc: Mrs. Homer A. Stillwell, Mrs. Armin W. Brand, Mrs. Frank A. Rehm, Mrs. Augustus W. Maxwell, Mrs. Augustus D. Curtis, Mrs. Edward E. Ayer, Mrs. Henry Veeder, Mrs. L. A. Carton, Mrs. Frederick D. Countiss, Mrs. Wylie, Mrs. Casey, Miss Davidson, Mrs. Test, and Miss Hayes.

Mrs. Charles L. Hutchinson will open her residence in Lake Geneva today at 3 o'clock for a meeting of the Lake Geneva Garden club.

MRS. WALTER D. CORNING.
[Photo by Gibson, Sykes & Fowler.]

AT St. Paul's Episcopal church, Dorchester avenue and 50th street, yesterday evening the marriage of Miss Dorothy White Wilson to Walter D. Corning, who served overseas with the 131st United States infantry, was solemnized by the bride's brother, the Rev. Frank E. Wilson, senior chaplain of the 86th division, A. E. F., and now rector at Eau Claire, Wis. Mrs. Corning is a daughter of the late Rev. William White Wilson, rector of St. Mark's Episcopal church for twenty-three years. A sister, Miss Grace E. Wilson, who attended the bride, is a deaconess in the Episcopal church, serving at the Church of the Epiphany, Ashland boulevard and Adams street.

BEAUTY ANSWERS

BY ANTOINETTE DONNELLY.

EUGENE: DOCTORS ARE INcreasingly shy of meddling with moles and warts. Better accept them as "blessings not" unless a skilful physician advocates their removal. Everybody has some beauty ill, and these are among the mild ones.

PUZZLED: THE FEET SHOULD point directly ahead or turned in at the slightest degree. When you walk with your feet out they look much larger. One of the corrective measures for flat foot and weak arches is to turn the toes in slightly when you walk.

MRS. C. C. H.: YES, SOME GOOD exercises for weak arches. Send the s. a. e., please.

Isabel Watkins Selects Oct. 22 as Her Wedding Day

MISS Isabel Watkins, daughter of Mr. and Mrs. Joseph O. Watkins of 199 Lake Shore drive, has chosen Saturday, Oct. 22, for the date of her marriage to Alexander H. Revell, son of Mr. and Mrs. Alexander H. Revell. The wedding will take place at 4:30 o'clock in the afternoon at the Fourth Presbyterian church. Mr. and Mrs. Watkins and Miss Watkins are spending the summer at the Exmoor club in Highland Park, but will return to their apartment shortly after the marriage of Miss Mary Dennehy and Hempstead Washburne, which will take place in Winnetka Sept. 10. Miss Watkins will be a bridesmaid at the Dennehy-Washburne nuptials.

Fashion's Blue Book

BY CORINNE LOWE.

NEW YORK.—[Special Correspondence.]—The high collar is the nec(k)romancer changing middle age to youth. In spite of this fact, the magician has no large following. Disregarding the famous example of Sarah Bernhardt, who for many decades has been swathing her throat in scarfs, the average American woman prefers her boat shaped neckline without any softening influence. And, although a few high collars appeared this summer, the mode has never really taken with the mass of women.

This fall? Who shall say? All that we know is that quite a number of the early autumn modes are graced with high collars—aye, even ruffs. These modes include suits, notably the famous paletot styles of Lanvin, which are frequently finished with high collar.

Here we are presenting a dance frock with the overslip of black tulle veiling, the silver tissue of the frock continued into a plaited ruche held in place by a narrow band of black velvet turned loope in the back. From the twisted girdle seen so frequently this fall depend sprays of rose and silver flowers.

ALL GRAIN PRICES SLUMP DESPITE BULLISH FACTORS

BY CHARLES D. MICHAELS.

Bullish sentiment in wheat is not strong enough to bring sufficient buying to offset the effect of the hedging and profit taking sales on the bulges and numerous set backs are encountered. The close yesterday was at around the inside with losses of 1¾ to 2¼c. Liquidation by holders of September corn, oats and rye carried prices down and they closed with losses of 1 to 1¼c on corn, ⅝ to ¾c on oats, and 1¼c on rye

Traders are buying on breaks and a few are satisfied with small profits on bulges while others believe that the situation warrants sticking to the buying side of the market, while others advise against short sales. September was up to $1.21½. December to $1.23¾ and December to $1.26¼. The finish was on an average of 2c from the top.

Export Buying Takes Offering.

During the morning the trade hesitated owing to the export buying being reported slow. This has been the custom of late on the part of the seaboard when the market shows a disposition to advance. On the break export and eastern buying developed sufficiently to absorb the offering without affecting values. Resting orders assisted in supporting the market at times while on the bulge hedging sales and general selling predominated. Houses who were among the best buyers a few days ago at lower prices were the largest sellers. One house sold May early and became a buyer on the break. There was buying of September and selling of December at 1¾c difference and large orders to change at 2c. Northwest and southwestern houses were good buyers of September. The advance in stocks and the continued rise in cotton, which is up over $17.00 a bale of late, was without effect on the grain markets.

Export buying that developed late in the day aggregated 1,260,000 bu at the seaboard while sales were only 250,000 bu. Cash premiums here held well, although springs were easy.

In the northwest arrivals were 862 cars against 868 cars a week ago and 422 cars last year. At the three southwestern markets arrivals were 546 cars against 616 cars a week ago and 438 cars last year. Winnipeg had 546 cars against 438 cars last year.

Longs Free Corn Sellers.

Longs in September corn were free sellers and cash houses had fair quantities to sell at times. Buying was scattered and the price dropped 1½c to 53c with the close ⅛@¼c better. Changes from September to December were at ¼c difference, both being at the same level at the finish. Liberal sales continue to be made by the country. Exporters were after corn despite the blockade at Canadian ports and at Georgia Bany and 1,000,000 bu sold here and 400,000 bu at the seaboard.

Oats were under pressure of tired longs while their offerings were taken by elevator interests who were buying September and selling December in changing hedges at 3½c difference. Commission houses were fair buyers on resting orders. Prices declined 1c and closed at 33⅝@33¾c for September, and 41⅝c for May.

Seaboard exporters and the northwest sold rye, the former September and the latter December. Export sales at the seaboard were 200,000 bu. Barley was in good demand for export with light sales.

Big Lard Sales Reported.

Buying of nearby deliveries of lard by the big packers continues to suggest a good export demand and sales of 2,300,000 lbs were reported by one house. Offerings were not large and prices closed at the top with gains of 5@10c. Ribs were easy and 10@15c lower. Fat backs were in demand for export with good sales and prices ½c higher. Hogs closed easy. AVAILABLE GRAIN STOCKS

World's available supply of wheat decreased 3,634,000 bu last week, as compiled by Bradstreets. Stocks of corn in the United States and Canada decreased 621,000 bu. and oats increased 2,586,000 bu. Details follow:

CASH·GRAIN N·E·W·S

Export sales of wheat in all positions at the seaboard were estimated late in the day at 1,250,000 to 1,500,000 bu, with 400,000 bu corn and 200,000 bu rye. Chicago handlers sold 250,000 bu wheat and 1,000,000 bu corn to the seaboard, with charters for 250,000 bu wheat, 700,000 bu corn, and 200,000 bu rye at 2c to Buffalo.

Premiums on winter wheat at Chicago were decidedly firm, with No. 2 red 4@4½c and No. 2 hard 3½@5c over September, both showing ½c better than the previous day, while No. 3 grades were 2½@3c over the future. Spring wheat premiums were unchanged. Receipts, 97 cars.

Southwestern cash wheat markets were easier, with Kansas City 1@4c and Omaha 2@3c lower, while St. Louis was unchanged to 2c lower. At Minenapolis choice kinds were 2@5c lower, but the medium and low grades generally were unchanged. Winnipeg premiums were off 2c for the day.

Cash corn was ½@1c lower at Chicago, with shippers and industries good buyers and No. 1 and No. 2 yellow and white selling at 1¼@1½c and mixed at 1@1¼c over the September. Receipts, 460 cars. Outside markets were 1c higher to 1¼c lower, the latter at Milwaukee.

Cash oats continue to gain on the September, and while sample values were ½@1c lower, No. 2 white sold at 1½@2c over, No. 3 white at ¾@1c under, and No. 4 white 3@5c under the future. Receipts, 102 cars.

WORLD'S·GRAIN MARKET·NEWS

There are 17 steamers at Georgian bay ports with grain and 15 to 20 on the lakes or loading for those ports. Elevators there are unloading 3 to 4 boats daily and a blockade is imminent. Montreal is congested, and efforts are being made to have the ½c extra charge to that port absorbed so that grain can be sent to Quebec. It may also be necessary to send grain to Portland, Me., unless relief comes at once. Winnipeg reports congestion and Canadian grain may have to be diverted to Buffalo. It is a situation needing close watching.

Contract stocks of wheat in public elevators at Chicago Saturday night aggregated 507,000 bu, corn 2,067,000 bu, and oats 7,435,000 bu. As compared with the previous week wheat shows a decrease of 627,000 bu and corn 112,000 bu, while oats increased 823,000 bu.

There are 5,151 cars of grain now on track at Chicago waiting to be unloaded, representing a reduction of over 5,000 cars from the recent high point. Under normal conditions there is usually around 3,000 cars on track here, the number depending on the size of the movement.

A smaller winter wheat acreage for Kansas is predicted by J. C. Mohler, secretary of the state department of agriculture. Unfavorable markets and dry weather the last week, the latter making preparation of the ground difficult, are given as the reason.

"In spite of decontrol there is a continued pronounced demand for wheat from central Europe," said a message from Broomhall. "Southern Europe countries, on the other hand, are not in the market."

"Producers who were antagonistic to the Board of Trade have no complaint to make against the speculator in grain," said J. F. Jackson, with Pynchon & Co. "He has and is carrying the load of grain. Speculators are not buying short wheat, but actual hedging sales, and while the export demand has been heavy it has not been large enough to absorb them."

PRODUCE MARKETS

A break of 1c in butter prices at New York created weakness and a lowering of values in all markets with light trading.

Cheese trade was better in some spots and slower in others and on the whole fair at Chicago. At Wisconsin points business was light and in the east trade was slow and prices unchanged.

Fresh laid eggs were held more firmly with a better call, otherwise the market was slow. Receipts were 15,668 cases, against 11,991 cases last year. Live poultry prices were unchanged with trade good and arrivals 6 cars and 880 coops.

Potatoes declined 10c with a moderate trade. Arrivals were 86 cars with 300 on team track.

Fruits are moving well with ample supplies. Melons sold rather slowly with good offerings.

Milwaukee Electric Ry. and Light.

J. S.—The Milwaukee Electric Railway and Light company has shown a steady increase of gross earnings for years. Last year it covered interest charges one and one-half times. It has strong backing and its 7 per cent gold notes are well secured. They appear to be a sound investment. The $3,000,000 of 8 per cent cumulative preferred stock now being issued to refund debts incurred by the company is preceded by $37,532,000 of funded debt and shares its priority of claim on dividends with $4,500,000 of 6 per cent preferred now outstanding. The balance available in 1920 would cover dividends on both classes of preferred over four times. This new stock looks good, but is hardly suitable for the savings of a workingman.

Central Maine Power.

J. M. V.—The Central Maine Power company supplies electricity to ninety cities and towns in the state of Maine. It has recently issued $3,000,000 first and general mortgage bonds, due 1941. These are secured by a first mortgage on the properties in three cities and also a mortgage on the remaining property of the company, subject to a total of $5,747,900 first mortgage and divisional bonds. Gross earnings for the year ended June 30, 1921, were $2,136,746 and net were $923,788. This is over 1.8 times the total annual interest charges. The bonds rate as a business man's investment.

Brief Answers.

J. V.—On July 29, 1921, the Interstate commerce commission authorized the Texas City Terminal Railway to issue 5,000 shares of common stock and $1,984,300 of twenty year 6 per cent first mortgage bonds. The bonds will be delivered shortly after Sept. 1 and the interest due on the first coupon will be paid at the time of delivery. The exact date has not been set.

RAILROAD NOTES

Complaints against the Chicago, Burlington and Quincy railroad and the Peoria Railway Terminal company, charging that "unreasonable and prejudicial" rates on coal shipments are in effect between La Marsh, Peoria, and Galesburg, were filed with the Illinois Commerce commission yesterday by the M. E. Case Coal company and the Dempsey Coal company, who want a readjustment of coal rates.

Approval of a twenty-five year lease of some of its property in Cairo to the war department was asked in an application filed by the Illinois Central railroad with the Illinois commerce commission yesterday. The lease turns over to Secretary Weeks some of the Illinois Central tracks on the water front, to be used in connection with the interchange of cargoes between rail lines and barges of the Mississippi Warrior service.

During the first twenty-seven days of August 139,546 cars were handled by the Chicago and Northwestern, compared with 144,130 for the corresponding period a year ago, a decrease of 4,584 cars. The Chicago, Rock Island and Pacific reports 127,961 cars handled during the first twenty-six days of August, compared with 113,600 for the same period last year, an increase of 14,361 cars.

The traffic club's annual outing will be held today at Delwood park, Joliet. A special train will leave over the Chicago and Alton at 9 a. m., Chicago time.

UNION TRUST COMPANY CHICAGO — 1869 — 1921 — A BANK OF STRENGTH AND CHARACTER

It Is a Wise Man That Maintains A Good Bank Account

IT HELPS his general credit standing and it places him in position for properly asking bank accommodations whenever needed.

He is able to make quick turns for cash in his business, he obtains the best interest terms on his balances if not a borrower, and when it is necessary to ask this bank for accommodation he pays the lowest rate on his loans.

There is no asset so liquid as cash in bank. There is nothing that indicates a strong financial position more surely than a substantial item in bank balances.

As one of Chicago's oldest Commercial Banks, we invite the accounts of merchants, manufacturers, and individuals.

JOHN N. WILLYS
Automobile Manufacturer, says:

"The rarest man in business is one who is an expert in many lines and also can handle other men."

EVERY man has not the background of training and experience to be proficient in many lines of business. But he can be a team-worker.

It takes something of a diplomat to handle men and to get along with associates. Courage also is needed and patience and the ability to meet others half way. Experts can be gotten —but it takes splendid management to keep them.

The Importers and Traders National Bank seeks to be a close, financial friend to each of its customers. When financial advice is wanted we are glad to give it. And the desire to meet our customers' requirements is always a part of our service.

BIG INDUSTRIES CUT WAGES; RAIL RATES REDUCED

BY O. A. MATHER.

That high wages in the industries and increased transportation costs are the chief deterrents to any real revival in business is becoming more clearly recognized. Viewed in this light, announcements of wage reductions by several industrial concerns and freight rate reductions on a number of commodities formed the important part of yesterday's budget of business news.

The E. I. Dupont de Nemours company announced a 10 per cent reduction in salaries, effective Oct. 1. The Pittsburgh Coal company will reduce salaries 15 per cent tomorrow, the cut affecting between 3,000 and 4,000 members of its salaried staff. The Manhattan Rubber Manufacturing company reduced salaries and wages 10 per cent for about 1,200 employés, following a similar reduction by the New York Belting and Packing company.

Representatives of the National Window Glass Workers' association are conferring with the manufacturers on a new contract, the union rejecting a wage reduction of 28 per cent, but being willing to accept a cut of 25 per cent, according to its president.

Southern Pacific to Cut Rates.

In addition to reductions in transcontinental freight rates on canned goods, dried fruit and other California products, effective Aug. 22, the Southern Pacific railroad has announced reductions on other products from the Pacific coast to eastern destinations, effective Oct. 3. The reductions range as high as 50 per cent on certain articles. Furthermore, representatives of the steel industry and the railroads forming the trunk line association are conferring in New York on a reduction of rail rates on steel-making alloy importations.

Further efforts of the railroads to reduce the wages outlay is shown in the spreading practice of "farming out" repair work rather than do such work in the railroad shops under prevalent high wage scales. The Chicago Great Western road announced it has turned over its car repair work in the St. Paul shops to a private contractor, who will adopt a piece-work basis, which the railroad cannot do under the labor board's ruling.

Rock Island Seeks Repair Bids.

Along the same line, the Rock Island railroad is asking for bids for the repair of 500 cars, while the Erie and the Illinois Central are preparing to have more than 2,000 cars repaired by other companies.

The steel industry presents a mixed situation. The Colorado Fuel and Iron company yesterday announced cessation of operations in its Wyoming iron mines and its Colorado coking coal mines on Saturday. This is the result of deferred orders and overproduction at the Pueblo steel plant, which will employ only 1,500 men compared with 7,500 in normal times.

On the other hand, several iron and steel companies in the Pennsylvania district announced resumption of operations, while another concern has received orders for 25,000 tons of steel rails from the Canadian Pacific, which will keep the mills busy until Nov. 1.

A Closed First Mortgage Bond

Which Cannot Be Called At Less Than 110

These are two of the appealing features of the Wisconsin Traction, Light, Heat & Power Company bonds recently underwritten by us.

This Company serves the rich Fox River Valley of Wisconsin, containing such hustling cities as Appleton, Neenah and Menasha. Its hydro-electric plant at Appleton, operated with a minimum of labor and fuel, transmits power throughout the section.

Because of the Company's strategic location, as well as of its efficient management, net earnings for the last ten years have averaged over 2¼ times total fixed charges. During June and July, 1921, due to recently granted rate increases, the net earnings have been over 2½ times these charges.

This is a proved issue. Authorized as a 5% bond, it now bears a supplemental 2½% coupon which brings the yield to 7½%.

At present prices the net yield is about 7.80%.

A circular with full details will be sent on request.

·CHICAGO·STOCK·TRANSACTIONS·

Chicago stocks yesterday showed the most activity in several weeks, the turnover totaling 16,000 shares. The price trend was upward and short covering resulted in sizeable advances in several issues. Union Carbide led in activity and gained 2¼ points, being helped by declaration of the regular quarterly dividend. Swift International and National Leather advanced minor fractions, while Libby-McNeill was fractionally lower. On small sales Sears-Roebuck rose 3 points, which also was the advance registered in the New York market. It is understood the company's sales for August will show a decrease of about 25 per cent from the figures of July, 1920. This is the smallest monthly decrease shown thus far this year, with the possible exception of April, and makes a fairly favorable showing when the decline in prices is considered. For the same reason Montgomery Ward also advanced 1½ points. Albert Pick gained 1¼, while Stewart-Warner and Booth Fisheries preferred advanced a point each, the latter gaining despite the fact that the directors at their meeting stated they did not consider the time ripe for resumption of dividends, although earnings are expected to improve. Yellow Manufacturing was off a point.

STOCKS' ACTIVITY HELD TO INDICATE TURN FOR BETTER

The New York Times.

New York, Aug. 30.—[Special.]—The general advance on the stock exchange today indicated the more cheerful view which Wall street is beginning to take of the general situation, but it also reflected the closing out of the recent ill judged attempt to force prices lower on the basis of disappointment at the absence of vigorous trade revival. That effort to break the market failed because outside investors would not sell. Their attitude undoubtedly expressed the belief of the general public that, even if return of genuine business activity were to be postponed, underlying economic influences were changing rapidly for the better.

Call money declined on the stock exchange to 4½, the lowest since Aug. 1, and, except for one day in July, the lowest of the year. Time loans stood at 6 per cent or lower.

Day's Business Larger.

Business on the stock exchange was substantially larger than the recent daily average, with advances of 1 to 4 points well distributed, though by far the most active buying occurred in the industrial shares. This represented continued retreat of speculators for the decline. Mexican Petroleum, Atlantic Gulf, United Drug and American Sumatra advanced four points or more, while International Harvester, General Electric, Chandler Motor, Central Leather, American International, Union Oil, and U. S. Rubber preferred gained three points or more. Gilliland Oil preferred sold at 25, compared with 85 for the last previous sale in April.

The railway shares, though not so largely dealt in, made considerable advances, reflecting apparently reassuring inferences drawn from the sweeping economies and gains in net results, which were shown again by more companies reporting for July. Foreign exchange went higher, and the advance in the cotton market continued.

Ripley Plan Causes No Stir.

Wall street did not greatly interest itself in the Ripley suggestion for combination of the country's railways into twenty systems. It is conceded by railway men that the tendency of the future is bound to be in that direction and that it may be the natural outcome of the existing situation. But most people also know that all such proposals are as yet purely academic.

This present "tentative plan" will attract interest because of its entire departure from the government's "anti-merger" spirit of twenty years ago, a departure which recognizes the wholly altered situation.

CORPORATION EARNINGS

AMERICAN AGRICULTURAL CHEMICAL.
A deficit of $11,152,442 after taxes and inventory adjustments is shown in year ended June 30, against a surplus of $5,281,562 for the preceding year.

PACIFIC DEVELOPMENT CORPORATION.
For the year ending Dec. 31, 1920, net income after charges and taxes was $254,000, against $1,331,000 in 1919.

WOOL MARKETS.

LONDON, Aug. 30.—At the wool auction sales today 10,000 bales were offered. Prices opened strong, and there was good home and continental buying. America was quiet. Merinos were from 5 to 10 per cent dearer, and crossbreeds fine 7½ per cent; medium from 10 to 15 per cent, and coarse from 5 to 10 per cent higher. There was a large attendance at the sales.

Too many hogs for the demand sent values tobagganing yesterday. At the start packers and shippers paid as high as $10.00, but later the same class, fancy 200-lb. butchers, sold at $9.75. Packers favored the better grades consequently many "big heavy" remained unsold, it being estimated a third of the 31,000 on sale were carried over.

Armour houses purchased nearly 4,000 mixed bucher hogs, averaging 235 lbs, yesterday at a cost of $8.85. Another packing drove of selected 210 lb butchers cost $9.75, while good 400 lb packers sold late at $7.00. Day's general average price at $8.30 was 40c above a week ago.

Better grade of cattle met with a good call at steady to stronger prices, with this class as much as 50@75c above late last week. Wilson & Co. bought 978 lb Texas bred yearlings fed in Illinois at $10.75, being within 10c of the month's high point. Poorer grades of steers were barely steady, with butcher stock strong and veal calves 50c@$1.00 higher.

Lamb Prices Again Lower.

Another break of 25@50c in lamb values due to continued excessive receipts, carried best natives and western rangers to $8.50, with few above $8.00 late in the day. Sheep showed less change, being in comparatively short supply.

Seven western markets received 36,000 cattle, 57,000 hogs and 70,000 sheep, against 42,000 cattle, 69,000 hogs and 81,000 sheep the previous Tuesday, and 54,000 cattle, 60,000 hogs and 94,000 sheep a year ago.

Receipts at Chicago for today are estimated at 10,000 cattle, 13,000 hogs and 25,000 sheep, against 10,901 cattle, 43,298 hogs and 34,586 sheep the corresponding Wednesday a year ago.

AUCTION SALE OF SURPLUS GOVERNMENT ANIMALS

There will be sold at public auction at Remount Depot, Camp Pike, Little Rock, Ark., 2,000 surplus horses and mules to the highest bidder for cash. These animals are in excess of the needs of the Army; the horses to be sold are of the heavy draft and cavalry or riding types; the mules are mostly heavy draft mules, some packs; these animals are especially suited for mine work, draying, grading, and farm work. Don't fail to attend this sale. Sale starts at 9 a. m. sharp, September 6, 1921, and will continue until the last animal is sold. Lunch will be on the grounds. Men will assist in loading your stock. Cars will be awaiting your orders on railroad siding near Remount Depot. With each animal sold a halter and lead rope will be given free. Cash or certified checks only will be accepted. A $10 deposit will be required on each animal bid in. For further information address the Quartermaster, Remount Depot, Camp Pike, Arkansas.

FINANCIAL NOTES

The treasury department will announce new financing shortly, according to reports in circulation in New York City. It is expected in banking quarters that the issues will be five year notes, and at the same time an issue of certificates of indebtedness will be announced. The government's next maturity is $341,914,500, due on Sept. 15. The balances of the government on deposit in New York now amount to approximately $300,000,000.

Announcement of the oversubscription of two South American bond issues was made yesterday. The books of the $25,000,000 United States of Brazil bonds were closed during the morning after being heavily oversubscribed and the $7,500,000 Uruguay 8 per cents were disposed of previously.

The organization of Roberts, Hiscox & Co., 29 South La Salle street, with W. F. Roberts, formerly manager of the bond department of the Great Lakes Trust company, as the senior member, was announced.

Directors of the Booth Fisheries company, at their regular quarterly meeting yesterday, took no action on the resumption of the dividend.

The Bankers' Trust company of New York is prepared to deliver in exchange for the outstanding temporary bonds of the state of Michigan 5¾ per cent soldiers' bonus bonds in permanent form with the Jan. 15, 1922, and subsequent coupons attached.

FLOUR TRADE SLOWER

Buying of flour has slumped sharply beginning last Saturday, yet strength in the wheat market has held prices up. Spring wheat flours are $8 to $8.25 in car lots for the best Minneapolis brands and sales to the retail trade are $8.85@8.90, an advance of 2c within the last few days. Bakers grades are $7.60@7.85 in car lots. Hard winters in the southwest are up 30c within a week with 95 per cent patents at $6.25@6.75, and short patents $7@7.50. Soft winters are $6@6.20 for 95 per cent patents, and $6.70@7 for short patents. Exporters are taking clears at 5.65@6 for firsts and $4.20@4.75 for seconds.

What's Coming This Fall?

Will sales pick up?
How about prices, up or down?
Will we see a boom in business?

FOR SALE—
5 YEARS FROM TODAY
WHICH WOULD YOU RATHER HAVE
A PILE OF RENT RECEIPTS
OR A HOME?
TERMS LESS THAN RENT.
If you have $200 you are in a position to do business with us under our plan for obtaining a home in the most beautiful section in the suburban district southwest of Chicago, fully built up to our property on three sides; magnificent trees; wonderful transportation and every detail of the surroundings ideal.
Houses ridiculously cheap in price but not in construction. This is an opportunity of real merit and you owe it to yourself to at least investigate before you make a final move with some one else.
Your average monthly payment will be less than you would pay for rent for the same home in any district of like character in Chicago; make your rent money buy your home. Be the owner of valuable real estate instead of the possessor of a pile of rent receipts.
We have built over 7,000 buildings in Chicago and vicinity.

USED PAIGE CARS

THEIR PRICES

All Motor Car purchases this year were dependent upon price, and buyers of Paige Cars have witnessed two of these price readjustments.

We believe they are as satisfied that Paige Cars have reached the bottom as we are sincere in telling them so.

Used car buyers for some time back have ceased asking for bottom prices, but rather have, as they should, wisely turned to looking for quality for the most money and making their purchases from the most reliable house.

OUR GUARANTEE

Every Paige car offered for sale by us has been overhauled—tested—and is in perfect mechanical condition.

Every Paige salesman will tell you the truth—frankly and openly—about any car we offer in which you may be interested.

That's Bird-Sykes Policy of more than ten years' standing, and why we are having successful sales in used cars.

TERMS

Reasonable terms to responsible buyers without publicity or usual brokerage charge as you deal only with us.

CADILLAC'S 7 BARGAINS

The first two cars listed below are practically new Type 59 Cadillacs recently delivered to a dealer of ours who has returned them to our stock for sale. Neither of these cars have ever been sold by him. They will carry our standard new car guarantee.

CADILLAC 8, TYPE 59, SEDAN. This is the latest series and the same model as we are delivering new today, costing over $5,500. It is painted our standard Cadillac green and has not a scratch on it. Upholstering does not show any wear whatsoever, in fact the entire automobile does not look like a used car. Has a set of Royal cord tires that show practically no wear and one extra. If you are looking for a Cadillac Sedan at a great saving and one that cannot be told from new and carries a new car guarantee do not fail to see this car. Has not been run more than 700 miles. Price $4,750.

CADILLAC 8, TYPE 59, PHAETON. This is our popular 4 passenger sport Phaeton and the latest series. The same car new today would cost $4,200. Is painted a standard Cadillac blue. Like the car described above, it will be almost impossible to tell this car from a new one. The tires, paint, upholstery, top, etc., show practically no wear. This is another bargain and is offered away below the market price, and will mean a great saving to you. Special for this sale, $3,500.

COLE SPORTSTER, MODEL 1920. This car does not look like the ordinary used car. Paint and upholstering look almost like new. Has an excellent set of cord tires, one extra, bumper, clock, motometer, etc. Has been carefully used here in the city and has not had a great deal of mileage. Mechanical condition will bear most rigid examination and demonstration. Without a question this is the best bargain in a Cole Sport Model that we have ever had. The price is low and it will move quickly. Special for this sale, $1,250.

STEPHENS SALIENT SIX TOURING CAR. This is the 1920 model and was delivered to the customer about a year ago. He has not driven it a great deal and has given it very careful use and attention. It is coming into our hands in good mechanical shape. Has a good set of cord tires, one extra, and bumper. This same car costs new today about $2,000. Our price is low and this model will be snapped up quickly. Special for this sale, $875.

PIERCE-ARROW LIMOUSINE 6-38. Model C-4, 1917. Painted a standard Pierce blue. Mechanical condition on this car is exceptionally fine because the car has not had a great deal of mileage. Has an excellent set of Goodyear cord tires, one extra, bumper, clock, etc. Without a question this is the best Pierce-Arrow Limousine that we have ever offered. There is hardly a scratch on the paint. Motor runs very quietly. The upholstery shows practically no wear and the tires show very little wear. If you are looking for a Pierce-Arrow Limousine that we believe to be almost as good as a new one, do not fail to see this car. The price is extremely low and it will move quickly. It does not need any mechanical work or paint. In fact, the car is ready for continuous service without any additional expense. Price $3,250.

CADILLAC 8, TYPE 57, VICTORIA COUPE. This is a double letter series and a very late car of this series. The body on this car is practically a duplicate of our present coupe. We have made a thorough inspection in our mechanical department and replaced parts where necessary, and we will guarantee this car. We have just refinished it in our own paint shop and it has the appearance of a new Cadillac. Has an excellent set of cord tires and one extra. The velour upholstery in this car shows practically no wear. If you are looking for a late series Cadillac Coupe that we believe to be almost as good as new, don't fail to make an examination of this car. Price $2,750.

CADILLAC 8, TYPE 59, VICTORIA COUPE, 4 passenger. This is our latest and current series and the same car that we are delivering new today costing over $5,000. We have never had one of this model to offer at this price that looks so much like new as this particular car does. Paint and upholstery show practically no wear. Cord tires are in excellent shape. Has one bumper and one extra tire. Mechanical condition is guaranteed by this company. We have priced this extremely low to move it at once. If you want a wonderful bargain in a Cadillac Coupe that we believe is as good as new, do not fail to see this automobile. Special for this sale, $3,750.

THE QUESTION

Why do you see so many Oaklands on the streets and roads today?

THE ANSWER

People buy rebuilt OAKLANDS when they cannot afford a new one, for they get the same satisfactory transportation as a new Oakland. For a safe and economical BUY a REBUILT OAKLAND is hard to match. The prices are remarkable.
